RESOLVED ISSUES REPORT

Overview

This document includes a report of the issues resolved in release 8 of the *Blackboard Academic Suite™*.

A resolved issue is a software problem from a previous build of *Blackboard Learning System™* - Basic Edition, *Blackboard Learning System – Enterprise Edition*, *Blackboard Community System™*, *Blackboard Outcomes System*, *Blackboard Content System™* that has been fixed. Issues that are found in the application and not resolved are reported as Known Issues.

Resolved Issue description

An Issue must meet the following requirements to be included in the Resolved Report:

An issue has been identified by our internal Quality Assurance or beta testing. These issues are included in the Release Notes if the effect on the software prevents a feature from working correctly or hinders system performance and maintenance.

An issue reported by a client is included once it has been verified through testing. Issues that are only repeatable on a single system are not included in the Release Notes. Blackboard Product Support works with the customer to resolve these issues, but because these issues only affect one customer, these issues are not published.

Then, the issue is reported, verified, fixed, and tested in time for the next maintenance release.

Issues that are reported by customers and meet the above criteria are included in the Resolved Issues Report. These are the issues reported in the field, and Blackboard is dedicated to reporting and resolving these issues.

Understanding the Resolved Issues Report

The Resolved Issues report consists of five columns of information:

- **ID.** An internal ID number used to track this issue within Blackboard. Please reference this number when contacting Blackboard Product Support about a specific issue.
- **Subsystem.** The system within the Blackboard Academic Suite this issue is related to. For example, if an issue is related to the adding Announcements, it will be located in the Announcements subsystem. This report is sorted by subsystem.
- **Affects Versions.** This is the build number that the issue was found in; either by Blackboard Quality Assurance or a client. Builds that have not been released to clients may appear in this column; these are internal Blackboard builds of the product. These issues also appear in builds that clients are running.
- **Issue Description.** A brief synopsis of the issue and a workaround if applicable. Please contact Blackboard Product Support if you have additional questions about a specific issue.

| Key | Subsystem | Affects Versions | Description |
|-----------|--|---|--|
| AS-107598 | Announcements | 7.3.x 8.0.x | The Outcomes Course Announcements are deployed even when they are not selected for deployment. |
| AS-107438 | Arch Vista - User Management | 8.0.x | When a deleted Vista cross-listed user logs into an Arch instance as a Bb AS user (using the changed password) they continue to receive a link into their old Vista section. Upon clicking on the link they receive an "Access Denied" error message. Upon clicking "OK" they are directed to the System Admin Panel. They should not be presented with this page at all. |
| AS-106314 | Assessments (Learning System) | 7.1.467.0 7.2.330.8 7.2.366.0 7.3.107.0 | When taking a test in a new browser window, submitting the Test, reviewing the Assessment Results page, and then selecting OK to close the Assessment Results page, the user is incorrectly navigated to the Course Information page. The new browser window should close. |
| AS-110067 | Assessments (Learning System) | 8.0.x | An issue with license compatibility has been resolved. |
| AS-94388 | Assignments (Learning System) Content (Learning System) Content System - Content | 6.3.1.374 / 2.3.1.282 6.3.1.x / 2.3.1.x 7.0.x 7.1.x 7.2.x | It is not possible for Instructors to upload a local file item or a Content System item to an Assignment or an Assessment question. |
| AS-110725 | Background Tasks / Services Content System | 7.3.159.7 | On client systems that do not have Content System licensed, the Lucene Indexer is initiated and runs in the background, as shown by thread dumps and the view_system_tasks.jsp servlet. This fills the bb-services-log.txt with a lot of log spam that confuses clients, makes isolating and identifying other issues difficult, and causes log file growth. Also, since the CMS databases do not exist without the Content System, it displays messages concerning an inability to connect to the database. |
| AS-110767 | Backpack Mobilizer | 7.1.324.6 7.3.159.29 8.0.165.0 | If there is more than one SCORM package in a folder in a course in Blackboard and they are downloaded into Backpack, Backpack is unable to recognize them as different SCORM packages. |

