Headcount Enrollment Data

#	Question	Answer		
6.	Total unduplicated headcount enrollment:	2017-18: 27,389 2018-19: 27,925 2019-20: 28,824		
6a.	Percent Change 2017-18 to 2018-19: (calculated) Percent Change 2018-19 to 2019-20: (calculated)	2% 3%		

6. Additional Instructions and Data Definitions:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 20.

7. Total unduplicated headcount enrollment in degree applicable credit courses:	2018-19: 2019-20:	24,340 25,031 26,046
---	----------------------	----------------------------

7a. Please list any individual program which has experienced a 50% increase or decrease in the last year.

Construction Inspection; ES/L; Film / Television / Media Arts; Insurance; Learning Skills; Operating Room Nurse; Vocational Nursing

7. Additional Instructions and Data Definitions:

Per federal regulations, ACCJC is responsible for monitoring for significant program growth (or decline) that may potentially impact an institution's ability to meet Accreditation Standards. ACCJC does not determine what constitutes a program for colleges. For the purposes of this report, you may define degree-applicable credit programs as appropriate for the context of your institution's unique mission.

Distance Education and Correspondence Education

#	Question	Answer		
8.	Total unduplicated headcount enrollment in distance education in last three years:	2017-18 8,104 2018-19 8,430 2019-20 9,418		
8a.	Percent Change 2017-18 to 2018-19: (calculated) Percent Change 2018-19 to 2019-20: (calculated)	4% 12%		

8. Additional Instructions and Data Definitions:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

IMPORTANT NOTE REGARDING DATA FROM SPRING 2020: When calculating total DE enrollment for 2019-20, please include 100% online courses from summer 2019, fall 2019, and winter 2020. For Spring 2020, please include only courses that were originally scheduled as 100% online. Omit any courses that shifted to a distance modality due solely to the COVID-19 pandemic.

9.	Do you offer Correspondence Education?	No
----	--	----

9. Additional Instructions and Data Definitions:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve "paperwork" (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

Federal Data

#	Question	Answer
10.	List the Graduation Rate per the US Education Department College Scorecard	25 %

10. Additional Instructions and Data Definitions:

The US Education Department College Scorecard can be accessed at https://collegescorecard.ed.gov/. Enter your institution's name in the search box to find the current graduation rate. For the purposes of the College Scorecard, graduation rate is defined as "the share of students who graduated within 8 years of entering this school for the first time."

11.	If your college relies on another source for reporting success metrics, please identify the source. Click all that apply.	Other: CCCCO DataMart
12.		https://www.swccd.edu/administration/in stitutional-research-and-planning/institut ional-plans-reports-and-surveys.aspx

12. Additional Instructions and Data Definitions:

ACCJC will include a link to this page in your institution's entry in the ACCJC Directory of Accredited Institutions (https://accjc.org/find-an-institution). This reporting and monitoring requirement supports ACCJC's recognition by the Council of Higher Education Accreditation (CHEA) and is aligned with ACCJC's Accreditation Standard I.C.3 and Eligibility Requirement 19.

Institution Set Standards for Student Achievement

#	Question	Answer		
Cour	se Completion Rates			
13.	List your Institution-Set Standard (floor) for successful student course completion rate:	2017-18 67 %	2018-19	2019-20 65 %
13a.	List your stretch goal (aspirational) for successful student course completion rate:	2017-18 70 %	2018-19	2019-20
13b.	List the actual successful student course completion rate:	2017-18 69 %	2018-19 71 %	2019-20 71 %

13. Additional Instructions and Data Definitions:

For the purposes of this report, the successful course completion rate is calculated as the number of student completions with a grade of C or better divided by the number of students enrolled in the course. If your institution calculates successful course completion differently, you may respond using your local calculation and describe your methodology in Ouestion 20.

19. Additional Instructions and Data Definitions:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2019-20 job placement rate will be the number of students who completed the program in 2018-19.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2018-19, you do not need to report a job placement rate for 2019-20. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.

Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

Regarding "Employment Rates for Career Technical Education Students," previous data using Perkins Core Indicator #4 was reported based on the "Fiscal Year," which is the Planning Year for Perkins. Therefore, the 2018-19 Fiscal Year data provided in the 2020 Annual Report referenced students who were in the 2016-17 Outcomes Year (rather than 2018-19 Outcomes Year) and the 2015-16 Cohort Year (rather than the 2017-18 Cohort Year). This has been corrected in the 2021 report. Only TOP codes with a count of at least 10 total students in the 2021-22 Planning Year (2019-20 Outcomes Year and 2018-19 Cohort Year) were included. Additionally, this data comes from two different, but related, data sources: Perkins Core Indicators IV and Perkins Core Indicators V. If the methodology changed between Perkins IV and Perkins V regarding Core Indicator #4 - Employment, the numbers may not be comparable. Access to the Perkins V Indicators was only recently provided by through the RP Group Listserv on March 16, 2021. We will continue to explore potential methodology differences as more information becomes available. Finally, Family Studies' (TOP Code 130800) employment rate institution set standard is based on three years of data compared to the 5 years of data used for other programs because there was a TOP Code change that reduces comparability of historical years.

The data included in this report are certified as a complete and accurate representation of the reporting institution.
