SUPERINTENDENT/PRESIDENT’S MESSAGE

Welcome to Southwestern College and the 2014–2015 academic year.

We are entering one of the most exciting times in the history of the college. The economy is beginning to improve, and we are able to slowly restore our number of class sections. We are also transforming the landscape of the campus—planning and building new instructional buildings and facilities that will open new access to our students and community.

Southwestern College offers more than 312 degree and certificate options at our Chula Vista campus and Higher Education Centers in National City, Otay Mesa and San Ysidro and the Crown Cove Aquatic Center.

As we begin this academic year, we are focusing our efforts on new academic initiatives that will improve student achievement. It is our commitment to create avenues of success for every student.

Whether this is your first semester with us or you are finishing the last classes before you transfer, our dedicated faculty, staff and administrators are here to help you achieve your goals.

I wish you the best for a successful year.

Melinda Nish, Ed.D.
Superintendent/President

- associate degree and certificate programs
- transfer
- professional, technical, and career advancement
- basic skills
- personal enrichment
- noncredit adult education
- community services; and
- economic, workforce, and community development

We promote student learning and success by committing to continuous improvement that includes planning, implementation, assessment, and evaluation.
GUIDING PRINCIPLES
Southwestern College is chartered by the State of California to provide lower-division educational programs that prepare students for transfer to senior institutions, career and technical programs leading to direct entry into the workforce or career advancement. It is also chartered to provide basic skills that prepare students for college-level educational pursuits and to contribute to the economic development of our region. Within that context, the Governing Board adopted the Southwestern College Mission Statement.

Selecting a program of study is one of the most important decisions a student will make. The following pages present a complete listing of programs, degree requirements, and courses, as well as information about the many services the College District provides to assist students in reaching their educational goals.

Southwestern College offers many transfer and vocational/career programs in a variety of departments which are needed to prepare a student for transfer to a college or university or employment in business and industry. In addition to the major educational programs taught at the Chula Vista campus, the College District also offers courses at Higher Education Centers throughout the South County area and the Crown Cove Aquatic Center in Coronado.

Faculty and staff at Southwestern College have earned an outstanding reputation. Faculty possess substantial academic and professional backgrounds. Whether they are writing books, composing music, or digging for the archaeological remains of ancient civilizations, Southwestern College faculty members distinguish themselves among college educators. Faculty are appreciated by their students because they are excellent teachers, are accessible, and are committed to student success.

STUDENT LEARNING OUTCOMES
Student Learning Outcomes (SLOs) describe the knowledge, skills, abilities, competencies, attitudes, beliefs, opinions, or values students gain as a result of learning. SLOs are assessed across the college in all academic programs, student services, and administrative offices. GETTING TO KNOW SOUTHWESTERN COLLEGE

SOUTHWESTERN COLLEGE HISTORY

The Southwestern Community College District, located south of San Diego and extending to the U.S.-Mexico border, is one of 72 community college districts in the California Community College system. It serves as the primary source of public higher education for approximately 400,000 residents of the South San Diego County area including the communities of Bonita, Chula Vista, Coronado, Imperial Beach, National City, Nestor, Otay Mesa, Palm City, San Ysidro and Sunnyside.

The College began offering classes to 1,657 students in 1961, with temporary quarters at Chula Vista High School. Groundbreaking for the present 156-acre Chula Vista campus was held in 1963; by September 1964, initial construction was completed and classes were being held at the new campus on the corner of Otay Lakes Road and H Street in Chula Vista.

In 1988, Southwestern College established its Higher Education Center at San Ysidro on the memorial site of the McDonalds tragedy. The College again expanded its off-campus locations in 1998 by establishing the Higher Education Center at National City. A new Higher Educational Center at Otay Mesa opened its doors in 2007 as a regional center for educational training and development. In 2009, a new state-of-the-art facility replaced the previous San Ysidro site to serve its students and the community.

In addition to its centers, Southwestern College also provides off-campus classes at several extension sites throughout the District and operates an Aquatic Center in Coronado in conjunction with the California Department of Boating and Waterways and the California Department of Parks and Recreation. Current enrollment—exceeds 20,000 students. More than a half-million students have attended Southwestern College since its inception.

The Western Association of Schools and Colleges has continuously accredited SWC. The College offers a comprehensive curriculum, preparing students for transfer to four-year colleges or universities and for jobs and career advancement.

DIVERSITY INITIATIVE

Southwestern Community College District seeks to foster and engage diversity as integral to our learning community and in educational excellence. Diversity is valued as an essential cornerstone to civility, dignity, fairness, respect, and trust.

NONDISCRIMINATION STATEMENT

The Southwestern Community College District does not discriminate on the basis of race, color, religion, national origin, gender, sexual orientation, disability, age, or marital status in any of its policies, procedures, or practices. This nondiscrimination policy covers admission, employment, and access to all college programs and activities. Questions about the Rehabilitation Act of 1973, Section 504, and student grievances should be directed to the Dean of Student Services, at 619-482-6369. Title IX inquiries should be directed to the Dean of Health, Exercise Science, Athletics and Applied Technology at 619-482-6551. Inquiries regarding Equal Employment Opportunity and other nondiscrimination policies and procedures should be directed to the Vice President for Human Resources, 619-482-6329.

EQUAL EMPLOYMENT OPPORTUNITY (EEO) POLICY STATEMENT

The Southwestern Community College District shall not discriminate against any person in employment or in any program affiliated with the District on the basis of age, ancestry, color, ethnic group identification, national origin, religion, race, gender or sex, sexual orientation, physical or mental disability, veteran status, or on the basis of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

The District is committed to the implementation of its EEO Plan and to overcoming all forms of institutional and/or personal exclusion or discrimination within the District; whether purposeful or inadvertent. The Governing Board, administration, faculty and staff must recognize that equal employment opportunity is a shared responsibility. Each employee must be held accountable for application and enforcement of the EEO Plan within his or her area of authority. It is only through combined efforts that the District will successfully develop and maintain a workforce that is welcoming to all persons. The District will ensure that the recruitment, screening, selection, hiring and promotional processes are in accordance with principles of equal employment opportunity (District Policy & Procedure No. 7120, “Recruitment & Hiring”). In addition, the District will comply with Title I and Title II of the Americans with Disabilities Act of 1990, thereby promoting values of diversity and inclusion, benefiting all members of the Southwestern Community College District, including individuals from all ethnic and other groups protected from discrimination by Title 5, section 53000 et seq.

The Governing Board supports the intent set forth by the California Legislature to assure continuing good faith efforts are made to build a community in which opportunity is equalized. Its goal is to foster a climate of acceptance, with the inclusion of faculty and staff from a wide variety of backgrounds. It agrees that diversity in the academic environment fosters cultural awareness, mutual understanding, harmony and respect, increases student success and better enables students to flourish as citizens of the world. The Governing Board therefore commits itself to promoting the total realization of equal employment through a continuing equal employment opportunity program.

Note: The District’s EEO Plan is posted on the website and is available in hard copy in the Offices of the Superintendent/President, the Vice President for Human Resources, Vice President for Accommodation, Vice President for Student Affairs, and Vice President for Business and Financial Affairs.
Established in 1998, the Higher Education Center at National City (HEC, NC) was built in a collaborative effort with the City of National City and the San Diego County Office of Education (SDCOE) to serve the educational needs of the residents of National City and its surrounding communities. The Center is located at 880 National City Boulevard, which is approximately 10 miles from the Chula Vista campus. This state-of-the-art facility includes 15 “smart” classrooms, 20-station computer lab, biology lab, medical assistant lab, yoga and step aerobics lab, bookstore, library, health services center, career/transfer center, one-stop Student Services Center, Family Resource Center, and 22-chair Dental Hygiene Clinic.

The Center’s faculty and staff members are committed to serve the academic needs of a diverse student population seeking personal enrichment, professional development, technical certification, and university transfer courses, by offering a wide spectrum of credit and noncredit offerings designed to prepare them for numerous educational and career opportunities. General class offerings include full-semester, late-start and fast-track courses available in the day and evening. In addition, the Center offers a number of signature programs including the Dental Hygiene Program, Medical Laboratory Technician Program, and Medical Office Professional Program.

The nationally acclaimed Dental Hygiene Program houses a 22-chair state-of-the-art clinic where students offer free dental hygiene services to the community. Since the program’s inception in 2000, more than 400 students have graduated and passed rigorous State and National Dental Hygiene Board examinations. Most are employed as registered dental hygienists in San Diego County.

The Medical Laboratory Technician Program (established in 2009) is one of the only two nationally accredited programs in the state of California. Students are prepared for success on two national certification examinations and subsequent state licensure, followed by fulfilling careers in medical laboratory science.

In 2010, the Medical Office Professions Program relocated to the National City Higher Education Center from the Chula Vista campus. The program prepares students to enter the medical assisting profession as clinical medical assistants, administrative medical assistants, or billing and coding specialists. Students practice techniques and procedures in classroom, laboratory, and clinical settings. Upon program completion, students are able to apply for medical assistant certification.

Opening its doors in fall 2007 and located in Otay Mesa, only minutes away from the United States/Mexico International Border, the Higher Education Center at Otay Mesa reflects a full-service philosophy. It offers broad-based curriculum with over 200 different courses so students can pursue an associate degree, complete general education requirements for transfer or develop occupational skills for employment. The 70,000 square-foot facility has the capacity to serve up to 5,000 students.

To help students achieve success, the Center also provides the necessary student support services—admissions and records, counseling, tutoring, financial aid, and disability support services. Furthermore, the facility houses a career/transfer center, library, health services center, student center, bookstore, conference center, fitness center, and science and computer labs.

Academic excellence, learning, growth, and student success typify the educational program at the Higher Education Center at San Ysidro (HEC, SY).

First established in 1988, the HEC, SY is located only minutes away from the U.S.-Mexico International Border. Rebuilt and reopened in 2009, the new state-of-the-art 18,000 sq. ft. building now has more classrooms and improved facilities to serve 2,000 students. The new HEC, SY continues to reflect a full-service philosophy, providing quality instruction and student services in one convenient location.

The HEC, SY’s instructional program is proud to house the Legal Interpretation and Translation program, in addition to offering courses for students wishing to pursue an associate degree, complete general education requirements for transfer, develop occupational skills for employment, or undertake personal development courses. Examples of courses offered include Art, Child Development, Communication, Computer Literacy, English, English as a Second Language, Interpretation and Translation, Mathematics, Reading, and Social Sciences. Courses are offered via a flexible schedule, including day and evening classes, in a full-semester or fast-track format. In support of students’ academic achievement, the HEC, SY offers a variety of student services including, but not limited to, admissions, counseling, EOPS, financial aid, health services, disability support services, and tutoring. Additionally, the Center features a student center, library, and open computer lab.
HIGHER EDUCATION CENTER AT SAN YSIDRO LIVING MEMORIAL
Located at the front of the Center is the San Ysidro Memorial, which honors the memory of the 21 victims of the 1984 tragedy on the McDonalds restaurant site. Southwestern College officials worked with civic leaders to solicit contributions for the construction of the memorial. The San Ysidro Memorial was dedicated in December 1990, and today the memorial continues to serve as a tribute and a promise to enhance the lives of the people of San Ysidro and its neighboring communities through education.

SOUTHWESTERN COLLEGE FOUNDATION
The Southwestern College Foundation was established as a separate private nonprofit corporation in 1982 to solicit and receive real and personal property from public agencies, individuals or estates; and to manage, invest and/or distribute such real and personal property for the promotion of educational services, programs, and facilities at Southwestern College and/or within the Southwestern Community College District.

Southwestern College Foundation funds are primarily used to award student scholarships, sponsor campus activities, participate in community events, and build the College’s endowment.

The SWC Foundation Directors are goodwill ambassadors for the College, giving of their time, talent, and treasury. Members are elected to serve three-year terms and officers are elected on an annual basis.

STUDENT SUCCESS AND SUPPORT PROGRAM (SSSP)

STEPS TO SUCCESS
SSSP services are coordinated by the Dean of Counseling and Matriculation Services. The matriculation process starts with services you will receive before you attend your first class and will continue throughout your educational experience. The process can be considered your steps to success to ensure that you get started and stay on the right track.

SSSP RIGHTS AND RESPONSIBILITIES
SSSP is a process that assists you in choosing, planning, and achieving your educational and career goals. It is Southwestern’s way of supporting your right to succeed in college. SSSP is a partnership between you and Southwestern College.

Southwestern College agrees to:
• Evaluate your English, math, and reading skills.
• Help you register for appropriate classes.
• Provide you with an orientation, information on services available, and possible majors and/or careers.
• Provide access to counselors and instruction.
• Help you to develop a Student Educational Plan.
• Monitor your progress and provide follow-up services.

You agree to:
• Decide upon your major and goal or select a course of study.
• Complete assessment and orientation.
• Work with us to develop an educational plan by the time you have completed 15 units.
• Attend and complete courses to make the best use of the time you spend at Southwestern College.

The College may suspend or terminate services to any student who fails to fulfill his/her responsibilities. However, the College may never suspend or terminate any service for which a student is otherwise entitled under any other provision of law. In addition, students may challenge any SSSP requirement or regulation using the petition process. Petitions are available in the Assessment Center or the Office of the Dean of Counseling and Matriculation Services.

SSSP APPEALS PETITION—COMPLAINT OF UNLAWFUL DISCRIMINATION
An SSSP Appeals Petition may be filed if a student feels that assessment, orientation, counseling, prerequisite/corequisite, or any other matriculation procedure, is being applied in a discriminatory manner. Where a student believes an injustice is being done, the student may seek redress through established grievance policy and procedure. Procedural due process, under the student grievance policy, shall be adhered to in accordance with the following exceptions:
• When a student files a petition that relates to matriculation, the designated administrator shall be the Dean of Counseling and Matriculation Services.
• If a formal hearing procedure is necessary, the SSSP Appeals Committee membership shall consist of the Dean of Counseling and Matriculation Services, the Affirmative Action Officer, an Associated Student Organization (ASO) representative, and a member of the Matriculation Advisory Committee.