| Key | Subsystem | Affects Versions | Description |
|-----------|------------------------------------|-------------------------------------|---|
| AS-110372 | Building Blocks | 7.3.159.7 8.0.120.0 | After including an installed Building Block through the Library Content in the Content Collection, and selecting the added Plugin through the drop-down menu, the improper page is displayed. |
| AS-111246 | Community System Settings | 7.1.391.0 | Administrators are not able to remove links from the hot links area. |
| AS-107416 | Content (Learning System) | 7.2.330.8 7.3.107.0 | After modifying a grade by adding an attachment from the Content Collection, a receipt message is given, but not a refresh of the page. The page should be refreshed with the currently added item. |
| AS-99199 | Content (Learning System) | 7.2.366.0 | There is nesting of frames within the Learning Unit as a result of loading a few items and an assignment. Double breadcrumb trails are displayed and the learning unit header appears twice. |
| AS-111476 | Content Exchange (Learning System) | 7.1.x | Some customers reported that users could not batch restore a course package file if its name contains a Chinese word. |
| AS-106549 | Content System | 7.1.467.0 7.2.330.8 7.2.366.0 | In the Copy Files to Collection area of the Content System, Select Areas is not denoted as a required field. However, attempting to submit without selecting the areas results in a warning message that indicates that an area must be selected. |
| AS-106573 | Content System | 7.1.467.0 7.2.330.8 7.2.366.0 | After modifying the File Type of a Content Collection item, and adding multi-byte characters, the multi-byte characters are not properly displayed. |
| AS-106467 | Content System | 7.2.330.8 7.2.366.0 | When a user clicks the Cancel button in Content Area Availability page, the user is returned to the Admin panel. |
| AS-106430 | Content System | 7.2.330.8 7.2.366.0 7.3.159.6 | When searching for orphaned Content with the Equal To criteria, the proper data is not displayed, and the orphaned content cannot be found through the search tool. |
| AS-108469 | Content System | 7.3.159.0 | A Student who enters an invalid Content System file for a File Response question on a Test is unable to properly submit the Test. |
| AS-110530 | Content System | 7.3.159.7 8.0.120.0 | As an administrator, when managing the Recycle Bin, and choosing the 'Yes or No' option for Recycle Bin Enabled for any document storage, a Warning message is displayed instead of success message. |

| Key | Subsystem | Affects Versions | Description |
|-----------|------------------------------------|--|--|
| AS-109274 | Content System | 8.0.73.0 8.0.103.0 | When creating a Test, Survey, and Pool Information, after selecting to Save as Reusable Object, the Content Collection file area is not available. |
| AS-105123 | Content System - Content | 7.1.467.0 | When copying a folder in the Content Collection, the filename is incorrectly displayed. It displays the number of the copy (2, or 3, and so on) next to the original file name for each copy. |
| AS-100406 | Content System - Content | 7.1.x | Text styled with CSS that displays as a heading sometimes lacks heading tags. This is a case of using CSS to display something that looks like a heading but is not structured as one. These are needed for viewing if CSS is disabled and are particularly useful to screen reader users to provide page structure. |
| AS-109755 | Content System - Content | 7.3.159.7 8.0.85.0 | Due to untranslated properties files, sections in the Add Folder page of Content Collection are not localized (translated). |
| AS-109651 | Content System - Content Artifacts | 7.3.159.7 8.0.85.0 | In the Discussion Board homepage, the Discover Content is not localized or translated. |
| AS-104425 | Content System - Portfolio | 7.2.311.0 7.3.107.0 7.3.145.0 7.3.159.0 | When attempting to modify a Personal Portfolio using an existing Portfolio Template, the Author is unable to view the Button styles in the Menu Style area. |
| AS-105699 | Content System - Portfolio | 7.2.330.8 7.2.330.37 7.3.159.0 | As an Administrator, attempting to Manage Portfolios by selecting more than one user results in an error message. It is now possible to search for more than one user's portfolio and view multiple results. |
| AS-106456 | Content System - Portfolio | 7.2.330.8 7.2.366.0 | After creating a Portfolio and making it unavailable, then selecting to share the Portfolio, selecting to modify the Portfolio Properties results in an error. An inline message in the Portfolio Properties page states that no template exists for the Portfolio. |
| AS-109870 | Content System - Portfolio | 7.3.159.7 8.0.85.0 | In Content Collection, in the Received Portfolios area, the Go button corresponding to Select All, Unselect All, and Invert Selections drop-down menu options does not function. |

| Key | Subsystem | Affects Versions | Description |
|-----------|---|--|--|
| AS-110643 | Content System - Search | 7.2.383.0 | For an institution, after upgrading a staging server to 7.2 with a copy of the production database, and a Solaris app server, it is receiving 503 and 500 errors on many pages. The root cause for the errors as listed in the Tomcat logs is always "Too many open files." |
| AS-108187 | Content System - Search | 7.2.383.0 7.3.145.0 | A users folder that is made unavailable is still displayed in the Content Collection tab. |
| AS-108471 | Content System - Search | 7.3.159.0 | Upon accessing a Content item through the Search function, and then accessing and then removing the item results in an error page; though, the item is properly deleted. |
| AS-108944 | Content System - Search | 7.3.159.0 8.0.x | In the Content Collection, searching in empty files for the character * without selecting the Search File Content results in a search error, and it will display results for the search. |
| AS-110536 | Content System - Search | 7.3.159.7 8.0.120.0 | When attempting to find a Folder in Content Collection, selecting Browse, and then clicking the search button in the picker window without entering any data in search field, attempting to sort the users by name results in an error: the Search page is displayed with message stating "Enter the Search criteria on the left". |
| AS-110204 | Content System - Search | 7.3.159.7 8.0.85.0 8.0.103.0 | When attempting to find Folder within Content Collection, when all items are displayed, the Sort arrow link under the Course ID column does not work correctly. The search page displays the message: "Enter the Search criteria on the left." |
| AS-105876 | Content System - WebDAV | 7.0.404.41 7.1.467.26 7.2.330.8 | In the Web Folders page, an improper error message is displayed after entering invalid entries for the fields, for instance, entering a negative number into a Minimum Size File to Compress field. |
| AS-108965 | Content System - Xythos | 7.2.x | A cross-site scripting vulnerability associated with the Content SystemMhas been fixed by making modification of a MIME-type a privileged action. |
| AS-102988 | Content System - Xythos System Performance | 6.3.1.x / 2.3.1.x 7.1.391.0 7.0.x 7.1.x | Because of problems with the Xythos code, Tomcat becomes unresponsive approximately 30 to 60 minutes after a restart. |

