Sociology

Transfer Preparation (Major Code: 01901) Associate in Arts Transfer

Sociology is the study of human behavior, social interactions, and social groups. It combines scientific methods with theoretical perspectives, integrating the findings of anthropology, history, political science, and psychology. A degree in sociology is designed to provide students with a broad understanding of human interaction, social processes, social structures, and tools of sociological investigation. The Associate in Arts in Sociology for Transfer (AA-T) degree satisfies the requirements of the STAR Act for Transfer to a CSU.