Students may file an SSSP Appeals Petition through the Assessment Center or the Office of the Dean of Counseling and Matriculation Services. You must provide compelling evidence to support the petition.

SSSP PROCESS
All non-exempt students are required to complete core services provided by SSSP. Those include: assessment and placement, orientation, advisement, and a Student Educational Plan. These steps are described more fully on the following pages.

New, returning, or transfer students who may be exempt from the SSSP process are students who:
• Already have an associate or bachelor’s degree.
• Are attending Southwestern for personal enrichment.
• Are enrolled only in noncredit community education courses.
• Are taking classes only to upgrade job skills.
• Are enrolled in apprenticeship or other special vocational education programs.
• Are concurrently enrolled in another college or university.

Exempt students are not required to participate in the SSSP process, but are encouraged to see a counselor at any time.

RESIDENCY REQUIREMENTS

GENERAL GUIDELINES
The California Education Code states that all public institutions of higher education shall apply uniform rules in determining a student’s residency classification. Each student applying for admission to Southwestern College will be classified as a resident or nonresident of California in accordance with the Education Code. Each student shall provide such information and evidence of residency as deemed necessary. The day immediately preceding the first day of instruction for the semester, shall be the residency determination date for the fall and spring semesters. The day immediately preceding the first day of instruction for the first summer session, shall be the residency determination date for all summer sessions.

RESIDENCY CATEGORIES
Applicants for admission to Southwestern College shall be classified under one of the two categories listed below.

Resident
A resident is classified as an applicant whose legal residence is in the Southwestern Community College District and who is classified as a resident of the state of California.

Nonresident
A nonresident is classified as an applicant who has not maintained a full year of continuous legal residency in California immediately prior to the residency determination date for the summer session or semester for which he/she seeks admission.

AB 540 Students
On October 12, 2001, Governor Davis signed into law Assembly Bill 540, which adds a new section to the California Education Code. It creates a new exemption from payment of nonresident tuition for certain nonresident students who have attended high school in California and received a high school diploma or its equivalent. This law provides an exemption from paying non-resident fees. However, it does not give the student resident classification status for any other purpose. Students who receive this exemption would be required to establish residency for any state-funded program (EOPS, BOGW, CalGrants). For more information contact Admissions at (619) 421-6700, ext. 5215 or 5216.

Establishing Residency
In order to be eligible to establish residency, a student must be a citizen of the United States, a permanent resident or an approved applicant for permanent residency, or on visa status that does not preclude him/her from establishing domicile in the United States. It is necessary that there be a union of act and intent. The act necessary to establish legal residency is physical presence in California. While intent may be subjective, there are many possible indications of one’s intent to maintain legal residency in California. It is the responsibility of the applicant to furnish information and evidence of both physical presence and intent, as requested by Admissions.
RESIDENCY DETERMINATION OF STUDENT
The following items are pertinent to community colleges and are quoted from specific sections of the Education Code:

Legal Requirement
California state law requires that each student enrolled in or applying for admission to a California community college provide such information and evidence as deemed necessary by the Governing Board of the Southwestern Community College District to determine his/her residency classification.

Statutes
The statutes regarding residency determination are found in Sections 68000–68090 and 76140 of the Education Code, Sections 54000–54082 of the California Administrative Code, and Regulations of the Southwestern Community College District. These regulations are available in Admissions and are subject to the interpretation of the College.

RULES OF RESIDENCY
Adults over 19 years of age and married minors may establish California residency. A California resident, for purposes of postsecondary education, is defined as a person who has not only lived in the state for a minimum of one year prior to the residency determination date for the semester or summer session to which he/she is applying but can also verify clear intent to become a permanent resident of the state. (The residency determination date is the day before classes begin.)

Note: It must be understood that no one factor is controlling and the burden of proof to establish residency is upon the student.

Primary Determinants
• Paying California state income tax as a resident.
• Maintaining California as legal state of residency on Leave and Earnings Statement (LES) and W-2 form while in the armed forces for one year prior to enrollment.
• Possessing California resident motor vehicle license plates and registration.
• Possessing valid California driver license.
• Registering to vote and voting in California.

Secondary Determinants
• Showing California as a home address on federal tax forms.
• Being a petitioner for divorce in California.
• Obtaining license from California for professional practice.
• Establishing and maintaining active California bank accounts.
• Owning residential property in California.
• Holding active membership in service or social clubs.
• Having spouse, children, or other close relatives reside in California.

Conduct Inconsistent with a Claim for California Residence
Conduct inconsistent with a claim of California residency includes, but is not limited to:
• Maintaining voter registration in another state.
• Being a petitioner for a divorce in another state.
• Attending an out-of-state institution as a resident of that state.
• Declaring nonresident for state income tax purposes.
• Retaining a driver’s license and/or keeping a vehicle registered in another state during the time period for which California residency is claimed.
• Paying as a resident state income tax in another state.
• Having an alien status which is precluded by the Immigration and Nationality Act from establishing a residence in the United States.

For a listing of precluded visas or statues, contact any Southwestern College Admissions Office or log onto www.swccd.edu select Admissions, then Residency.

Rules of Residency, Married Minors
A married student under 18 years of age may establish residency in the same manner as an adult.

Rules of Residency, Unmarried Minors
These conditions apply unless the minor is precluded by the Immigration and Nationality Act from establishing residency in the United States:

An unmarried student under 18 years of age derives residency from the parent with whom he or she is residing. If the student lives with neither parent, residency is derived from the parent with whom he or she last lived. The student may be classified as a resident if the parent has been a legal resident of California for more than one year immediately proceeding the semester of admission. For more information please see, Nonresident Fee Exemption.

OTHER RESIDENCY OPTIONS
A student is also entitled to residency classification under the following circumstances:
• Student has been present with intent to become a resident in California for more than one year prior to the semester of admission.
• Student is over 18 years of age and has resided in California as a permanent resident more than one year prior to the semester of admission.
• Student is under 18 years of age and has resided with parent(s) as permanent resident(s) more than one year prior to the semester of admission.
• Student is a full-time employee of a public school district in a position requiring certification.
• Student is an apprentice as defined in Section 3077 of the Labor Code and enrolling in apprentice or related classes only.
• Student has earned livelihood primarily by performing agricultural labor for hire in California for at least two months per year in each of the two years preceding the semester of admission.
• Student has lived with parent(s) who is/are agricultural laborer(s) as specified above and is claimed as a tax dependent.
• Minor student has been under continuous care and control of adult(s) not a parent, for more than two years prior to the semester of admission. Such adult(s) must have been a California resident during the most recent year. Minor students must be enrolled full time.
• Student is active military.

A student is entitled to resident classification for the minimum time necessary to become a resident if the following circumstances apply:
• Minor student in continuous full-time attendance, whose parents had established California residency (one year) and left the state, may be classified as a resident until he/she has attained the age of 18 and can achieve residency on his/her own.
• Student is a dependent natural or adopted child, stepchild, or spouse of active military service person stationed in California.
• Student is a full-time contract/regular employee of the Southwestern Community College District.
• Student has not been an adult resident for one year and is a dependent child of a California resident.
• Student is a member of the armed forces who was stationed in California on active duty for more than one year prior to being discharged from the service.

Nonresident Student
A student classified as a nonresident will be required to pay tuition as a condition of and at the time of enrollment in an amount set forth by the Board of Trustees of the Southwestern Community College District. Information regarding tuition fees and refunds is found in the fee section of this catalog.

Nonresident Fee Exemption
Effective January 1, 2002, a new law (AB540) went into effect in the State of California providing an exemption from paying nonresident fees for certain nonresident students. While this exemption allows students to pay resident fees, it does not grant them resident status that would give them eligibility for any state-funded program. To be eligible for this exemption a student must meet the following criteria:
• Attendance at a high school in California for three or more years
• Graduation or attainment of a high school equivalency from a California high school
• Enrollment in college not earlier than the fall 2001 semester

For more information on this fee exemption, contact Admissions and Records.

Incorrect Classification
A student incorrectly classified as a California resident is subject to reclassification as a nonresident and to payment of nonresident tuition. If incorrect classification results from false or misleading facts, a student may be excluded from class or classes upon notification.

Reclassification
Reclassification to resident status must be requested by the student. Financial independence during the current year and preceding two years will be considered at the time the student requests reclassification. Information regarding requirements for reclassification is available in Admissions located in the Cesar E. Chavez Student Services Building.

Tuition fees will not be refunded to a student classified as a nonresident due to lack of documentation if at a later date documentation is presented for that previous semester.

Limitation of Residency Rules
The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. For further information, contact the residency clerk in Admissions. The student should also note that changes might have been made in the statutes and in the regulations between the time this statement is published and the beginning of the semester.

Appeal of Residency
A student may petition and appeal the residency classification decision within three days to the Dean of Student Services or designee.

The determination will be made based on the statement of legal residency, pertinent information contained in the student’s file, and student’s appeal. Notification will be sent to the student by email.

Admission in Error
Nonresident students, subject to payment of nonresident fees, who have been admitted to a class or classes in error without payment of the required fees, shall be excluded from such class or classes upon discovery pending payment of the fees.

Admission by Falsification
Falsification of information submitted on the application for admission will be grounds for exclusion from the College. Students excluded shall not be readmitted during that session or semester from which they were excluded. All debts incurred as a result of falsification must be paid prior to readmission.
STEP 2: ASSESSMENT, ORIENTATION AND ADVISEMENT

COMPLETE THE COLLEGE ASSESSMENT

Computerized assessment (basic skills placement testing) is available at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. You should plan to take the assessment prior to completing orientation.

English, reading, and mathematics assessments are essential to evaluate skill levels and to assist in the selection of the proper level of coursework. These assessments are recommended before enrolling in English, reading, and mathematics courses. Many courses also have a recommended reading level that may be attained on the SWC Reading Assessment prior to enrollment.

WHY SHOULD I TAKE THE ASSESSMENT?

Assessment is a key component to effectively helping you start your college career at the levels most appropriate with your skills. Southwestern College has taken steps to ensure that our placement tests exceed state standards for effective placement so that you will not have to begin college in math and English courses that are too easy for you or too difficult for you.

DO I NEED TO STUDY OR REVIEW ANY MATERIAL FOR THIS ASSESSMENT?

Assessment is an important process that evaluates your English, reading, and math skill levels. While you cannot “fail” these tests, it is critical that you take the assessment seriously and that you take the time to prepare for the tests as your results will directly impact the coursework you will need to complete at Southwestern College. Doing so could save you time and money.

If you do not take these tests seriously or if you are not prepared to take the tests, you could spend 4 or more semesters in math, 2 or more semesters in English, and 3 or more semesters in reading before you reach college-level or transfer-level coursework.

Therefore, it is recommended that you become familiar with the types of test items you will experience when you take the College Assessment. Practice tests and test guides are available online at http://www.swccd.edu/assessment. These free practice tests and guides are also available at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. More extensive math practice tests are available at the College Bookstore for a nominal fee.

WHO SHOULD BE ASSESSED?

Assessment is strongly recommended if you indicate on your admissions application that your primary educational objective at Southwestern College is:

- Career/Technical
- Associate degree
- Transfer to a four-year college/university
- Undecided
- Major other than self-improvement or job advancement

Assessment is also highly recommended if you plan to:

- Enroll in courses with recommended reading preparation.
- Enroll in any reading, math, English, or English as a Second Language (ESL) course requiring or recommending specified assessment skill levels.

It is important to take all three assessments before registering for your first semester at Southwestern College. English, reading, and math results are considered valid for three years. You may attempt each of the placement tests twice in any one semester and a total of three times during your enrollment at Southwestern College. If your assessment results have become invalid due to a three-year lapse, you may retake the tests but are subject to the same retest policy (twice in one semester and a total of three times). You may attempt to have the three-test limitation waived by filing an appeal through the Assessment Center.

ESL placement results are valid for only one year. The ESL assessment may be repeated after one year.

All placement tests are strongly recommended but not mandatory. Assessment assists in matching you with courses most appropriate to your skill levels. If you decide not to be assessed, it is recommended that you complete a self-exemption form available in the Assessment Center.

You may also be matched with appropriate courses without taking the placement tests if you have:

- completed courses (with a grade of “C” or better, or “Pass”) at another college or university that are equivalent to Southwestern College courses requiring or recommending specified assessment skill levels (proof of successful course completion must be submitted with a Prerequisite Evaluation Request form to the Assessment Center)

OR

- assessment results from other colleges or universities (documents showing raw test scores taken within the last three years must be submitted with a Prerequisite Evaluation Request form to the Assessment Center).

WHEN AND WHERE IS THE ASSESSMENT GIVEN?

Assessment is offered at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. Assessment is also often available at all three Higher Education Centers.

Assessment schedules for all sites are listed on the College website at http://www.swccd.edu/assessment. Placement tests are given on a walk-in basis within the times listed on the schedules.

ARE THE PLACEMENT TESTS TIMED?

Yes. Most students complete the English, reading, and math tests in about two hours and 15 minutes. Students with disabilities may request additional time to complete the tests.
WHEN WILL I RECEIVE THE RESULTS FROM MY ASSESSMENT?
You will receive English, reading, and mathematics results immediately upon completion of your assessment. ESL placement results are available at the Assessment Center within two weeks after you tested. You can also access all of your placement results in the Academic Profile section of WebAdvisor.