| Key | Subsystem | Affects Versions | Description |
|-----------|--|--------------------------|--|
| AS-108808 | Content System Content System - Navigation / Breadcrumb | 7.2.383.0 | In Internet Explorer, if there is an extremely large number of private sub-folders under the institution content folder, say more than 1500, Internet Explorer will hang up because it is too busy. |
| AS-110738 | Course/Organization Copy (Learning System) Database System Performance | 7.1.467.28 | This issue occurs in SQL Server. Course Copies and Course Deletions may take an extremely long time, cause high CPU usage, and slow performance of the system. Database stored procedures have been improved to add additional locking management code and reduce unnecessary use of cursors |
| AS-110740 | Database | 7.1.467.28 | This is a major infrastructure improvement that enhances performance. On Windows systems, slowness and performance problems can result when transactions block due to committed reads. A new bb-config.properties option "bbconfig.database.bb_60.db.read_uncommitted" has been added to allow global uncommitted reads. Contact Support for assistance before implementing this option. |
| AS-108007 | Database Discussion Board | 7.1.391.0 | Some customers have reported discussion board message text replaced with an Oracle error message at some point after the message was posted. |
| AS-111227 | Discussion Board | 7.1.464.0 | After copying a Forum that contains a thread of parent and child posts, the children posts are removed as children posts, and become parent posts. |
| AS-105701 | Discussion Board | 7.1.467.23 7.2.330.37 | The Left Navigation frame is not visible after clicking the Collect button in the Thread Detail page. |
| AS-110739 | Discussion Board | 7.1.467.28 | When searching in the 7.1 Discussion Board, searching with apostrophes results in all possible messages incorrectly matching the query condition; therefore, it is possible to make the JVM run out of heap space. |
| AS-109089 | Discussion Board | 7.3.x | After subscribing to a forum, then replying to a post, the email message confirmation does not include a link to the Post. |
| AS-107403 | Discussion Board | 7.3.x | Incorrect search result on Message Detail page right after replying to non-top level messages. |

| Key | Subsystem | Affects Versions | Description |
|-----------|-------------------------|--|--|
| AS-106461 | eCommerce: eMarketplace | 7.1.467.0 7.2.330.8 7.2.366.0 | When attempting to fill out the pricing information for a vendor, it is possible to select a User-defined Price and to enter a Price as well. This should not occur. Only one should be chosen. When both is chosen, the price takes precedence over the User-defined Price selection. |
| AS-106354 | eCommerce: My Accounts | 7.1.467.0 7.2.330.8 7.2.366.0 7.3.159.0 | When attempting to add HTML tags to text in the My Account column, the text is not rendered properly. |
| AS-110777 | eCommerce: My Accounts | 7.3.159.0 | This is a security issue. Credit Card transactions executed through the Community System do not send the correct IP address to the Payment Gateway, reducing the effectiveness of certain fraud prevention rules. |
| AS-109850 | Email (Learning System) | 7.3.159.7 8.0.85.0 | Disabling Email tool from Course Control Panel is not working properly, as this needs to be consistent in the System Administrator Panel. Thus, the Course will still display in the Email options of the Student. |
| AS-104420 | Entitlements | 7.2.285.0 7.2.311.0 7.3.159.0 | A user with the role of Systems Support is unable to access the Outcomes Memberships of a user in the Modify User page. |
| AS-107330 | Entitlements | 7.2.383.0 7.3.107.0 | When creating an Improvement project, then selecting the Objectives link, and then the Reports link displays the incorrect breadcrumbs. |
| AS-109730 | Entitlements | 7.2.383.0 7.3.159.7 8.0.85.0 8.0.120.0 8.0.148.0 | Through an Outcomes Portfolio Template, while attempting to modify Deployments, and then viewing the Reports of a Deployment, the 'Run' option is not available. |
| AS-110657 | Entitlements | 7.3.159.7 | Portal branding images do not display properly. |
| AS-109547 | Grade Center | 7.2.383.0 7.3.159.7 8.0.85.0 8.0.148.0 | The 'description' text area field should prevent data entry past 1000 characters during entry. Instead, a popup message is displayed. |
| AS-108820 | Grade Center | 7.3.159.0 | While logging into a Course as an Instructor and accessing the Grade Center, the page is accessed correctly; there are errors in the log, however, due to incorrect image references. |

