

**Southwestern Community College District  
Procurement, Central Services & Risk Management  
RFP 135 Legal Services**

**Addendum No. 2  
September 19, 2012**

**In response to the Request for Information and Clarifications:**

- 1. The RFP does not specifically mention a need for intellectual property legal support but does say that responses need not be limited to the specific legal areas identified. Does the District need support in the areas of patent, trademark, copyright and other areas of intellectual property law? Would they be interested in and entertain a proposal for support in these areas?**

The District's need for Intellectual Property Law and related areas is limited. The District is not currently seeking firms to provide services in just this area of specialization.
