

## Tom Bugzavich Class Exercise 2

### Roots

I would like you to research an artist from the 20th century. Here is a partial list of artists that you may choose from for your research paper. (It can be any artist from the 20th century) This paper needs to be at least one type written page in length and should have as many examples of the artist's work as possible. I suggest using the Internet to search for the artist and images that you will use. Save your images on a flash drive so that you may project them while you give your presentation. We will present these in class.