| Key | Subsystem | Affects Versions | Description |
|-----------|-----------------------------|---|---|
| AS-110399 | Grade Center | 8.0.120.0 | After adding a Grade Column, associating it to a Category, and then removing the Grade Column, it is not possible to remove the Category. The remove button is not available. |
| AS-109571 | Grade Center | 8.0.85.0 | When creating a grade Column, and entering a Due Date that is in the past, the Due Date will incorrectly display in the date field for Last Submitted, Modified, or Graded. |
| AS-109563 | Grade Center | 8.0.85.0 | When a new column is added to a downloaded Gradebook, and not given a name, if there is an invalid name entered into another grade column, then the blank, new column is not successfully added to the Gradebook upon upload. |
| AS-90458 | Gradebook (Learning System) | 6.2.3.19 / 2.0.2.8 7.3.91.0 7.3.107.0 | The Gradebook upload function is not working. |
| AS-96712 | Gradebook (Learning System) | 6.2.3.6 / 2.0.2.3 | The Gradebook still accounts, in class averages, for a user who has been disabled from a Course through Snapshot |
| AS-90373 | Gradebook (Learning System) | 6.2.3.6 HF3 / 2.0.2.3 HF1 | When attempting to disable Weighted Grades by entering the Modify Grade page, and setting the percentages to 0.0%, an error occurs, and it is not possible to disable the Weighted Grades. |
| AS-90445 | Gradebook (Learning System) | 6.2.3.6 HF3 / 2.0.2.3 HF1 | When downloading the Gradebook as a Tab delimited file, the file type that is offered to the users is a .csv file and not a .txt file. Therefore, when read by Excel, it is not imported properly, and imports all into one cell. |
| AS-87392 | Gradebook (Learning System) | 6.3.1.107 / 2.3.1.61 | Each Category is listed twice when selecting a Category for a Gradebook Item. |
| AS-87439 | Gradebook (Learning System) | 6.3.1.107 / 2.3.1.61 7.1.264.3 | It is possible to remove a username from Student information of a Gradebook that has been uploaded. After removing the username, which is a required field, no error message is given. |
| AS-87440 | Gradebook (Learning System) | 6.3.1.107 / 2.3.1.61 7.1.264.3 | Release Notes: scupp: 12/2/2004 6:26:19 PM: In some cases improperly formatted .CSV files are accepted when uploading a Gradebook. An error message does not appear until the user clicks Submit on the Choose Columns to Import page. At that time, the user sees a database error message instead of a helpful error message. |

| Key | Subsystem | Affects Versions | Description |
|-----------|-----------------------------|---|---|
| AS-89259 | Gradebook (Learning System) | 6.3.1.162 / 2.3.1.111 7.1.264.3 | Locale pack issue - The Running Total and Running Weighted Total column headings do not appear in the preferred locale within the My Grades tool. |
| AS-91081 | Gradebook (Learning System) | 6.3.1.229 / 2.3.1.159 | If the Gradebook is filtered by last name, the order of the columns is rearranged. |
| AS-92699 | Gradebook (Learning System) | 6.3.1.363 / 2.3.1.272 | Clicking the Cancel button on the User Grade List page displays the View Grades By User page. |
| AS-94515 | Gradebook (Learning System) | 6.3.1.374 / 2.3.1.282 | Grades that are set to display as text and start with a number are displayed as a numeric value and not as a text value. For example, 1K12 displays as 1. If the first character is a letter, the grade displays correctly, for example, K121. |
| AS-93849 | Gradebook (Learning System) | 6.3.1.424 / 2.3.1.342 | For a CSV file that has been edited, and different grade formats have been entered, uploading the file into the Course causes an error. The Gradebook incorrectly displays the edited grades. However, within the Modify Grades page, the grades are correctly displayed. |
| AS-100398 | Gradebook (Learning System) | 6.3.1.593 / 2.3.1.504 7.0.404.2 7.1.324.6 7.1.324.14 7.1.324.28 | In the Gradebook Setting page, when adding a display option, it is possible to enter two separate values for the same or overlapping percentage ranges. |
| AS-103089 | Gradebook (Learning System) | 6.3.1.593 / 2.3.1.504 7.1.391.0 7.1.391.3 | After sorting a column in the Gradebook, and then attempting to filter the items results in an error. |
| AS-92384 | Gradebook (Learning System) | 7.0.1.111 7.2.330.25 7.3.107.0 | When a user clicks the Cancel button on the View User Grades page the Gradebook View spreadsheet page is displayed. |
| AS-93641 | Gradebook (Learning System) | 7.0.1.215 | Setting the Gradebook Total and Weighted Total display option to Text correctly displays the field (as Score) in the Instructor view, but the student's My Grades view is blank. |
| AS-93523 | Gradebook (Learning System) | 7.0.1.215 7.2.311.0 7.3.107.0 | Multibyte characters contained in CSV files uploaded to the Gradebook do not display correctly. |
| AS-97488 | Gradebook (Learning System) | 7.0.365.0 | Attempting to upload invalid file Gradebook file will produce a "HTTP Status 500" error instead of a "File not found" error. |