ASSESSMENT AND GRADUATION REQUIREMENTS
All students who plan to graduate with an associate degree are required to meet reading, writing, and mathematics proficiencies. The reading and mathematics proficiencies may be met by satisfactory performance on specific assessments. For more information, see Graduation Requirements, page 59.

ARE SPECIAL ACCOMMODATIONS AVAILABLE FOR STUDENTS WITH DISABILITIES?
Individualized accommodations are provided to meet the needs of students with disabilities. Accommodations offered include extended testing time, reader and/or writer, large-print tests, and Zoom Text. Students needing such accommodations should contact Disability Support Services (Room S108 in the Cesar E. Chavez Student Services Building) prior to scheduling an assessment.

WILL THE ASSESSMENT AFFECT MY ACCEPTANCE TO SOUTHWESTERN COLLEGE?
The assessment will not affect your acceptance to the College. However, the results may affect acceptance into some programs at the College, such as Nursing.

Orientation Topics include:
• Assessment results
• Course selection
• Degree requirements
• Recommended course preparation
• Prerequisites
• Campus resources

COURSE ENROLLMENT POLICIES
Each student is responsible for his/her registration of classes; attending every class meeting, informing instructors in case of absence, and officially withdrawing from classes. Furthermore, each student is responsible for following the rules and regulations in this catalog.

Enrolling in courses at Southwestern College requires you to complete several steps in the registration process. Registration information and materials to enroll in classes may be obtained online on WebAdvisor at www.swccd.edu or in Admissions located in the in the Cesar C. Chavez Student Services Building at the Chula Vista campus, the Higher Education Centers at National City, Otay Mesa or San Ysidro. Southwestern College provides an online schedule of classes prior to the beginning of each semester. The schedule
Before registering, you should read each course description carefully to ensure you are registering for the courses you need to meet your educational goals. You will need to develop a Student Educational Plan (SEP) to determine the classes you need to take.

Many courses restrict enrollment to students who have not met or are currently meeting the level of preparation that is deemed essential to student success in those courses. These restrictions are called prerequisites, corequisites, and limitations on enrollment. Courses may also have a recommended preparation or recommended concurrent enrollment that will enhance your chances of success in these classes.

Recognizing that the proper establishment of prerequisites, corequisites, limitations on enrollment, and/or recommendations are critical to student learning, the Southwestern College faculty has taken great effort to ensure your success by diligently reviewing each requisite and recommendation prior to its implementation. The College endeavors to inform you of the skills needed to succeed before you enroll in these courses.

Therefore, you should plan to follow all course prerequisites, corequisites, limitations, and recommended preparation. Being adequately prepared for courses will expedite your progress in reaching your educational goals.

PREREQUISITE
A prerequisite is a course or qualification that must be satisfactorily completed before you may register for another course. The skills or knowledge provided in the prerequisite course has been deemed necessary for your success in the subsequent course. A minimum grade of “C” or “Pass” must be earned in the prerequisite course.

Prerequisites are enforced at Southwestern College. If you have not met the listed prerequisites, you will not be able to enroll in courses requiring the prerequisites. Prerequisites may be met by satisfactory completion of courses at Southwestern College or equivalent coursework at another college or university. Some prerequisites may also be fulfilled by satisfactory results on the appropriate validated Southwestern College Assessment. If prerequisites were completed at another college or university, you will need to bring copies of appropriate transcripts/grade reports and/or assessment results to the Assessment Center to clear the requirements prior to registration. The Assessment Center is located in the Cesar E. Chavez Student Services Building. Students may challenge prerequisites. For more information, see Requisite Challenge in the next column (Policy No. 7025).

COREQUISITE
A corequisite is a course which must be taken during the same semester as another course. In other words, when a course has a corequisite listed, you must register for those courses (often a lecture and lab) concurrently. Knowing the information being presented in the corequisite course is deemed necessary for successful completion of the other course(s).

Corequisites are enforced at Southwestern College. If you do not enroll in all listed corequisites, you will be dropped from the courses requiring the corequisites. Similarly, if you are enrolled in courses that are corequisites and you drop one course, you will be dropped administratively (or by computer) from the other course. Students may challenge corequisites. For more information, see Requisite Challenge below (Policy No. 7025).

LIMITATION ON ENROLLMENT
Performance courses may require students to try out for intercollegiate athletic teams or to audition for courses involving public performances (for example, chorus, forensic speech, and theatre) prior to enrollment.

Enrollment in blocks of courses or sections may be a requirement so that a group of students will enroll together in that set of classes. Students are part of a special program such as a Learning Community or Puente.

Enrollment may be limited due to legal requirements (imposed by statute, regulation, and/or contract). For example, some courses may require a student to have a valid driver license, health clearance, nursing license or certificate, etc.

Limitations on enrollment are enforced at Southwestern College. Students may challenge limitations on enrollment. For more information, see Requisite Challenge below (Policy No. 7025).

REQUISITE CHALLENGE
The Requisite Challenge Form allows students to challenge any course requisite. You may file a challenge based on one or more of the following reasons:

- You have the knowledge or ability to succeed in the course despite not meeting the course requisite. You must provide documentation that explains/demonstrates that you have the background, skills, or abilities to succeed in the desired course.
- You believe you will be subject to undue delay in attaining the goals of your educational plan due to a limitation on enrollment or because the prerequisite or corequisite course has not been made reasonably available. Consideration is typically given only when either (1) the prerequisite/corequisite has not been offered for two consecutive semesters or (2) the prerequisite/corequisite is necessary for graduation, transfer, or a certificate, but the requisite is unavailable due to the number of course sections offered.
- You believe the prerequisite, corequisite, or limitation on enrollment has been established in violation of Title 5 regulations and/or the Southwestern Community College District’s process for establishing prerequisites, corequisites, and limitations.

Students may file a Requisite Challenge Form through the Assessment Center. You must provide compelling evidence to support your challenge, attach documents (transcripts, evidence of work experience, etc.), and information necessary to support the challenge. The Requisite Challenge Form will be forwarded to the appropriate School Dean or designee for determination. Ten working days (15 days during summer) subsequent to your submitting the challenge form, results may be picked up at the Assessment Center or, at your request, the results will be emailed to you.

A student wishing to appeal the decision of the dean may request a meeting with the appropriate School Dean, Department Chair, and the Vice President for Academic Affairs or designee.

RECOMMENDED PREPARATION
Recommended preparation is previous training or coursework that helps a student successfully complete a subsequent course. Completion of the recommended preparation course with a grade of “C” or better increases student success. To improve your chances for success, you are strongly encouraged to follow recommended preparation whenever it is listed in the class schedule. Enrollment may not be denied to any student not meeting a recommended preparation.

RECOMMENDED CONCURRENT ENROLLMENT
Recommended concurrent enrollment is a course that a student should complete—but is not required to complete—while enrolled for another course. Enrollment in such a course improves student success. You are strongly encouraged to follow recommended concurrent enrollment whenever it is listed in the catalog to improve your chances for success in Southwestern College courses. Enrollment may not be denied to any student not meeting a recommended concurrent enrollment.
COURSE RESTRICTIONS

Unit Enrollment Limit
The number of units or credits for full-time status is 12 or more per semester. On average, a student should expect to spend three hours per week in class and in study for each unit of college credit. Students enrolling in 15–16 units per semester are usually committing themselves to more than 40 hours per week of study.

Due to State budget cuts and workload reductions, Southwestern College reserves the right to restrict the maximum units into which students can enroll during the first three weeks of the registration periods. Please contact the Dean of Student Services for current information.

The maximum number of units for which a student may register is 19. Anyone who would like to enroll for more than the maximum per semester must petition for exception with the Dean of Counseling and Matriculation Services prior to adding the classes. Prior to filing a petition of exception, a student should consult with a counselor to discuss the advisability of enrolling in additional units. Petitions are filed with Counseling.

Thirty-Unit Remediation Limit
Students will not receive credit for more than 30 units of remedial or basic skills courses in the District. ESL and DSS related courses are exempt from this policy. A student who exhausts this unit limitation will be referred to appropriate noncredit continuing education services with certain exceptions.

COURSE OVERLAYS
State law prohibits a student from enrolling in courses that meet at the same time. Should a slight time overlap of 15 minutes per week occur, an overlay petition may be submitted to Admissions for approval. The petition should specifically indicate when the time will be made up for one of the two courses, and it should also include the instructor’s signature. Petitions and information are available in Admissions and Information Desk at the Chula Vista campus, the Higher Education Centers at National City, Otay Mesa, or San Ysidro, and online at www.swccd.edu (click on Admissions then click on printable forms.)

FIELD TRIPS
Throughout the academic year, the District may sponsor voluntary field trips and excursions in connection with courses. Students should be advised that if they participate in a voluntary field trip or excursion, they will be deemed to have held harmless the District, its officers, agents, and employees from all liability or claims which may arise out of or in connection with their participation in this activity. Normally, when a class meets off campus, the students will be responsible for arranging their own transportation to those locations (Policy No. 7011).

TRANSPORTATION
Throughout the academic year, some activities and classes may meet at off-campus locations. The College will not provide transportation to these sites, and all transportation arrangements are the responsibility of each student enrolled in the activity or in the class. Although District personnel may assist in coordinating this transportation and/or may recommend travel time, routes, caravaning, etc., these are only recommendations and are not mandatory. The District is in no way responsible for and does not assume liability for any injuries or losses resulting from this nondistrict-sponsored transportation. If transportation is arranged with another student, that student is not an agent of or driving on behalf of the District.

CLASS CHANGES
Students are responsible for each course he/she enrolls in during registration. Official class withdrawals are made the first week through the end of the third week of classes for a regular semester and will not appear on the student’s record, (deadlines are published for fast-track courses or summer session). (Policy No. 5070)

ADDING CLASS(ES) AFTER THE SEMESTER OR SESSION BEGINS
Students may add a class only during the official add/drop period by attending class and obtaining an add code from the instructor. For online courses, students must email the instructor to obtain an add code. Students may register with the add code online on WebAdvisor, or by submitting the add code in person at Admissions on the Chula Vista campus or at the Higher Education Center at National City, Otay Mesa, or San Ysidro during the add/drop period. Students must present a valid Student Identification Card.

Note: A class enrollment is official when the add code is processed and fees are paid. A request to add a course may be accepted but later denied if found to be a repeated course or prerequisites have not been met. In addition, an instructor adding a student’s name to the class roster does not enroll the student.

DROPPING CLASSES
Dropping is ending enrollment in a class prior to the 20% point of class meetings. A drop is not recorded on the student’s academic record.

Students are responsible to officially drop (withdraw from) a course they no longer wish to attend. Students may drop classes online on WebAdvisor or by filing an Add/Drop Slip in Admissions on the Chula Vista campus or the Higher Education Centers at National City, Otay Mesa, or San Ysidro. Students who do not drop (withdraw from) a course in a timely manner may incur a financial obligation in addition to a substandard grade.

Students must drop (withdraw from) a course prior to the end of the second week of the semester to be eligible for a refund. Students must drop (withdraw from) classes prior to the end of the third week of the semester to ensure there will be no record of their enrollment and no “W” withdrawal grade on their transcript (Deadline established for short session classes or a summer session).

DROPPING STUDENTS
While primary responsibility for class attendance and maintaining an accurate registration record rests with the students, the instructor is charged with the responsibility for maintaining accurate and proper accountability records for state apportionment.

- Instructors are required by Title 5 to clear their rosters of all inactive students no later than the last business day prior to the Census Date for the semester or session. “Inactive students” include:
  - students identified as no-shows
  - students who are no longer, participating in the courses,
  - students who have officially withdrawn
- Instructors must drop any student who fails to notify their instructor of their absence or who fails to attend the first class meeting if the class is at maximum enrollment and other students are waiting to enroll.
- Students will be dropped from class for lack of a prerequisite.
- After the add/drop period of the term, instructors my drop a student
from a class if the student’s total hours of absences exceed twice the number of hours the class meets per week. Attendance requirements may vary in programs where attendance regulations are established by an outside regulatory agency. When this occurs, students will be notified in advance of the attendance requirements of the program.

Please see District Procedure No. 5075

Note: For short-term classes please check the instructor's syllabi for dropping requirements.

WITHDRAWING FROM CLASSES

Withdrawing is ending enrollment in a class between about the 20% point and about the 75% point of class meetings. A withdrawal is recorded as a "W" and is a permanent symbol on the student’s academic record. It is included in progress probation and disqualification determination.

Students are responsible to officially withdraw from a course he/she no longer wishes to attend. Students may drop classes online on WebAdvisor or by filing an Add/Drop Slip in Admissions on the Chula Vista campus, or the Higher Education Centers at National City, Otay Mesa, or San Ysidro. Students who do not withdraw from a course in a timely manner may incur a financial obligation in addition to a substandard grade.

Students must withdraw from a course prior to the end of the second week of the semester to be eligible for a refund. Students must withdraw from classes prior to the end of the third week of the semester to ensure there will be no record of their enrollment and no "W" withdrawal grade on their transcript.

Students who withdraw from a course from the fourth week through the twelfth week of the regular semester (deadline established for short session classes or a summer session) will receive a "W" grade. After the withdrawal deadline, students must be assigned a grade (A, B, C, D, F, P, NP, or I).

COURSE REPETITION AND COURSE WITHDRAWAL

The Southwestern Community College District Governing Board, in compliance with Title 5 regulations permits the following:

Course Repetition Due to Substandard Grades and/or Withdrawals

If a student receives any combination of three (3) substandard academic grades (D, F, or NP) and/or "W" withdrawal symbols, the student will not be allowed to have a fourth attempt in the same course at Southwestern College. If the student can demonstrate extenuating circumstances requiring one additional repetition, the student may petition and attach the supporting documentation. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student.

