eLumen: Adding Assessment Scores for a Distributed Assessment

Entering scores for assessment results is a critical component of our SLO assessment cycle. SLO Program Liaisons/Coordinators may choose to “distribute” assessments to faculty at the beginning of the semester or term as a way of simplifying the process for entering scores and asserting more controls over which assessments are used. Think of the SLO Program Liaison/Coordinator as your instructor and the assessment distribution is your homework. These instructions are for entering scores when an assessment has been distributed by a program liaison/coordinator.

Logging into eLumen

1. Web Address: swccd.elumenapp.com/swccd/

![Image of eLumen login screen]

2. Use your SWC server (email) username and password.

3. If you cannot log in, please contact the Help Desk (619 421-6700 x4357). Only the Help Desk can assist with login issues.

   The three main reasons people experience problems logging in:
   a) Incorrectly entering a username or password
   b) An expired SWC server password (must be updated every 6 months)
   c) Being newly hired or in a new position on campus.

Developed by: Rebecca Wolniewicz, Ph.D., ISLO Coordinator
Andre Ortiz, Training Services Coordinator
Randy Beach, Institutional Program Review and Outcomes Coordinator
4. Once logged into eLumen, your main page will look similar to this:

**Entering Scores into eLumen for a Distributed Assessment**

1. At the top left of the screen make sure “Faculty” is selected in the drop-down menu next to your name (some individuals have several roles in eLumen).

2. Just below your name on the top left of the screen (in the middle of the “Courses” button) make sure the drop-down menu shows the correct semester and year.
3. At the top right of the screen, make sure the drop-down menu lists your course(s) discipline.

4. All the course sections you are teaching for the semester selected should be listed in the center of the screen.

5. To the right of each course section, click the blue button in the third (last) column. Note that the icon has 3 tiny people in it which are blocked by a progress meter.
6. After you click the blue button you will see a row of boxes labeled “0-4” (representing proficiency level) and an additional box labeled “N/A” (Not Assessed). Make sure to include the number of students who were not assessed and are on your roster. The “Current” number and “Total” number should match.

7. Enter your scores in each box and click the Save button. A green box stating, “Scores successfully saved” appears on the lower right screen.

See a blue button? That means your assessment was distributed and you can put in your scores.

If you do not see this blue button return to the Student Learning Outcomes HELP page and download the file “How to Log into eLumen and Enter Scores Into a Course Without Assessment Distribution”
Be sure that the number of scores you input is equal to the number of students on your roster. Use the NA column to indicate the number of students that were not assessed. Your goal is to have an equal number of scores, including NA scores, as you see students in eLumen. If these numbers don’t match, the assessment will be incomplete and can be altered in the future.

8. After you click Save, you will automatically go back to your course and assessment listing to continue setting up your assessments, or continue with entering your scores.

Congratulations, you have successfully entered your SLO scores for a Distributed Assessment.

Please contact Randy Beach at rbeach@swccd.edu or ext. 5897 or Andre Ortiz at aortiz@swccd.edu or ext. 6430 if you have questions regarding inputting scores.