| Key | Subsystem | Affects Versions | Description |
|-----------|-----------------------------|---|---|
| AS-107469 | Gradebook (Learning System) | 7.0.404.41 7.1.467.28 7.2.383.0 | The function in the Gradebook that sorts names alphabetically by last name does not work properly if all four column setting displays are active. |
| AS-100700 | Gradebook (Learning System) | 7.1.324.28 | When an Override Grade is added to a manually created Grade Item that does not have a grade entered, the date of the Override grade will persist even after updated grade entries. |
| AS-100369 | Gradebook (Learning System) | 7.1.324.6 | The average score for an assessment on the Modify Grade page is incorrect and does not agree with those shown in Item Details and Student Grade View. It includes scores from Instructor attempts. This occurs for assessments that are automatically graded. |
| AS-101535 | Gradebook (Learning System) | 7.1.467.0 7.1.467.28 7.2.201.1 | In the following builds, 7.2.201.1, 7.1.467.0, 7.1.467.28, selecting a - cell non-entry in the Gradebook, then selecting View within the Modify Grade page results in an error and the page is not properly displayed. |
| AS-106866 | Gradebook (Learning System) | 7.1.467.0 7.2.330.8 7.3.91.0 | The 'Item Name' field is accepting more than 100 characters. |
| AS-106863 | Gradebook (Learning System) | 7.1.467.0 7.2.330.8 7.3.91.0 | An inappropriate 'Points Possible' value is displayed for an item in the Gradebook View Spreadsheet page. |
| AS-106869 | Gradebook (Learning System) | 7.1.467.0 7.2.330.8 7.3.91.0 7.3.107.0 | The Gradebook spreadsheet is not updated with any new grades for a multibyte user. |
| AS-107069 | Gradebook (Learning System) | 7.1.467.0 7.2.330.8 7.3.91.0 8.0.35.0 | Users are unable to sort the items which fall under the category 'Forum Grade, Thread Grade & Scorm' in the Gradebook View Spreadsheet page. |
| AS-107402 | Gradebook (Learning System) | 7.1.467.15 | If a Student exceeds the time limit for a multiple attempt Assessment, the Student receives an exclamation point (!) entry. Upon the next attempt of the Assessment, successful completion will display a score in the Instructor view. However, in the Student view, the exclamation point (!) still displays. |

| Key | Subsystem | Affects Versions | Description |
|-----------|---|---|--|
| AS-106848 | Gradebook (Learning System) | 7.2.330.8 7.3.91.0 8.0.35.0 | The comments field is accepting more than 1000 characters. |
| AS-95293 | Gradebook (Learning System) SCORM Player (Learning System) | 7.1.153.0 | When instructors hit the Cancel button in the Modify Grade page of the Gradebook for a SCORM item, they go to the Attempt Details page instead of returning to the Gradebook Spreadsheet. |
| AS-109596 | Groups (Learning System) | 8.0.85.0 | When attempting to add a Group to a Course, the user receives an error that states that the script failed to send data. |
| AS-107525 | Interaction (Content System / Community System) | 7.1.467.28 7.2.383.0 7.3.107.0 | After choosing the availability option Everyone, and not selecting Selected Roles, but instead selecting the roles individually, then clicking submit does not result in a warning message, and it is uncertain which roles, everyone or the selected, are the chosen. |
| AS-106505 | Language Packs | 7.0.404.41 7.1.467.0 7.2.330.8 7.2.366.0 | When in the Language Packs section, and attempting to import a language pack that contains the same code as the system-shipped language pack, the user is navigated to the Language Packs page, instead of the Import Language Pack page to correct the Code value. |
| AS-105790 | Other | 7.1.467.26 7.2.330.37 | The Export Course page is displayed after exporting a course. The export course option is looped once again after the course is successfully exported. |
| AS-110424 | Other | 7.3.159.7 8.0.103.0 8.0.120.0 | The text needs to be updated for 508 Compliance. The label is not available for the combination box in the Tasks area of the My Institution page. |
| AS-104507 | Outcomes - 360 Views | 7.2.285.0 7.2.311.0 7.3.159.0 | When adding aligned Standards, Objectives, and Goals, Improvement Initiatives, and Improvement Projects, not entering a value in the Status field results in an incorrect character value display in the 360 View. |
| AS-104674 | Outcomes - 360 Views | 7.2.311.0 7.2.330.3 7.3.159.0 | The Owner column is not displayed in the table of a Rubric in the 360 View page. |
| AS-106457 | Outcomes - 360 Views | 7.2.330.8 7.2.366.0 7.3.107.0 7.3.159.0 | A file attached from the local files to a Category that is created for a Standards Catalog cannot be opened. Attempting to open the attached file results in a error message. |