When course repetition and/or course withdrawal occurs, the permanent academic record shall be annotated in such a manner that all student work is transcripted and remains legible, ensuring a true and complete academic history.

Course Repetition of Previously Passed Courses

Students may petition for course repetition in the following areas which the course(s) has already been successfully passed:

I. Significant Lapse of Time
II. Variable Units – Open Entry/Open Exit
III. Occupational Work Experience
IV. Special classes for students with disabilities
V. Legally Mandated Training
VI. Significant Change in Industry

The Governing Board or its designee, in collaboration with the Academic Senate, shall establish procedures regarding course repetition/course withdrawal.

COURSE REPETITION AND COURSE WITHDRAWAL

Southwestern Community College District will make provisions for a student to repeat a course with a substandard grade and/or withdrawal under the following circumstances:

I. Course Repetition due to substandard grades and/or withdrawals

1. If a student receives any combination of three (3) substandard academic grades (D, F, or NP) or "W" withdrawal symbols, the student will not be allowed to have fourth attempt in the same course at Southwestern College. If the student can demonstrate extenuating circumstances requiring one additional repetition, the student may petition and attach the supporting documentation. See Section IX, "Petition Process," for more information.

2. When a student attempts to enroll for the second time in a course in which he/she has achieved a substandard academic grade and/or "W" withdrawal, the student will be notified electronically of the course repetition and withdrawal policy. The student will have to acknowledge receipt and understanding of the policy and will be required to complete an online tutorial. The tutorial will detail the academic options and referrals to appropriate resources such as Counseling, Academic Success Center/Tutorials, and/or department faculty.

Once a student achieves substandard academic grade and/or "W" withdrawal in the same course for a third time, a fourth repetition will not be allowed. Exceptions to this procedure may be approved only through a petition process. See Section IX, "Petition Process," for more information.

3. If a student passes a course on the second or any subsequent try, all previous substandard grades for that class shall be excluded from calculating student GPA. However, all grades shall be recorded on the student’s transcript ensuring that student records are accurate and complete and grading procedures are transparent.

4. The Southwestern Community College District may not claim apportionment for a student who re-enrolls in a particular course in which the student has already earned any combination of three (3) substandard grades and/or Withdrawals “W.” The College District may claim apportionment for the fourth attempt, if the petition for extenuating circumstance is approved. See Section IX, “Petition Process,” for more information.

In addition, students may petition for course repetition in the following areas which the course(s) has already been successfully passed.
II. Course Repetition – Significant Lapse of Time

1. Students are permitted to repeat courses in which a “C” or better grade was earned where there was a significant lapse in time since the grade was obtained and
   • The College District has defined a significant lapse of time as no less than three (3) years and has established a recency prerequisite for a course or program; or
   • An institution of higher education to which the student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course. Students may petition to repeat where the significant lapse of time is less than 36 months, if the student can provide documents where the repetition is necessary for the student to transfer to the institution of higher education.

2. When a student needs to repeat a course due to a significant lapse of time as defined in these procedures, the student must submit a petition. See Section IX “Petition Process” for more information.

3. When a course is repeated due to a significant lapse of time as defined in II (1), the College District will disregard the previous grade and credit when computing a student's grade point average.

III. Course Repetition – Variable Units – Open entry/Open exit

1. Students may be permitted to enroll in variable unit open-entry/open-exit courses as many times as necessary to enable them to complete the entire curriculum of the course once.

2. Students may not repeat variable unit open-entry/open exit courses unless:
   • The course is required for legally mandated training; or
   • The course is a special class for students with disabilities which needs to be repeated; or
   • The student wishes to repeat the course to alleviate substandard work.

3. Whenever a student enrolls in a physical educational activity course offered for open-entry/ open exit, the enrollment will count as a repetition of the course.

IV. Occupational Work Experience

A student may repeat an occupational work experience course up to sixteen (16) units total and limited to eight (8) units of occupational work experience per semester. Each repetition is recorded and is included in the purpose of the calculation of student's grade point average.

V. Special Classes for Students with Disabilities

Students with verified disabilities who are enrolled in non-degree Personal Development courses (special classes pursuant to Title 5) within Disability Support Services may repeat courses any number of times based on an individualized determination that such repetition is required as a disability related accommodation for that particular student.

Student may petition to repeat a special class when:
   • Continuing success of the student in other general and/or special classes is dependent on additional repetitions of a specific special class
   • Additional repetitions of a specific special class are essential to completing a student’s preparation for enrollment into other regular or special classes
   • The student has a student educational contract which involves a goal other than completion of the special class in question and repetition of the course will further achievement of that goal.

VI. Legally mandated training

A student may repeat a course with no limit to meet legally-mandated training requirements as a condition of continued paid or volunteer employment. The student must petition and provide documentation that course repetition is legally mandated. Courses may be repeated, regardless of whether or not substandard academic work was previously recorded. Each grade received shall be included for purposes of calculating the student’s grade point average.

VII. Significant Change in Industry

Student may repeat a course as a result of a significant change in industry or licensure standards such that repetition of the course is necessary for employment or licensure. Student must petition and provide documents that there has been a significant change in industry or licensure standards necessitating course repetition.

VIII. Course Withdrawal

1. In the event of extenuating circumstances which occur after the end of the fourteenth week or 75 percent of a term, the College District may, in consultation with appropriate faculty, allow a withdrawal “W” after the deadline. It shall be recorded as a “W.” The withdrawal “W” will still count towards the maximum number of withdrawals.

   Note: For the purposes of this section, “appropriate faculty” means the instructor of the course section or in the event the instructor cannot be contacted, the department chair or cognizant dean.

2. Students will not receive a “W” for a withdrawal that is determined to be due to discriminatory treatment or retaliation for alleging discriminatory treatment. Students may petition to re-enroll in the same course if the reason for one or more of the withdrawals is determined to be due to discriminatory treatment or retaliation for alleging discriminatory treatment. The course of action for determining discriminatory treatment is outlined in the Standards of Student Conduct procedures.

3. Military Withdrawal. “MW” occurs when a student who is a member of an active or reserve United States military service receives orders compelling the student to withdraw from the courses. The withdrawal symbol assigned will be a “MW.” Military withdrawals shall not be counted in progress probation, dismissal calculations or towards the number of permissible withdrawals.

4. When course repetition or withdrawal occurs, all grades shall be recorded on the student’s transcript ensuring that student records are accurate and complete and grading procedures are transparent.

5. Courses approved for Academic Renewal will still apply to the student’s academic record for the

The College District may claim state apportionment for one additional enrollment if all other requirements are met and only in the following circumstances:

1. Attendance of a student for an enrollment in a credit course resulting in that student’s repetition of the credit course because there has been a significant lapse of time no less than 36 months since the student previously successfully completed the course, unless an exception to the 36 month requirements applies.

STEP 6: PLANNING YOUR EDUCATION AND EXPLORING CAREER PATHWAYS

THE COUNSELING CENTER
The Counseling Center schedules appointments on a weekly and daily basis. After you have registered for classes, stop by the Counseling Center at all locations to schedule an individual appointment with a college counselor starting the third week of the semester. Before that, counselors are available for students through orientation sessions, walk-in services, and online at Counseling and Guidance link, E-Counselor.

Before you are scheduled for a counseling appointment, you will be asked to complete the Student Services Needs Assessment process. Here you will be asked a series of questions that will help Southwestern College provide you with targeted assistance. Take care to answer all of the questions on the Self-Assessment. Within a few days of filing this form, you will receive an email letter from a college counselor directing you to your next steps for success. You may be asked to attend a workshop to learn more about careers and educational goals.

Once you have completed your steps for success, you will be scheduled for an individual counseling appointment.

COUNSELING APPOINTMENTS
During your individual appointment, counselors will assist you in developing a Student Educational Plan, exploring career options, and discussing personal issues and challenges you may encounter. All students are recommended to meet with counselors at least once per academic year to keep informed of program and general education changes, and to ensure timely completion of goals. Be sure to come to your appointment well-prepared:

- Have a list of questions ready for your counselor
- Arrive on time for your appointment
- Have paper and pencil ready to take notes during your appointment.

This is a very important step in planning your future college and career success.

Additional Student Services are located at most Center locations and at the Cesar E. Chavez Student Services Building at the Chula Vista campus.

ONLINE STUDENT EDUCATIONAL PLANNING
Southwestern College is proud to offer an online opportunity for student planning. Students can access the new Self-Service Student Planning Module online. Visit the College website, Counseling and Guidance link for more information.

You can plan your college education online, electronically send your educational plan to a college counselor for review, and receive an approval or a recommendation from a college counselor online. The module allows you to access suggested sample plans, select courses based on your Southwestern College Assessment results, and link to WebAdvisor Registration once you have planned your semester successfully.

Students can also save their plans and access later as goals change. Southwestern College recommends you revisit this site each semester to stay updated on any program requirement changes, and to continually plan your education with the assistance of a college counselor.

CHOOSING A MAJOR OR COURSE OF STUDY
Many students enter college feeling doubts about choosing a career pathway. Most students will select a major based on fields they may have been exposed to, i.e. teaching professions, nursing and health fields, etc. These are great fields and many, many more exist.

Visit the Career Center to learn more about your options. The Career Center will provide you with an array of assessment tools you can utilize to help you determine your interests, personality traits, and career pathways that may be best suited for you. Once you have completed Career Assessments, you can be scheduled to meet with a Career Counselor to discuss options and develop a plan for success.

The Career Center also provides many workshops designed to assist you in selecting your career pathway.

- ACH, in which a direct electronic deposit is made to a students’ existing bank account;
- Paper check, which is mailed directly to the student; or

SCHOLARSHIPS
A scholarship is aid that does not have to be repaid. Satisfactory Academic Progress (SAP) Standards

Federal and state financial aid regulations require Southwestern College to establish, define, and apply Satisfactory Academic Progress standards for all financial aid applicants. The regulations require that SAP be evaluated every academic year, and measure both the qualitative standard (cumulative GPA) and quantitative standards (completion rate, Pace) and (Maximum Time Frame). Students enrolled in a program of less than two years (Certificate of Achievement) are reviewed for SAP after the end of every semester. All periods of enrollment at Southwestern College and applicable transferable units from other colleges will be included as part of the SAP review.

- **Grade Point Average (GPA) Requirement (Qualitative)**
  Students are required to maintain a minimum cumulative GPA of 2.0 or better.

- **Unit Completion Rate – Pace of Progress (Quantitative)**
  Students are required to complete a minimum of 67% of the units in which they have enrolled. The cumulative units completed will be divided by the cumulative units attempted to calculate the pace of progress. All units are considered in this calculation. Units for which a grade of W, I, NP and/or F was received are considered as units attempted but not completed.

- **Maximum Time Frame (Quantitative)**
  Students must complete their academic program within a maximum time frame of 150% of the published program’s required units. For example, associate in arts, associate in science and transfer degrees generally require 60 units to complete, so 150% of these programs would be 90 units. However, not all academic programs are 60 units in length, such as Certificate of Achievement and specialized technical programs so the maximum time limit is calculated specifically for each individual academic program.

  - Repeated courses will count toward the 150% maximum units allowed.
  - The maximum time frame will not be extended for students who change academic programs or have prior degrees or certificates.
  - Students who have a Bachelor’s Degree or higher from a domestic or foreign school have exceeded the maximum time frame and will not be eligible for additional financial aid.
  - A maximum of 30 units of Basic Skills/Remedial courses and/or 30 units of ESL courses will be excluded from the maximum unit limit.

ACADEMIC REGULATIONS

COURSE CLASSIFICATION

COURSES AND CREDIT
A course is a planned study in a distinct subject area of a department. Each course has educational objectives which must be achieved in order to receive a final passing grade and to be awarded specified units. Each course has methods of evaluation to determine if the student has met the educational objectives, including written and oral assignments, problem-solving exercises, class and/or lab activities, quizzes, and examinations. Each course employs teaching techniques which can include lecture, individual student assistance, demonstrations, and discussions. All credit courses require a minimum of three hours of work per unit including class time per week.

BASIC CREDIT INFORMATION
The California Education Code defines one credit hour of community college work as approximately three hours of recitation, study, or laboratory work per week throughout a term. Where a term is more or less than 16 weeks, more or less than one credit hour shall be allowed in the same ratio that the length of the term is to 16 weeks. Inasmuch as the semesters at Southwestern College are approximately 17.5 weeks in length, and the periods are approximately one hour in duration, the College has provided that one unit of credit shall be given for each lecture hour that the class meets per week per semester.

CARNegie UNIT STANDard
Title 5, Section 5502.5. A minimum of 48 hours on the semester system of lecture, study, lab work is required for one unit of credit. The following examples apply to the semester units:

- One hour of lecture (plus two hours of homework) per week equals one unit.
- Three hours of laboratory per week equals one unit.

COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)
The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example SOC 101, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID SOC 101 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However,
students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

CAREER AND TECHNICAL COURSES
Career/technical courses are designed to provide education and experiences that give the student competency in the specific content of the course. The courses have been developed with the help of advisory committees representing business and industries reflective of the course content and program of study. In some cases career/technical courses may be transferable to other colleges and universities. The student should consult a counselor regarding the status of all career/technical course transfers.

A degree or certificate is awarded to students who have completed a selected sequence of courses leading toward a career/technical objective. Courses can be either required or elective with the units applied to fulfillment of the major.

DEVELOPMENTAL EDUCATION, ACADEMIC SKILLS COURSES
Special courses in English, mathematics, reading, and study skills are designed to assist students in developing the basic skills needed to successfully pursue educational or vocational goals. The student should consult a counselor about assessment and appropriate placement.

EXPERIMENTAL COURSES
An experimental course is offered with the intent to eventually make it part of the regular curriculum. Each experimental course is designated with the number 295 and may be followed by a letter.

