

Make Your Mark

This project will require you to design a mark or logo for yourself that can be used on stationary, envelope and a business card. Your “mark” or logo should be simple, clean, and above all, easily recognizable. You can incorporate letters from your name or integrate a symbol and type into an illustration. Attached are examples

of successful designs which convey a message by visual means. Your logo should be able to stand alone as a separate entity. For our purpose we will include type (name, address, phone number, etc.) so pick a type face that can be easily read. Remember—simple, clean, easily recognizable!