| Key | Subsystem | Affects Versions | Description |
|-----------|--|--|---|
| AS-107559 | Outcomes - 360 Views | 7.2.383.0 7.3.107.0 | When viewing the Associated Rubrics through the 360 View of an Outcomes Artifact, the Standards, Objectives, Goals column is not visible. |
| AS-107584 | Outcomes - 360 Views | 7.2.383.0 7.3.107.0 | When clicking on the Associated Rubrics of a Category in the 360 View, the user is not directed to the Associated Rubrics. |
| AS-104512 | Outcomes - Batch | 7.2.311.0 7.3.159.0 7.3.206.0 | An improper error message is displayed when an incorrect batch file name is provided: "FAILURE: Action unsuccessful. Batch file did not contain data or could not be parsed." |
| AS-110315 | Outcomes - Batch Outcomes - Course Sections | 7.2.330.8 7.2.330.25 7.2.330.37 7.2.330.40 7.2.383.0 7.3.159.0 7.3.159.7 | When the courseSiteId attribute has a value and is uploaded as part of a Course Section Batch Add or Batch Modify process, an error occurs. Also, when the termId attribute has a non-empty value and is uploaded as part of a Course Section Batch Add or Batch Modify process, a successful upload message is returned by the system even though an empty value has been set. |
| AS-106352 | Outcomes - Course Evals | 7.2.330.8 7.2.366.0 7.2.383.0 7.3.107.0 | A Guest who tries to access Course Evaluation links is improperly notified that access is denied. |
| AS-105104 | Outcomes - Curriculum Maps | 7.2.330.8 7.2.383.0 7.3.107.0 | An improper message box is displayed when a curriculum map is removed: "This action is final and cannot be undone. Continue?" |
| AS-104551 | Outcomes - Deployments | 7.2.311.0 7.2.330.8 | A Template is able to be removed, though its affiliated Deployment is active. |
| AS-104673 | Outcomes - Distribution Lists | 7.2.311.0 7.2.330.8 | When attempting to attach a local file in the Email Distribution list of a Deployment, it is possible, after selection to select or de-select the attached email lists. After selection, the email list should be automatically uploaded. |
| AS-106631 | Outcomes - Distribution Lists | 7.2.330.40 | In Spanish, when in the Distribution area of Portfolios Deployment, then viewing the Distribution Lists Versions, the Versions page that displays is missing a column header, and its directions are in English. |

| Key | Subsystem | Affects Versions | Description |
|-----------|---------------------------------|---|---|
| AS-106624 | Outcomes - Distribution Lists | 7.2.330.40 | In Spanish, when attempting to add an Affiliation to the Criteria of a Distribution list, it is possible to create an Affiliation without filling out the required fields. |
| AS-105077 | Outcomes - Distribution Lists | 7.2.330.8 7.3.65.0 7.3.107.0 | Creating a person record ID with multibyte characters is not rendered correctly in the Criteria page. |
| AS-106259 | Outcomes - Goals and Objectives | 7.2.330.8 7.2.366.0 | Users are unable to add a Unit Goal through a batch file. The following message is displayed: "Unrecognized column: batchUIdoperatingUnitIdstartDateassociatedFormIdBEO_UG_INTti tleisPublic". |
| AS-104740 | Outcomes - Other | 7.2.311.0 7.3.107.0 7.3.145.0 7.3.159.0 7.3.206.0 | After selecting the color for the Portfolio Menu Style in either Modify or Add Portfolio, the Color box does not disappear. |
| AS-106422 | Outcomes - Other | 7.2.330.8 7.2.366.0 | When adding a file from Content Collection to an Outcomes Portfolio Template, no error message displays stating that there will be read-only permissions granted to the file. |
| AS-106451 | Outcomes - Other | 7.2.330.8 7.2.366.0 | After adding a Reflection, there does not display a successful receipt message, and there is no immediate indication in the Reflections page that a Reflection has been created. |
| AS-106341 | Outcomes - Other | 7.2.330.8 7.2.366.0 7.3.107.0 | In the Netscape browser 7.2, the re-ordering function in the Survey Design page does not work properly. Selecting a number from the drop-down menu to re-order the questions does not function. |
| AS-106340 | Outcomes - Other | 7.2.330.8 7.2.366.0 7.3.107.0 | The GO Button beside the Add Tag in Survey Design Screen Is not working when using the Netscape Browser. The Tag is not created for the Question which has been selected. |
| AS-106321 | Outcomes - Other | 7.2.330.8 7.2.366.0 7.3.159.0 7.3.206.0 | When creating a Category for a Standards Catalog, an error may occur if the user enters more than 1000 characters into the description field. A dialog box will pop up stating that the description field can only hold up to 1000 characters. If the user deletes the necessary characters from the description field, however, then chooses to Submit, the Category creation fails. |