INDEPENDENT STUDY COURSES
Independent study is neither a substitute for any course listed in the catalog nor a substitute for other requirements in the curriculum. It is individual study or research in an area of a department of particular interest to the student and not included in regular course offerings of the College (Policy No. 6019).

Independent Study courses are listed in the Course Description section of the catalog with the designation number 299. A petition to take an independent study course must be approved by both the instructor and the school dean, and it must be filed in Admissions during the first three weeks of the semester or the first week of summer session. See page 45 for additional eligibility requirements information.

ONLINE COURSES
Online learning is defined as any teaching-learning environment where the student and the teacher are not located in the same place. Technology is used to bridge the learning space. Online learning provides an opportunity for greater diversity in the means of instruction and in the delivery of educational and training services. It also lends itself to addressing a wide variety of learning styles.

To determine if online learning is right for you, review the following statements:
• I am very comfortable with using my computer for email, Internet, and word processing.
• I have access to a computer most of the time.
• I have Internet access at a fast speed.
• I have very strong time management and organization skills.
• I have very strong study skills.

If you agree with all five statements, online courses may be for you!

Online Courses:
• are academically equivalent to traditional on-campus courses.
• allow students to fit work and school into their busy schedules.
• offer the flexibility to choose where, when, and how often students complete lessons at home.
• save time and expense of traveling to campus.

TYPES OF ONLINE COURSES

HYBRID
These courses feature a combination of online and face-to-face (F2F) format utilizing a course management system (CMS), such as Blackboard (Bb) to post assignments, documents and discussion board activities. Hybrid classes meet on campus at least half of their class meetings, with remaining class work conducted via the internet. There may be F2F orientation meetings and periodic F2F testing. To access the class, regular access to a computer with a reliable and fast internet connection, and a Web browser software such as Mozilla Firefox or Microsoft Explorer is required. You will need access to an Internet service provider.

ONLINE
These courses are taught 100% online either synchronously or asynchronously through use of technology on a CMS, such as Blackboard. All assignments are given and completed through email, postings, or voicemail. Exams and orientation may be given F2F in a classroom or at an approved testing center with supervision; however, 100% of instruction is online. The instructor provides student assistance and maintains appropriate student contact through F2F meetings, email, Bb postings, or voicemail, as necessary. The same level of technology as used with Hybrid classes is required.

Note: For hybrid and entirely online courses, students must have access to a computer with reliable Internet connection and a valid email address.

WEB-ENHANCED
These courses have traditional, face-to-face meetings; however, at the discretion of the instructor, some or all of the course content may be available on the Internet.

Online Course Orientations
Students may be asked by their instructors to participate in an orientation. The following options include but are not limited to what students may be asked to do:

Option 1:
The following link will allow students to complete an interactive online orientation: http://www.swccd.edu/~olss/Media/Students%20Starter%20PacketC.camrec/Student%20Starter%20PacketC.camrec.html
TRANSFER COURSES

Southwestern is a regionally-accredited college with courses appropriately designated for transfer and/or baccalaureate credit. Southwestern College courses are generally accepted throughout the nation by other colleges and universities. However, acceptance of a Southwestern College course is ultimately determined by the receiving institution. In addition, there may be a limit to the number of units a college or university may allow from a community college. Career/technical and developmental courses, in most cases, do not transfer to other colleges or universities.

The following are examples by which a community college course may transfer:

- As meeting a lower-division major requirement at the intended transfer college or university. To be accepted for this purpose, the course usually corresponds exactly to the comparable course at the transfer institution in content, prerequisite, and unit.
- For meeting general education requirements, the student should review the general education patterns for the college or university to which he/she intends to transfer. A list of the transferable general education courses for the California State University (CSU/ICETC) and the University of California (IGETC) systems are provided beginning on page 66. All students should consult with a counselor for assistance in selecting the appropriate general education course pattern.
- As elective credit. Elective credit may be applied to the total unit requirement for the bachelor’s or higher degree. The receiving institution reserves the right to determine the extent to which transfer credit satisfies the specific and elective requirements of degree programs.

Many online courses are transferable to four-year colleges and universities. However, students are advised to consult a counselor regarding some transfer institutions policies and restrictions for online coursework.

ALTERNATIVE COURSE CREDIT

AUDITING/NOT FOR CREDIT

The Governing Board of the Southwestern Community College District, under the provisions of Chapter 5, Section 76370.3 of the Education Code, hereby authorizes individuals to audit regularly scheduled credit courses, subject to the following conditions and stipulations:

- A person must meet college eligibility requirements for admission to audit courses.
- A ($15) fee per unit per semester shall be charged for each class audited. Students enrolled in classes to receive credit for 10 or more units shall not be charged a fee to audit three or fewer semester units per semester. Additionally, the mandatory health fee and course fees must be paid.
- No student auditing a course shall be permitted to change his or her enrollment in that course to receive credit for the course.
- Priority in class enrollment shall be given to students desiring to take the course for credit.
- Audit registration will be limited to the last day of the scheduled add/drop period and will require permission from the instructor of record, including his or her signature authorizing audit registration in the class.
- A maximum of two courses per semester may be audited in any regular instruction term (fall, spring, or summer).
- All college policies and procedures apply to audit students.

Courses not accepted to meet specific subject requirements are usually the result of one of the following occurrences:

- The units have exceeded the maximum amount of community college units allowed by the transfer institution.
- The corresponding course at the transfer institution is designated as upper-division.
- The course is a prerequisite for a course in the student’s major, which is normally completed in high school.

Many online courses are transferable to four-year colleges and universities. However, students are advised to consult a counselor regarding some transfer institutions policies and restrictions for online coursework.

COOPERATIVE WORK EXPERIENCE EDUCATION (CWEE)

Cooperative Work Experience Education (CWEE) allows students with declared majors to earn up to 16 units of college credit by engaging in an internship program (either paid or unpaid) related to their major. CWEE uses the entire community as the laboratory, allowing students to apply theoretical information learned in the classroom to a practical environment. It enables students to compare their career goals and expectations with specific career requirements and to learn from professional and technical experts working in their career field (Policy No. 5160).

COOPERATIVE WORK EXPERIENCE EDUCATION (CWEE)

Title 5 Regulations establish the basis of eligibility for work experience. To be eligible for CWEE, you must:

- Have concurrent enrollment in one other major-related course and have successfully completed one to two major-related courses to qualify for a CWEE class for fall and spring semesters, or summer session.
- Have a declared major.
- Work in either a paid or unpaid position related to your major.
- Develop job performance objectives each semester of participation.
- Enroll in the class during the regular college registration period.

Section 55254 of the Title 5 Regulations further requires that you meet the following criteria for CWEE:

- Your planned program of CWEE must, in the opinion of your departmental instructor/agency representative, include new or expanded responsibilities or learning opportunities beyond those experienced during previous employment/internship.
- Your CWEE program must have on-the-job learning experiences that contribute to your occupational or education goals.
• Your CWEE experience must have the approval of your instructor/agency representative.
• If you are self-employed, you must identify a person who is approved by your instructor/CWEE coordinator to serve as the designated employer representative. This person must agree in writing to accept responsibility for assisting you to identify new or expanded on-the-job learning objectives, for assisting in the evaluation of these objectives, and for validating the hours you worked.

CWE requires a minimum of 60 hours of work experience (75 hours if paid) per each unit earned. Students can enroll in up to four (4) units each semester for a total of 16 elective units overall. For further information or enrollment procedures, contact the CWE office located upstairs in the Cesar E. Chavez Student Services Building, office S205H, or phone 619-482-6537.

Auditing Cooperative Work Experience Education (CWE)
Students may audit the CWE courses after completing the 16-unit level. Students interested in further information about Work Experience should contact the CWE office located upstairs in the Cesar E. Chavez Student Services Building, office S205H, or phone 619-482-6537.

COURSE EQUIVALENCY
Southwestern College grants credit for college units earned at any nationally accredited postsecondary institution (e.g., Western Association of Schools and Colleges) other than coursework identified by such institutions as non-degree level coursework. Southwestern College will honor articulation agreements made with other postsecondary institutions (Policy No. 6027).

Coursework deemed to be equivalent in scope and content to coursework taught at Southwestern College is determined by the Evaluations Office in consultation with the appropriate dean and/or faculty. Credits transferred from institutions on the quarter system will be converted to semester credits by multiplying quarter-unit totals by two-thirds. All credit summaries will be completed upon a student’s petitioning for graduation or through consultation with a counselor. In the areas of mathematics and foreign language, credit will not be granted for a lower-level course completed after the higher-level course.

Students who wish to receive credit toward degrees at Southwestern College for coursework taken at an accredited foreign institution must have their foreign transcripts evaluated by a foreign transcript evaluation service, preferably the International Education Research Foundation (IERF). The following items should be noted:
• Courses cannot be used to satisfy the general education breadth or IGETC requirements.
• Credit cannot be awarded for English or speech courses.

CREDIT BY EXAMINATION
A student may obtain credit by examination for graded courses at Southwestern College. Credit by examination for courses identified in the high school district articulation agreements is included under this policy.

The school approving the credit by examination shall determine the type of examination to evaluate comprehension or knowledge and the condition for its administration.

Credit by examination is restricted and excludes physical education activity courses. Credit by examination will be provided for all courses that are not exempt. A list of courses exempt from credit by examination is found in the Instructional Support Services Office, the appropriate school office, and Admissions and Records. Petitions are available in Admissions at the Chula Vista Campus, the Higher Education Centers at National City, Otay Mesa, or San Ysidro, or online at www.swccd.edu (click on Admissions then click on printable forms) (Policy No. 6077).

Eligibility Requirements—Credit by Examination
A student must satisfy all of the following:
• Be currently enrolled in at least one other graded course.
• Be in good academic standing (minimum 2.0 GPA) and maintain a non-probationary status at Southwestern College.
• Not be currently enrolled in or have received any previous college credit for the course being petitioned. Credit will not be awarded if the course is a prerequisite for another course already completed.
• Not have challenged more than 15 units by examination at Southwestern College, or more than two courses a semester, or more than one course during the summer.

The student will receive a grade of Pass (P) or No Pass (NP) (formerly Credit (CR) or No Credit (NC)) for the course at the end of the semester. The transcript will be annotated to indicate that the course was by examination.

Credits obtained by examination are not accepted for meeting the unit load enrollment requirement for VA, Social Security benefits, financial aid, cooperative education, or for satisfying graduation residency requirements.

A student must complete all of the following steps:
• Complete and file a petition with Admissions prior to the end of the sixth week of the semester or the second week of the summer session.
• Return to Admissions in two days to pick up the petition.
• By the eighth week of the semester or the third week of the summer session, obtain approval signature from the evaluating instructor and cognizant department chair/dean responsible for the course being challenged. Arrangements to take the exam will be made at that time.
• Pay appropriate fees in the Cashier’s Office.

Note: Students transferring to colleges and universities should check those institutions’ policies on acceptance of courses taken as credit by exam.

Additional credit may be granted according to the recommendations of the American Council on Education (ACE) Guide to Military Credit for students pursuing certain majors.
   • Two of these units will be applied toward the Exercise Science graduation requirement.
   • The remaining two units will be applied toward elective credit.
   • The graduation requirement in health education is met by completion of Basic or Recruit Training.
   • Air Force veterans will be awarded credit based on the transcripts of the Community College of the Air Force (CCAF).

**CSU Advanced Placement Policies**

The AP exams listed above may be incorporated into certification of CSU General Education Breadth Requirements. All CSU campuses will accept the minimum units shown if the examination is included in full or subject area certification; individual CSU campuses may choose to accept more than those specified towards completion of general education breadth requirements. The CSU Minimum Semester Admission unit column reflects what each campus system wide will minimally accept toward CSU Admission.

**These exams only partially fulfill the CSU U.S. History, Constitution and American Ideals graduation requirement but can be used toward the requirement.**

**UC Advanced Placement Policies**

Each AP exam may be applied to one IGETC area, as satisfying one course requirement, with the exception of Language Other Than English. The final column reflects what the University of California will award per AP exam for admission to any UC campus.

Please consult with a counselor for questions regarding exams.

GRADING SYSTEM, ACADEMIC PROGRESS, PROBATION, AND DISQUALIFICATION

GRADING SYSTEM

The grade assigned to each student in a course directly reflects the student's achievement of a specific set of objectives. A student entering a course assumes the responsibility to master the objectives of the course to the best of his/her ability. The final grade is a reflection of how well the student has mastered the course objectives.

Grades are assigned in each course, recorded on the student’s permanent record, and affect the student’s future; therefore, it is important that careful consideration be given to the grades assigned by the instructors (Policy No. 6023).

The two types of grading systems used at Southwestern College are the grading scale and the Pass/No Pass evaluation. The grading scale consists of the letters A, B, C, D, and F. In specific courses indicated in the college catalog, students may elect to be graded on a Pass/No Pass basis. A student transferring to a four-year institution should check its policy on acceptance of Pass/No Pass grades.

GRADE POINT AVERAGE

The overall level of academic success is measured in terms of a student's grade point average (GPA). To determine the student's GPA, the total number of grade points accumulated is divided by the total number of units attempted.

The grade point average is used in determining eligibility for academic achievement such as the President's and Vice President's lists, academic probation and disqualification, eligibility for an associate degree, certificate of completion, graduation with honors, and some scholarships. Students are encouraged to consistently monitor their grade point standing.

GRADE ASSIGNMENT, GRADE CHANGE, AND DISPUTES

Final grades will be available at the end of each Fall and Spring semester and summer session. The instructor of the course shall determine the grade given to each student in the absence of mistake, fraud, incompetence, or bad faith (Policy No. 5530).

