

# FIELDHOUSE

## Project Description:

This project is formally known as the Field House and Stadium Improvements. Its scope of work includes the construction of a field house, stadium, restroom facilities, snack bar building and other related site work.

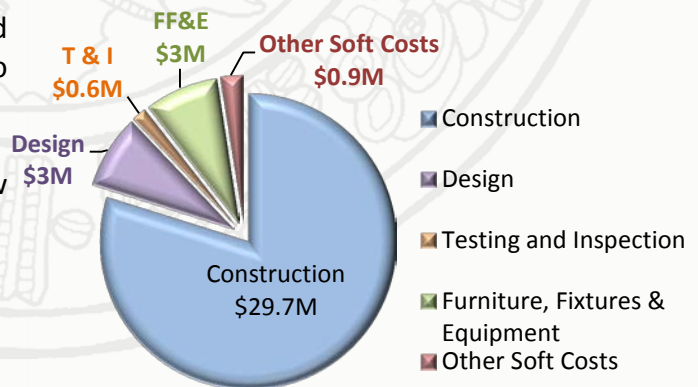

The new four level Fieldhouse totaling 58,000 square feet, opened in August 2014. It has administration offices for staff, classrooms including a lecture hall, a fitness center and locker rooms. It was constructed for LEED Silver Certification but is approaching Gold Certification pending the results of the submission to the U.S Green Building Council.

The new field turf replaces the old field with a new synthetic surface and related drainage systems.

## Project Features:

- New Sports Fieldhouse Structure
- 58,000 Square Feet
- 4 Classrooms, 150-Seat Lecture Hall, 9 Offices
- Renovated stadium with synthetic surface
- Snack Bar
- Minimal Environmental Footprint and several energy-saving features

## Project Budget: \$37M