| Key | Subsystem | Affects Versions | Description |
|-----------|--------------------------------|-------------------------------------|---|
| AS-106397 | Outcomes - Other | 7.2.366.0 8.0.x | When attempting to modify the column name of a Rubric when adding a Rubric, the editable text box does not display. |
| AS-110770 | Outcomes - Other | 7.3.x 7.2.x 8.0.x | There are security issues with Entitlements. |
| AS-106617 | Outcomes - Outcomes Portfolios | 7.2.330.40 | There is incomplete information in the dialog box when attempting to add Criteria to the Criteria List of a Distribution List. This occurs when an Attribute ID is added, and the user attempts to submit the Criteria without adding a Value. The dialog box only reads "No," and does detail that the user must fill out the required fields. |
| AS-105951 | Outcomes - Outcomes Portfolios | 7.2.330.40 7.3.107.0 | An inappropriate error message is displayed in the Share Portfolio page when an author shares the Outcome Portfolios to the users enrolled in the course. |
| AS-106513 | Outcomes - Outcomes Portfolios | 7.2.330.8 | When attempting to view the published Evaluations of a Rubric, the Evaluator's selections are not displayed and the scores that are entered are displayed as zero. |
| AS-106342 | Outcomes - Outcomes Portfolios | 7.2.330.8 7.2.366.0 | Users have experienced inappropriate behavior on the Modify Outcomes Portfolio Template page after copying an existing template. The header has the same name as that of the original template. |
| AS-106262 | Outcomes - Outcomes Portfolios | 7.2.330.8 7.2.366.0 7.3.107.0 | Even though the Require Disclaimer option is unchecked when adding a Portfolio Template, the receipt page for a successful submission displays the Disclaimer information. |
| AS-105100 | Outcomes - Outcomes Portfolios | 7.2.330.8 7.3.107.0 | After moving a Portfolio Template from a Unit to a Course, the receipt page incorrectly displays the Owner name. |
| AS-107537 | Outcomes - Outcomes Portfolios | 7.2.383.0 7.3.107.0 | Entering more than 100 characters in the Name field of an Outcomes Portfolio Template results in an error, and the Portfolio Template cannot be created. |
| AS-106596 | Outcomes - Reports | 7.2.330.40 | The breadcrumbs for running a Report for an Objective of a Improvement Project incorrectly displays extraneous text. |

| Key | Subsystem | Affects Versions | Description |
|-----------|---|-------------------------------------|---|
| AS-107843 | Outcomes - Reports | 7.2.383.0 7.3.145.0 7.3.159.0 | When creating a Course Evaluation or Survey, entering more than 100 characters for a Name results in failure, and the Course Evaluation or Survey cannot be created. |
| AS-106635 | Outcomes - Rubrics | 7.2.330.40 | In German, when attempting to modify a Template by adding content to a Rubric by selecting to Browse, then submitting without attaching anything displays a warning message. The warning message incorrectly display HTML code. |
| AS-106627 | Outcomes - Rubrics | 7.2.330.40 | In Spanish, when attempting to associate a Rubric to a Unit Objective, there are no character * indications for required fields when filling out the information to add an Associated Rubric; however, it is not possible to add an Associated Rubric unless these fields are filled out. |
| AS-106654 | Outcomes - Standards | 7.2.330.40 | Within Outcomes, in Dutch, on Internet Explorer 7, there are truncated function buttons in the Standards Catalog page. Rapporten (Reports) and Wijzigen (Modify) buttons on the right side edge of the page are truncated and do not display correctly. |
| AS-106358 | Outcomes - Surveys | 7.2.330.8 7.2.366.0 | The access denied page appears when users click the Surveys link. |
| AS-106217 | Outcomes - Surveys | 7.2.330.8 7.3.107.0 | When attempting to add a Tag to a Multiple Choice question for a Survey, the input area does not display, therefore it is not possible to add tags. |
| AS-106589 | Outcomes - Templates, Forms, and Fields | 7.2.330.40 | When attempting to add a Course Objective to the Curriculum, an incorrect string name displayed on the page. |
| AS-107899 | Outcomes - Terms | 7.2.383.0 7.3.145.0 | When creating a Term as a System Administrator, and filling out the Term ID, the Term ID is case sensitive, and it is possible to create duplicate Term IDs, such as "AAA" and "aaa." |
| AS-106646 | Outcomes - Units | 7.2.330.40 | Within the Units page of the Discover area, in Internet Explorer 7, the button "Informes" is slightly truncated. |
| AS-109704 | Outcomes - Units | 7.3.159.7 8.0.85.0 | When attempting to Batch Add Course Sections, and using an invalid file location, the error message is incorrect, stating, "FAILURE: Action unsuccessful. Batch file did not contain data or could not be parsed." |