Only the instructor who teaches a class has the authority to issue grades to students enrolled in that class or to change grades that have already been issued. A student who wishes to request a grade change may take the following steps:

- First, contact the instructor;
- If there were mistakes in reporting the grade, the instructor will institute a record change through the Admissions Office;
- If the request for a grade change is denied by the instructor, the student may ask for a review of the grade by the appropriate school dean.

Any change to a grade after it has been submitted to the Admissions Office must be done within one year following the end of the term in which the grade was assigned (see “Student Grade Dispute Procedures,” page 92).

ACADEMIC RECORD SYMBOLS

Grades are earned for each course in which a student is officially enrolled and are recorded on the student's permanent record at the end of each Fall and Spring semester or summer session (Policy No. 6025).

Academic achievement is reported in terms of grade point average. Grades and grade point averages should be interpreted as follows:

PASS/NO PASS GRADES

Pass/No Pass grades are used in two ways:

- Some courses are offered on a Pass/No Pass grading basis only.
- Other courses have a Pass/No Pass grading option available.

Courses in which only Pass/No Pass grades are available are identified in this catalog by the statement: Pass/No Pass only.

In courses where Pass/No Pass grades are used, credit is assigned for student achievement at the “C” grade level or above.

Students may take courses during a semester, fast track, or summer session on a Pass/No Pass basis whenever that option is offered. Students who desire to be evaluated on this basis must request this option during the first 30 percent (end of the fourth week) of the semester, or the first week of a short session or summer session. Pass/No Pass petitions are available in Admissions at the Chula Vista campus, Higher Education Centers at National City, Otay Mesa, or San Ysidro, or online at www.swccd.edu (click on Admissions then on Printable Forms).

An evaluation on a Pass/No Pass basis may not be changed later to a letter grade. Pass/No Pass grades cannot be used for removal of an unsatisfactory grade (D or F).
All units earned on a Pass/No Pass basis in California institutions of higher education or equivalent out-of-state institutions shall be counted in satisfaction of college curriculum requirements. However, such courses shall be disregarded in determining a student’s grade point average for all purposes for which a grade point average is required. Units attempted for which “NP” is recorded shall be considered in probation and dismissal procedures.

**Note:** A student interested in transferring to a four-year institution should check the institution’s policy on acceptance of Pass/No Pass grades.

### INCOMPLETE GRADE (I)

The “I” (Incomplete) is used in some special circumstances to indicate that the student did not complete certain essential requirements due to unforeseeable circumstances or emergency with justifiable reasons over which the student had no control (generally of such nature that the student was unable to attend class to perform class assignments during the last two weeks of the semester or was unable to take the final examination). A student may not repeat a class to remove the “I” grade and the “I” grade cannot be changed to a “W” (withdrawal) grade. The “I” may be made up no later than one year following the end of the term in which it was assigned.

Instructors are required to complete an Incomplete Grade Report and indicate the student’s last date of attendance. Instructors must also state the requirements for removing the “I” and the criteria for determining a new final grade if the work is completed during the one year period. The Incomplete Grade Report forms are to be turned in to Admissions. If a written test is required, a copy of the test and scoring key must be submitted with the form.

A copy of the Incomplete Grade Report will be mailed to the student and a copy will be maintained in Admissions. It is the student’s responsibility to contact the instructor before the one year time limit to complete the course requirements for removal of the “I” grade. The final grade shall be given when the work stipulated has been completed and evaluated or when the time limit for completing the work has passed. Instructors must complete a Grade Change form in order to change the “I” grade to a letter grade and submit it to Admissions. If a Grade Change form is not submitted by the instructor to Admissions or if the work stipulated is not made up by the student, the “I” grade will revert to the default grade assigned.

Units for which the “I” symbol is received shall not be used in calculating grade point averages. A student may petition for a time extension by submitting a petition to the instructor of record. A petition may be granted if, in the judgment of the instructor, an extension was warranted because of extenuating circumstances of verified cases of accident, illness, or other circumstances beyond the control of the student.

### WITHDRAWAL GRADE (W)

Students should always officially withdraw from a class by processing a Withdrawal on WebAdvisor or in person at Admissions in Chula Vista, or the Higher Education Centers at National City, Otay Mesa or San Ysidro. No record of course enrollment will be posted for students withdrawing from courses during the first three weeks of the semester.

A withdrawal initiated either by student or instructor from the fourth week through the twelfth week of the semester will be recorded on the student’s permanent record as a “W” grade. Students who are officially enrolled beyond the twelfth week of the semester will receive an evaluative grade (A, B, C, D, F, P, NP, or I). For procedures go to page 24, Withdrawal from Classes.

Students enrolled in less-than-semester-length courses who withdraw during the first 20 percent of class will have no record of enrollment posted. Students, who withdraw after the first 20 percent of class, but before 75 percent of class, will receive a “W” notation. Students who maintain short course enrollment past the 75 percent point of the class will receive an evaluative grade (A, B, C, D, F, P, NP, or I).

### MILITARY WITHDRAWAL GRADE (MW)

Students should always officially withdraw from a class by processing a Withdrawal Form on WebAdvisor or in person at Admissions in Chula Vista, or the Higher Education Centers at National City, Otay Mesa, or San Ysidro. Military withdrawal occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. No record of course enrollment will be posted for students withdrawing from courses during the first three weeks of the semester.

A withdrawal initiated either by student or instructor from the fourth week through the eighteenth week of the semester will be recorded on the student’s permanent record as an “MW” grade. Military withdrawals shall not be counted in progress probation and dismissal calculations. Incompletes may be assigned during the weeks of the fourteen through eighteen, in lieu of military withdrawal with mutual content between student and instructor. This may include completing and early final exam or assignments.

### REPORT DELAYED GRADE (RD)

The report delayed “RD” is a temporary notation on the transcript in those circumstances when an instructor does not assign a grade. The “RD” is removed when the grade is reported.

### GRADES:

#### FINAL EXAMINATION

Final examinations are held in all subjects according to schedule. No examination exceeds two hours in length. No student will be excused from the final examination. Should circumstances develop requiring a special examination at a time other than that scheduled, special authorization must be secured from the instructor and School Dean. (Policy No. 7013).

#### GRADES: PRESIDENT’S AND VICE PRESIDENT’S LISTS

Each semester Southwestern College recognizes outstanding academic achievement of students who have completed at least 12 or more units with grades demonstrating an excellent scholastic record (Pass/No Pass courses are not included). The grade point average (GPA) required for academic recognition is defined as follows (Policy No. 6069):

- **President’s List:** 4.0 GPA
- **Vice President’s List:** 3.50 to 3.99 GPA
MAINTAINING GOOD ACADEMIC STANDING

SWC is governed by Title 5 of the Education Code that requires that you maintain Good Academic Standing. The SWC policy governing this requirement is Policy 4250.

Good Academic Standing includes:
1. Good academic progress requires you maintain a 2.0 grade point average. If you fall below this grade point average, you will be placed on academic probation (See below).
2. Good progress requires that you successfully complete more than half of all units you attempt each semester. If you earn more than half of your grades as "W", "I", or "NP", you will be placed on progress probation.

ACADEMIC PROGRESS, PROBATION, AND DISQUALIFICATION

The District’s Probation and Disqualification – Academic and Progress Policy No. 6035 sets the standards for implementation.

PROBATION
Probation is a system of monitoring student progress in order to:
1. Identify students who are experiencing difficulty in making satisfactory progress toward an appropriate educational objective; and,
2. Encourage those students to reassess their educational objectives and the means required to achieve it.

Following are the two types of probation:

ACADEMIC PROBATION
1. A student who has attempted twelve (12) units or more at Southwestern College shall be placed on Academic Probation when his/her cumulative grade point average (GPA) at Southwestern College falls below 2.0. All students placed on Academic Probation will be required to attend an Academic Success Seminar prior to registering for subsequent semesters. Contact the Counseling Center at the Chula Vista campus for more details at 619-482-6317.

PROGRESS PROBATION
2. A student who has attempted twelve (12) units or more at Southwestern College shall be placed on Progress Probation when his/her total units at Southwestern College include fifty percent (50%) or more of "W", "I", or "NP" grades. All students placed on Progress Probation will be required to attend an Academic Success Seminar prior to registering for subsequent semesters. Contact the Counseling Center at the Chula Vista campus for more details at 619-482-6317.

REMOVAL FROM ACADEMIC PROBATION
A student is removed from Academic Probation status when his/her total grade point average at Southwestern College is 2.0 or above.

REMOVAL FROM PROGRESS PROBATION
A student is removed from Progress Probation status when his/her semester units of "W", "I", or "NP" at Southwestern College are less than fifty percent (50%) of the total units attempted.

DISQUALIFICATION

ACADEMIC DISQUALIFICATION
A student on Academic Probation status is disqualified when his/her semester Grade Point Average falls below 2.0 for two consecutive semesters. A student whose semester Grade Point Average equals or exceeds 2.0 but whose overall grade point average remains below 2.0 shall remain on Academic Probation.

PROGRESS DISQUALIFICATION
A student on Progress Probation is disqualified when his/her semester units of "W", "I", or "NP" exceed fifty percent (50%) of the units attempted for two consecutive semesters. A student whose semester units completed equals or exceeds fifty percent (50%) of the units attempted but whose overall units show fifty percent (50%) or more of "W", "I", or "NP" shall remain on Progress Probation.

REINSTATEMENT AFTER DISQUALIFICATION
A student who is disqualified for the first time (academically or for progress) is eligible to return after one (1) semester. Students who are disqualified lose their continuing student status and must reapply to the College.

A student who is disqualified for the second time (academically or for progress) is eligible to return after sitting out two (2) semesters. Students who are disqualified lose their continuing student status and must reapply to the College.

PETITIONS FOR REINSTATEMENTS
A student who is disqualified may petition the Probation and Disqualification Committee requesting reconsideration and reinstatement. Petitions may be approved because of extenuating circumstances such as verified cases of accidents, illness, or other circumstances beyond the control of the student. Students who are reinstated remain on probationary status and are subject to disqualification if their GPA remains below 2.0 or their total units completed remain below fifty percent (50%).

Petitions are available in the Counseling Center at all locations and may be submitted prior to the beginning of the semester.

ACADEMIC RENEWAL: ELIMINATION OF SUBSTANDARD COURSE WORK
Given that past performance does not always reflect a student’s actual ability, the Southwestern Community College District
allows for previously recorded substandard academic performance (grades D, F, or NP) to be disregarded if it is not reflective of a student’s current demonstrated ability (Policy No. 4240).

Southwestern College will honor the academic renewal policy of other accredited institutions in disregarding or removing previous work from degree consideration. Academic renewal by the Southwestern Community College District does not guarantee that other institutions will approve such action. The determination will be made by the respective transfer institutions.

A student may request, under certain circumstances, to have the College disregard substandard coursework (below “C” grade) completed at Southwestern College in the computation of cumulative grade point average as follows: The circumstances for alleviation of substandard academic performance will be subject to all of the following:

- At least two years must have elapsed since the most recent coursework to be disregarded was completed;
- The student must have completed, at any accredited post-secondary institution, at least 24 units of subsequent coursework with a 2.5 (C+1) grade point average;
- The student must submit a student petition or request in writing and present official transcripts from accredited institutions as evidence that the requirements of academic renewal have been met.

Substandard coursework completed at Southwestern College may be eliminated from consideration in the computation of cumulative grade point average as follows:

- Any 9 units of substandard coursework may be eliminated or
- One complete semester (not to exceed 24 units) may be eliminated or
- Two complete semesters (not to exceed 24 units) may be eliminated.

For students with previously earned degrees, courses used to fulfill requirements of a degree are not eligible for academic renewal.

When academic renewal procedures permit previously recorded substandard coursework to be disregarded in the computation of a student’s grade point average, the student’s permanent academic record shall be annotated in such a manner that all coursework remains legible to ensure a complete academic history.

A student may be granted academic renewal only once at Southwestern College and academic renewal decisions are permanent and cannot be reversed.

Petitions to request academic renewal without course repetition are available in Admissions and Records at the Chula Vista campus, the Higher Education Centers at National City, Otay Mesa, or San Ysidro, or online at www.swccd.edu (click on Admissions then click on printable forms). Official transcripts of all academic work, from all accredited post-secondary institutions, must be on file in Admissions at the time of request for academic renewal.

Petitions will be reviewed by Southwestern College’s Petition Review Committee.

This petition has no bearing on the District’s Course Repetition/Withdrawal procedure 4225 (Title 5, Section 55044).

---

**DEGREES, CERTIFICATES AND CSU/UC CERTIFICATION**

**COURSE CERTIFICATE**
A course certificate verifying the satisfactory completion of a course will be issued upon request to any student who completes a course with a grade of “C” or better. A student who desires such a certificate should submit an application to the instructor during the last four weeks of the semester.

**CERTIFICATE OF COMPLETION**
Certificates of Completion are approved non-credit certificates. In accordance with Title 5, section 55151, Southwestern College may offer a sequence of noncredit courses that culminate in a Certificate of Completion — leading to improved employability or job opportunities.

**CERTIFICATE OF PROFICIENCY**
Certificates of Proficiency are designed for the student who needs to be prepared to enter an entry-level job. Approved Certificate of Proficiency programs have less than 18 units. Certificates of Proficiency are not awarded automatically. It is the responsibility of the student to ensure satisfactory completion of the certificate requirements. When all requirements are completed or in-progress, students should submit a online petition at www.swccd.edu/evaluations. These certificates will not be listed on a student’s transcript. Certificates of Proficiency are not awarded at the Southwestern College commencement ceremony.

