## NATIONAL CITY HEC CLASSROOM BUILDING

The new two-story building is being constructed on the south side of the Higher Education Center, adjacent to the intersection of National City Boulevard and Plaza Boulevard. The new building will include modern laboratory spaces, classrooms, a teaching clinic, a laboratory for the medical office professional program, and a community room seating 90 people for guest and community related events. The project also includes the modernization and expansion of the existing small business development area in the existing building, and accommodations for the San Diego Contracting Opportunities Center, relocating from rental space in Mission Valley.

- Additional Lab/Classroom Space
- Community Room
- New Student Center
- New Administrative Office
- Instructional/Administrative Space

### Projected Project Budget: 22.4M\*

(in Millions)

### \*Plus 1.9M Site Infrastructure Budget:
