

Catalog 2008–2009 Addendum

Math Proficiency Requirement

Please update...

Assessment and Graduation Requirements (p 14)

UPDATED

Mathematics proficiency can be satisfied in any one of the following ways:

- Satisfactory completion (credit or grade of “C” or better) of MATH 60 (Intermediate Algebra I), or a higher-numbered mathematics course;
- Mathematics assessment results that indicate eligibility for a higher-numbered mathematics course.

Proficiency Requirements (p 38)

Mathematics Proficiency Requirement

UPDATED

Students are encouraged to satisfy the mathematics proficiency through coursework and to pursue mathematics education beyond minimum proficiency. Transfer students should be aware that the CSU and UC entry-level mathematics examination requires proficiency above the level MATH 60 or 70. In addition, most careers require a level of mathematics beyond the minimum proficiency levels.

Mathematics proficiency can be satisfied in any one of the following ways:

- Satisfactory completion (credit or grade of “C” or better) of MATH 60 (Intermediate Algebra I), or a higher-numbered mathematics course;
- Mathematics assessment results that indicate eligibility for a higher-numbered mathematics course.