**CERTIFICATE OF ACHIEVEMENT**
Certificates of Achievement require 18 or more units in an approved program. Certificates of Achievement are designed to convey evidence that defined levels of proficiency have been attained in career or technical areas. Certificates of Achievement are available in most of the majors for which
the College offers the associate degree. Students select a certificate of achievement area with specified course requirements from the Program of Study section of the catalog.

To qualify for a Certificate of Achievement, a student must do all of the following:

- Complete all courses listed for a particular certificate;
- Achieve a grade of “C” or better in all courses required for that specific certificate;
- File an online petition for Certificate of Achievement at www.swccd.edu/evaluations
- Satisfactorily complete at least one required course at Southwestern College during the semester in which the certificate is earned.

ASSOCIATE DEGREE PROGRAMS

Students are encouraged to plan their educational objectives in such a manner as to qualify for graduation with an associate degree. A candidate does not automatically receive the degree upon completion of graduation requirements but must submit a Petition for Graduation, which must be filed by the deadline dates (see “Graduation and Certification Requirements” page 59). A minimum of 60 total units, including general education courses, degree program course requirements and elective courses, is required to earn an associate degree. Students are strongly advised to see their counselor for assistance in setting up their educational plan (Policy No. 6037).

ASSOCIATE IN ARTS DEGREE

A degree program consisting of a minimum of 18 units in the major typically from the fields of humanities, fine and communication arts, social and behavioral sciences, and related fields. Some programs may mirror the lower-division requirements for a bachelor’s degree in the same department. Others may lead to entry-level skills in the chosen field.

ASSOCIATE IN SCIENCE DEGREE

A degree program consisting of a minimum of 18 units in the major typically from the fields of engineering, physical and biological sciences, and other occupational curricula. Some programs may mirror the lower-division requirements for a bachelor’s degree in the same department. Others may lead to entry-level skills in the chosen field.

ASSOCIATE DEGREES FOR TRANSFER (ADT)

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of Southwestern College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to www.sb1440.org. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

ASSOCIATE DEGREE REQUIREMENTS

GENERAL EDUCATION REQUIREMENTS

Southwestern College is committed to providing general education encompassing communication skills, computational skills, natural sciences, arts, humanities, and social and behavioral sciences, which are basic to effective living and full participation in a democratic society (Policy No. 6039).

The College believes that a comprehensive education introduces the student to the fundamentals of human experience and knowledge in the context of a global society. Such experience provides a common base of learning for all students and seeks to meet the needs of a student body diverse in social, cultural, and educational backgrounds. It also serves to develop creativity and critical thinking skills essential to the attainment of personal goals and to the ability of the individual to make a positive contribution to society.

The purpose of general education is to enhance learning and to add breadth to the college experience in order to compliment the specialization in the major. The general education curriculum thus provides coherence to undergraduate education, affording the student the opportunity to develop an integrated overview of the diverse fields of human knowledge.

A student may meet the general education requirements for an associate degree by completing one of the following transfer general education patterns:

- California State University (CSU)
  - General Education Breadth Requirements
  - Intersegmental General Education Transfer Curriculum (IGETC)

MAJOR REQUIREMENTS

A student may be enrolled for one or more semesters without declaring a specific major. A student may also change majors. The requirements for the major will be determined by the catalog in effect during the semester in which the student declared or changed the major or any subsequent catalog within periods of continuous enrollment. All major requirements must be completed using the same catalog.

SWC GRADUATION REQUIREMENTS

COMPUTER LITERACY REQUIREMENT

The requirement for the associate degree is satisfactory completion (grade “C” or better or “Pass”) in one course (minimum 1 unit) selected from those listed below. Computer literacy is defined as an awareness of the impact that the electronic digital computer is having on contemporary society and the ability to use the computer to perform fundamental tasks that would be encountered in educational and job-related areas where it has the most widespread use. Students who have a background in computers may substitute a more advanced computer course or may have this requirement waived by verified work experience in the computer field. For Associate Degree Nursing (ADN) nursing majors, the computer literacy requirement is met by completion of courses for the major.

- ARCH 200 Introduction to Computer Aided Design
- ART 159 Graphic Design—Lay out
- CAD 220 Introduction to CAD/CAM Systems
EXERCISE SCIENCE REQUIREMENTS

Students must satisfactorily complete (grade of "C" or better or "Pass") two classes of exercise science or dance, or one of each. A student is exempt from this requirement under any of the following circumstances:

- The student presents a physician’s statement detailing a physical disability that would prevent them from participating in an adaptive exercise science activity class.
- The student provides verification of graduation from a two-year or four-year college or university.
- The student provides a military form (DD-214 or DD-295) showing at least one year of active duty. The College will grant two units of credit for exercise science.
- The student has taken the majority of classes as an evening student at Southwestern College.
- For ADN students, the Exercise Science requirement is met by completion of the courses for the major.

The following courses DO NOT fulfill the exercise science requirement for graduation:

- DANC 200: Dance History and Appreciation
- ES/T 200: Physical Education for Elementary School
- ES/T 202: Introduction to Kinesiology
- ES/T 204: Theory and Technical Analysis of Offensive Football
- ES/T 205: Theory and Technical Analysis of Offensive Football
- ES/T 206AB: Theory and Technical Analysis of Offensive Basketball
- ES/T 207AB: Theory and Technical Analysis of Offensive Basketball
- ES/T 250: Prevention and Care of Athletic Injuries

HEALTH EDUCATION REQUIREMENT

Students must satisfactorily complete (grade of "C" or better or "Pass") HLTH 101, 116, or 204 or have a satisfactory score on the health inventory test. Military DD-214 and DD-295 forms will satisfy this requirement under certain conditions. (See SWC Policy 6039 for details.) For nursing (ADN and VN) and dental hygiene (DH) majors, the health education requirement is met by completion of courses for the major.

Note: Students are not eligible to take the health inventory test after receiving an unsatisfactory grade in HLTH 101.

PROFICIENCY REQUIREMENTS

MATHEMATICS PROFICIENCY REQUIREMENT

Students are encouraged to satisfy the mathematics proficiency through coursework and to pursue mathematics education beyond minimum proficiency. Transfer students should be aware that the CSU and UC entry-level mathematics examination requires proficiency above the level of Intermediate Algebra (MATH 60 or 70). In addition, most careers require a level of mathematics beyond the minimum proficiency levels.

Mathematics proficiency can be satisfied in any one of the following ways:

- Satisfactory completion (grade of "C" or better or "Pass") of MATH 60 (Intermediate Algebra I) or a higher-numbered mathematics course;
- OR
- Mathematics assessment results that indicate eligibility for MATH 70 (Intermediate Algebra II) or a higher-numbered mathematics course.

The Southwestern College Mathematics Assessment may be taken throughout the year. It is advised that students take the assessment as soon as possible before or following enrollment. Educational review can be arranged for students who are deficient in mathematics skills. However, it is the responsibility of each student to arrange to take the assessment, review his/her assessment results, and meet with a counselor regarding his/her results. Review materials are available upon request.

READING PROFICIENCY REQUIREMENT

The Southwestern College reading proficiency requirement is met by satisfactory performance on the Southwestern College Reading Assessment. The requirement may also be met by satisfactory completion (grade of "C" or better or "Pass") of RDG 158 or ENGL 115 or ADN 140 or ENGL 115H.

Part of the calculation used in the Southwestern College Assessment process to determine satisfaction of the reading proficiency requirement is high school grade point average. A student, however, may petition to substitute the college grade point average for the high school grade point average. The student must have completed a minimum of 24 degree units at Southwestern College, have completed those units within the past seven years, and be in good standing with the College. The student must submit a student petition to the Assessment Center to be considered for this substitution.

WRITING PROFICIENCY REQUIREMENT

English writing proficiency requires satisfactory completion (grade of "C" or better or "Pass") in the following:

- ADN 140: Reading and Composition for Nursing and Allied Health Occupations
- OR
- ENGL 115: College Composition: Reading and Writing Analytically
- OR
- ENGL 115H: Honors College Composition: Reading and Writing Analytically

Note: Proficiency requirements may also be met by satisfactory scores on specified Advanced Placement (AP), College-Level Examination Program (CLEP), or International Baccalaureate (IB) exams (see page 46).

A student who has received a college degree from an accredited U.S. institution will not be required to meet proficiency requirements for graduation.

PREPARATION FOR TRANSFER

ARTICULATION

Articulation is the process of developing a formal (i.e., written) agreement for course transfer to colleges and universities throughout the state of California. It also can include out-of-state institutions as well. The Articulation Office is housed under the Office of Instructional Support Services at Southwestern College. The Office is responsible for the development and implementation of articulation agreements for the purpose of ensuring a smooth transfer process for students. Agreements can be accessed in the Counseling and Transfer Centers at the Chula Vista campus and the Higher Educational Centers in National City, Otay Mesa, and San Ysidro.

For the most recent information on course articulation for the University of California and California State Universities, please visit www.assist.org. This website is the official repository for course articulation. Please consult with a counselor regarding any questions or concerns.

TRANSFER OPTIONS

ASSOCIATE DEGREES FOR TRANSFER (ADT)

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of Southwestern College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to www.sb1440.org. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

ASSOCIATE IN ARTS DEGREE - TRANSFER

A degree program consisting of a minimum of 18 units in the major typically from the fields of humanities, fine and communication arts, social and behavioral sciences, and related fields. Some programs may mirror the lower-division requirements for a bachelor’s degree in the same department. Others may lead to entry-level skills in the chosen field.

ASSOCIATE IN SCIENCE DEGREE—TRANSFER

A degree program consisting of a minimum of 18 units in the major typically from the fields of engineering, physical and biological sciences, and other occupational curricula. Some programs may mirror the lower-division requirements for a bachelor’s degree in the same department. Others may lead to entry-level skills in the chosen field.

TRANSFER STUDIES/GENERAL STUDIES MAJORS

Effective with the 2008-09 Catalog, we are not offering an associate degree in General Studies or in Transfer Studies. These programs are not approved by the Chancellor’s Office. Any student who is following a previous catalog to attain a degree in either of the two and has maintained continuous enrollment, will be granted their degree if all requirements are met.
CALIFORNIA STATE UNIVERSITIES
CALIFORNIA STATE UNIVERSITY (CSU) GENERAL EDUCATION BREADTH REQUIREMENTS 2014–2015
(TRANSFER INFORMATION)

This plan is a 41-42 unit pattern designed for the student planning to transfer to the California State University system. Southwestern College will certify course work completed at another California community college or any institution that participates in certifying general education course work to the CSU, including a CSU campus other than the one to which the student is transferring, only if the courses are on the approved CSU general education list at the college where they were completed. Such a course will be certified in the general education breadth area that is shown on the official certification list for the institution at which it was taken.

When course work has been taken at a regionally accredited institution that does not maintain a CSU certification list, Southwestern College can certify the course work provided that Southwestern College faculty determine that the course work is equivalent to course work on the approved Southwestern College general education breadth list. Any category of required general education courses not completed at the time of certification will have to be fulfilled according to the requirement of the transfer institution. Students who desire to transfer to one of the 23 California State University (CSU) campuses must complete 48 units of general education breadth courses, of which nine shall be at the upper-division level. Southwestern College can certify only the 39 lower-division units of general education breadth courses.

### CSU GRADUATION REQUIREMENT IN AMERICAN INSTITUTIONS (U.S. HISTORY, CONSTITUTION, AND AMERICAN IDEALS)

Courses in American Institutions (U.S. History, Constitution, and American Ideals) are required for graduation by the CSU. Although the American Institutions requirement is not a part of the CSU GE Breadth, students are encouraged to complete the requirement prior to transfer. This requirement can be satisfied by completing any combination of two classes that, when combined, fulfill US-1, US-2 and US-3. The courses used to satisfy this requirement, may also be used to fulfill CSU General Education Breadth Area D requirements.

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) 2014–2015

UNIVERSITY OF CALIFORNIA (UC) AND CALIFORNIA STATE UNIVERSITY (CSU) REQUIREMENTS

This plan is a 38–41 unit, general education pattern which meets all lower-division general education requirements at most California State University (CSU) or University of California (UC) campuses. It should be noted that completion of the IGETC is not a requirement for admission to a CSU or UC, nor will its completion guarantee admission to a CSU or UC campus.

The IGETC plan is not the only way to fulfill lower-division general education requirements. Depending on a student’s major or field of interest, the student may find it advantageous to fulfill the CSU’s general education requirements or those of the UC campus or college to which the student plans to transfer. Some colleges within the UC system will not accept IGETC, depending on the major. Students wishing to use a course to meet General Education Breadth or IGETC requirements must be sure that the course is approved for the academic year in which it was taken. It is strongly recommended that the student consult with a counselor to determine which general education pattern is the most appropriate for him/her.

The course requirements for all areas must be completed before the IGETC can be certified. Each course must be completed with a grade of “C” or better.

An acceptable score on an English Advanced Placement (AP) exam may be used to meet the English composition requirement but may not be used to meet the Critical Thinking English composition requirement.

AREA 1: ENGLISH COMMUNICATION

CSU—3 courses required, one each from 1A, 1B and 1C.
UC—2 courses required, one from 1A and 1B.

1A: ENGLISH COMPOSITION

1B: CRITICAL THINKING—ENGLISH COMPOSITION

ENGL 116 Critical Thinking and Composition

1C: ORAL COMMUNICATION (CSU ONLY)

COMM 103 Oral Communication
COMM 104 Public Speaking

Note: If English 116 or Philosophy 103 were completed prior to fall 1993, both courses are required for IGETC certification. Beginning fall 1993, only one course is required.

AREA 2: MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING

A minimum of 3 units must be distributed as follows: One course.

| MATH 101  | College Algebra |

Associate degree programs allow the student the benefits of a general college education and the option of choosing occupational training, liberal arts, or a concentration in a department offered by the College.

