

Occupational Health and Safety Program

Occupational Health and Safety emphasizes the causes of and the solutions for hazardous agents in occupational settings, unsafe work practices, and their effect on human health and welfare.

Program Course Requirements

EHMT 100	Introduction to Environmental Technology
EHMT 130	Health Effects of Hazardous Materials
EHMT 201	Introduction to Industrial Hygiene and Occupational Safety
EHMT 230	Safety and Emergency Response
EHMT 260	Occupational Safety
EHMT 261	Occupational Safety Management
EHMT 290–293	Environmental Technology Cooperative Work Experience I–IV

For More Information

- Office of Admissions, Building 103, 619-482-6550
- Environmental & Hazardous Materials Technology Program, 619-421-6700, ext. 5748
- School of Technology & Human Services, Room 570B, 619-482-6460

Environmental Management Program

Environmental Management emphasizes the study of and the solutions for environmental pollution and its effect on the environment.

Program Course Requirements

EHMT 100	Introduction to Environmental Technology
EHMT 130	Health Effects of Hazardous Materials
EHMT 110	Waste Stream Generation Reduction/Treatment
EHMT 150	Hazardous Waste Management Applications
EHMT 200	Environmental Materials Management Applications
EHMT 230	Safety and Emergency Response
EHMT 290–293	Environmental Technology Cooperative Work Experience I–IV
