

# Is Your Computer Ready?

In this class, you'll need reliable computer access to work through module content, interact in discussions, and submit your work. Since we have many short videos to watch in this class, you'll need an internet connection that will allow you to stream video. In addition, you'll want access to a microphone and ideally a webcam to participate in office hours and VoiceThread--a mobile device will work fine in both cases, and you can even use a regular telephone.

Please review the following resources to ensure your technology is ready to support your online learning:

[Getting Tech Ready](#) ↗

[Computer Readiness Test](#) ↗

Did you catch the advice about browser choice in the first tutorial? I strongly recommend that you use Google Chrome as your browser. Firefox, Edge, and Safari will be fine in most situations, but Chrome has proven to be the fastest and most reliable browser when working with modern sites like Canvas. Internet Explorer should not be used.