| Key | Subsystem | Affects Versions | Description |
|-----------|-----------------------|---|--|
| AS-106608 | Outcomes - Workspaces | 7.2.330.40 | When a Workspace is created or already exists, navigating to its Properties and clicking on the Submit button will change its ID from the one that the user has provided to the one that system generates automatically. Issue is all languages including English. |
| AS-109560 | Peer Assessment | 8.0.x | Exporting and then importing an Assessment to a Course will create duplicate names for the Assessment, and it is not possible for the Builder to edit the name of the imported Assessment. |
| AS-109627 | Peer Assessment | 8.0.x | As a Section Instructor, attempting to View or Download the Evaluation submitted by a student containing both Self and Peer does not function correctly, and user receives an error stating that the file cannot be found. |
| AS-105216 | Privileges: General | 7.2.330.8 | After creating a new system role and configuring the privileges to allow access to the Course and Organization Properties pages, access is denied. |
| AS-106214 | Privileges: General | 7.2.330.8 7.2.366.0 | A user who has been given explicit permission to view the Course Properties page receives an access denied message when attempting to access the Course Properties page. |
| AS-109709 | Safe Assign | 7.2.383.0 7.3.159.7 7.2.383.x 8.0.85.0 | When creating a Safe Assignment and inputting over 255 characters into the Instructions and Messages field, upon submitting, the error message displays stating that too many characters are inputted into the Instructions field. Then, after clicking OK in the error message, the user is incorrectly directed to the Messages field instead of the Instructions field. |
| AS-109758 | Safe Assign | 7.2.383.0 7.3.159.7 8.0.85.0 | When in the page for Building Blocks SafeAssign Configuration, the improper bread crumbs display. |
| AS-110311 | Safe Assign | 7.2.383.23 7.3.159.29 7.4.85.0 8.0.103.0 | An error message occurs when attempting to click Cancel or Submit>OK for the View Attempt of a 'Safe Assign' created with special characters in the title. |
| AS-109401 | Safe Assign | 7.3.159.7 | When a Student attempts to view a graded Safe Assignment through the View Safe Assignment page, the page states that the Safe Assignment has not been graded yet. |

| Key | Subsystem | Affects Versions | Description |
|-----------|--------------------------|--|--|
| AS-111427 | Search (Learning System) | 6.3.1.645 / 2.3.1.532 | This is a security issue: users can potentially access Course Enrollment pages with private information. |
| AS-106279 | Tabs (Community System) | 7.1.467.0 7.2.330.8 7.2.366.0 7.3.107.0 | If an image is uploaded to the Hot Spot Content of a Module, and the image is corrupted or invalid, the user does not receive an error that indicates that the file is unreadable or corrupted. The user instead receives only an error message. |
| AS-106380 | Tools | 7.1.467.0 7.2.330.8 7.2.366.0 | Adding HTML tags and text into the fields of the Modify Student Information pages is not rendered correctly. It displays invalid characters. |
| AS-111619 | Updates / Patches | 6.3.1.593 / 2.3.1.504 | Upgrading to Blackboard 7.1.391.3 from 6.3.1.593 results in a Java error message and then fails. |
| AS-110241 | User Management | 7.2.383.23 7.3.159.7 7.4.85.0 8.0.103.0 | When attempting to search through the Course Control Panel, the underscore character is being replaced in the Search field with an exclamation point. While the search results are accurate, attempting to search again, through another tab, will yield inaccurate results. |
| AS-107347 | User Management | 7.3.x | Using Create Account with multibyte characters results in the display of strange characters on success page. |
| AS-102162 | What's New | 7.1.391.0 | Announcements created with a future date are improperly displaying in the What's New module. |
| AS-105942 | WYSIWYG | 7.1.467.0 7.2.381.0 | When attempting to add the ' character into the text box when creating a Course, the character is not properly displayed, and instead other characters are displayed. |
| AS-107875 | WYSIWYG | 7.2.x | <DIV> tags are disabled by the cross-site scripting security checker. Only certain, potentially malicious classes of the tag should be disabled. |