PETITION FOR GRADUATION

Students are encouraged to plan their educational objectives in such a manner as to qualify for graduation with an associate degree. Degrees or certificates are not awarded automatically upon completion of the requirements. A candidate must submit a petition for graduation online at www.swccd.edu/evaluations. Petitions for graduation may be filed at any time; however, students wishing to graduate in a specified semester (fall, spring, or summer) must submit a petition according to the following schedule:

- Fall: July 1–October 31
- Spring: November 1–February 28
- Summer: March 1–June 30

Official college transcripts from all colleges attended must be on file before submitting a petition for any Associate Degree, Certificate of Achievement or GE Certification. Hand carried copies of transcripts will not be accepted. All previous coursework must be evaluated whether or not it is needed to obtain the associate degree at Southwestern College.

CATALOG RIGHTS FOR GENERAL EDUCATION

Provided that continuous enrollment is maintained, students may elect the general education and graduation requirements in effect at the time of entrance to Southwestern College, or any catalog year thereafter (Policy No. 6041).

CONTINUOUS ENROLLMENT

Continuous enrollment is defined as completion of a course during at least one semester in a calendar year excluding summer session. Completing a course is defined as receiving a grade of A, B, C, D, F, I, Pass (P), or No Pass (NP). Receiving a grade of “W” will not satisfy the requirement for completing a course (Policy No. 6087).

MULTIPLE DEGREES

Students who qualify may receive additional associate degrees providing the designated degree to be earned will represent a change in major from the degree or degrees previously earned. A student who has already earned a bachelor’s or higher degree from an accredited U.S. academic institution may qualify for an associate degree providing that the designated major is different from the higher degree.

For each additional degree, the student must complete all requirements for the new major with a minimum of 18 new units. The additional units must include a minimum of 12 units in the major. In addition, the student must meet all graduation requirements enforced at time of declaration of additional major. Note: Students petitioning for an Associate Degree for Transfer (ADT) in the same discipline are exempt from the new unit requirement, but are still required to complete all the units required for the degree.

ACADEMIC RESIDENCY REQUIREMENT

The student must satisfactorily complete a minimum of 12 degree-applicable units at Southwestern College to satisfy academic residency and degree requirements.

UNIT AND SCHOLARSHIP REQUIREMENT

Students must satisfactorily complete 60 or more units of coursework which will satisfy all graduation requirements. This means either credit earned on a Pass/No Pass basis or cumulative grade point average of 2.0 or better for credit earned on a grading scale basis for all college coursework attempted, for all Southwestern College course work attempted, Effective for all students admitted for the fall 2009 term or any term thereafter, all courses applicable toward the unit requirement for the major or area of emphasis for associate degrees and Certificates of Achievement or Proficiency must be completed with a "C" or better, or "P" if the course is taken on a Pass/No Pass basis.

WAIVER OR SUBSTITUTION OF A MAJOR COURSE

A student may request permission to waive or substitute a course that is required for the major to complete graduation requirements. Petitions must be submitted to and approved by the appropriate school dean. Petitions are available online at www.swccd.edu, click on Admissions and Registration, and then click on Printable Forms.

ACADEMIC FREEDOM POLICY
Southwestern Community College District recognizes that academic freedom is essential in maintaining the academic integrity of the institution and in protecting the rights of both the faculty and the students in the learning process. Each individual is obliged by scholarly ethics and academic freedom to speak openly. So too are others obliged to listen with courtesy and to respond with respect and decency to any statement made with conviction and sincerity. Responding with cordiality and respect does not deny the academic freedom of any party, but rather ensures the free and open exchange of all opinions. It is consistent with these ideals that no one may be compelled to adopt the opinions of others offered in dissension, yet all must honor the right of dissenters to bear true faith in their expressions (Policy No. 7027).

Each faculty member has the right and the responsibility to introduce materials and controversial topics into classroom discussion and to provide opportunity for the expression of diverse points of view. The subject matter must be relevant to the discussion.

Members of the faculty are also private citizens and are not only entitled to express their own opinions in public but are encouraged to do so. When they speak or write as citizens, they must be free from institutional censorship and discipline, but their special position in the community imposes special obligations. Hence, as scholars they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

The District recognizes the right of the faculty to privacy of communication in accordance with the First Amendment. When executing their duties in an appropriate manner, faculty members must be able to communicate with their colleagues without restraint. The District further recognizes that censorship and fear of reprisal do not promote scholarly interaction.

The District honors the freedom of expression guaranteed by the First Amendment of the Constitution of the United States of America and does not restrict the contents of any form of faculty expression.

[Parts of this policy are adapted from the American Association of University Professors’ 1940 Statement of Principles on Academic Freedom and Tenure, which has been reaffirmed annually thereafter.]

Note: An Academic Freedom policy is mandated in the California Code of Regulations, Title 5, §51023(a).

ACADEMIC INTEGRITY
Southwestern College is a community of scholars and learners committed to the principles of honesty, trustworthiness, fairness, and respect for the learning process. Students share with faculty and staff the responsibility for promoting a climate of integrity. As members of this community, students are expected to adhere to these fundamental values at all times in their academic endeavors (Policy No 7029).

Violations of academic integrity include, but are not limited to, cheating, plagiarism, lying, stealing, submitting others’ work as one’s own, or permitting anyone else to do the same. The faculty should make their students aware of specific expectations related to academic integrity in every class and should define academic integrity within the context of the course. The faculty are encouraged to provide pertinent examples of plagiarism, cheating and other violations.

Students are required to conduct themselves with integrity and honor, and when violations of academic integrity occur, faculty members must address the violations quickly, judiciously, and fairly. They should document all incidents including any informal sanctions with their school dean. It is the prerogative of the faculty member whether to pursue formal sanctions related to violations of academic integrity. Formal sanctions shall be addressed through appropriate Standard of Student Conduct Procedures (Policy No. 5500).

HARASSMENT & DISCRIMINATION

I. UNLAWFUL DISCRIMINATION

The District is committed to providing an academic and work environment free of unlawful discrimination. “Unlawful discrimination” is defined as harassment based on age, ancestry, color, ethnic group identification, national origin, religion, race, gender, sexual orientation, physical or mental disability, veteran status or on the basis of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics. The definition of “sexual harassment” and other terms are set forth below. This procedure describes the process for the investigation and resolution of complaints of unlawful discrimination by or against any employee or student within the District.

Failure to report harassment and discrimination impedes the District’s ability to stop discriminatory behavior; the District strongly encourages employees and students who believe they are being harassed or discriminated against to file a complaint. The District also strongly encourages the filing of such complaints within 30 days of the alleged incident. While all complaints are taken seriously and will be reviewed promptly, delay in filing impedes the District’s ability to investigate and remediate. The
District further encourages students and staff to let the offending person know immediately and firmly that the conduct or behavior is unwelcome, offensive, in poor taste and/or inappropriate.

All supervisors and managers have a mandatory duty to report incidents of harassment and discrimination; the existence of a hostile, offensive, or intimidating work environment, and acts of retaliation.

The District is legally obligated to investigate when it discovers the possibility that harassment is, or may be occurring, regardless of whether a complaint is filed. The Vice President for Human Resources is charged with receiving complaints of discrimination or harassment, and coordinating their investigation. The actual investigation of complaints may be assigned by the Vice President for Human Resources to other staff or to outside persons or organizations under contract with the District. Such assignment shall occur whenever the Vice President for Human Resources is named in the complaint or implicated by the allegations in the complaint. All employees shall cooperate with a District investigation into allegations of harassment or discrimination.

District Policy and Procedure No. 3430, “Prohibition of Harassment & Discrimination,” will be available to all students and employees in hard copy and electronic format. Beginning January 1, 2010, new employees shall be required to sign that they have received the policy and procedures, and the signed acknowledgment of receipt will be placed in each new employee’s personnel file. In addition, these policies and procedures shall be incorporated into the District’s course catalogs and orientation materials for new students.

II. DEFINITIONS

Disability: A physical or mental impairment as defined in Government Code, section 12926 which limits (makes difficult) one or more major life activities. A person may be considered disabled who has a record of such an impairment, or is regarded as having such an impairment.

Environmental Harassment: A hostile academic or work environment is one permeated by insults or abusive comments directed at an individual or group; or gratuitous comments regarding any of the protected categories, which are not relevant to the subject matter of the class or activities of the job. It can also be created by an unwarranted focus on, or stereotyping of, particular racial or ethnic groups, sexual orientations, genders, or other protected characteristics. An environment may also be hostile toward anyone who witnesses unlawful discrimination in his or her immediate surroundings, although the conduct is directed at others. The determination of whether an environment is hostile is based on the totality of the circumstances, including such factors as the frequency of the conduct, the severity of the conduct, whether the conduct is humiliating or physically threatening, and whether the conduct unreasonably interferes with an individual’s ability to learn or perform work duties.

Gender: Sex, including a person’s gender identity and gender-related appearance and behavior, whether or not stereotypically associated with the person’s assigned sex at birth. Gender-based harassment does not necessarily involve conduct that is sexual. Any hostile or offensive conduct based on gender can constitute prohibited harassment.

Physical Harassment: Inappropriate or offensive touching, assault, or physical interference with free movement. This may include, but is not limited to, any physical intimidation or assault directed at an individual or group.

Protected Categories: Those characteristics contained within the definition of unlawful discrimination: age, ancestry, color, ethnic group identification, national origin, religion, race, gender, sexual orientation, physical or mental disability, and veteran status.

Sexual Harassment: Sexually harassing conduct can occur between people of the same or different genders. Such conduct includes unwelcome sexual advances, requests for sexual favors, kissing, patting, lingering or intimate touches, grabbing, pinching, leering, starring, unnecessarily brushing against or blocking another person, whistling or sexual gestures, and other conduct of a sexual nature when:

(a) submission to the conduct is made a term or condition of an individual’s employment, academic status, or progress;
(b) submission to, or rejection of, the conduct by the individual is used as a basis of employment or academic decisions affecting the individual;
(c) the conduct has the purpose or effect of having a negative impact upon the individual’s work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment; or
(d) submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the District.

There are two types of sexual harassment:

(1) “Quid pro quo” sexual harassment occurs when a person in a position of authority makes educational or employment benefits conditional upon an individual’s willingness to engage in or tolerate unwanted sexual conduct.

(2) “Hostile environment” sexual harassment occurs when unwelcome conduct based on a person’s gender is sufficiently severe or pervasive so as to alter the conditions of an individual’s learning or work environment, unreasonably interfere with an individual’s academic or work performance, or create an intimidating, hostile, or abusive learning or work environment. A hostile environment can arise from continual sexual innuendo, an unwarranted focus on sexual topics, or sexually suggestive statements in the classroom or work environment. The victim must subjectively perceive the environment as hostile, and the harassment must be such that a reasonable person of the same gender would perceive the environment as hostile.

Verbal Harassment: Inappropriate or offensive remarks, slurs, jokes, or innuendoes based on one or more protected categories. This may include, but is not limited to, inappropriate comments regarding an individual’s body, physical appearance, attire, sexual prowess, marital status or sexual orientation; unwelcome flirting or propositions; verbal abuse, threats, or intimidation; or demeaning, patronizing, or ridiculing statements that convey derogatory attitudes based on one or more of the protected categories.

Visual or Written Harassment: The display or circulation of visual or written
material that degrades an individual or group. This may include, but is not limited to, posters, cartoons, drawings, graffiti, reading materials, computer graphics, or electronic media transmissions.

III. UNLAWFUL DISCRIMINATION & HARASSMENT COMPLAINTS (TITLE 5 §59328-59339)

A. Filing a Complaint
1. The complaint shall be filed by one who alleges that he or she has personally suffered unlawful discrimination or by one who has learned of such unlawful discrimination in his or her official capacity as a faculty member or administrator.

2. The complaint must be submitted using a form prescribed by the California Community College Chancellor’s Office. The form must be completed in its entirety. The form is available from the office of the Vice President for Human Resources and at the following URL: www.swccd.edu/modules/showdocument.aspx?documentid=4360

3. Any complaint not involving employment shall be filed within one year of the date of the alleged unlawful discrimination or within one year of the date on which the complainant knew or should have known of the facts underlying the allegation of unlawful discrimination.

4. Any complaint alleging discrimination in employment shall be filed within 180 days of the date the alleged unlawful discrimination occurred, except that this period shall be extended by no more than 90 days following the expiration of the 180 days if the complainant first obtained knowledge of the facts of the alleged violation after the expiration of the 180 days.

B. Where to File a Complaint
The completed Unlawful Discrimination Complaint form must be filed with the Southwestern Community College District Vice President for Human Resources; or the Chancellor of the California Community Colleges at 1102 Q Street, Sacramento, California 95811.

Any District employee who receives a harassment or discrimination complaint shall immediately provide a copy to the Vice President for Human Resources.

C. District Response to Complaint
Upon receiving an unlawful discrimination complaint, the District shall take action as follows:

1. Defective Complaint: Determine whether the complaint is properly filed and/or whether an investigation is required. If the District finds the complaint to be defective, it shall notify the complainant within ten (10) working days that the complaint has been rejected and specify in what requirement the complaint is defective.

2. Informal Resolution: If the complaint is properly filed, undertake efforts to informally resolve the charges, including but not limited to, mediation, rearrangement of work/academic schedules, obtaining apologies, providing informal counseling and/or training, etc. The complainant shall be advised that he or she need not participate in an informal resolution of the complaint. When informal resolution is reached to the satisfaction of the parties, the matter will be closed and the Chancellor’s Office shall be notified.

3. Additional Notifications: All properly filed complaints not informally resolved will be investigated. Notify complainant that he or she may file a complaint with the Office of Civil Rights of the U.S. Department of Education. Employee complainants shall be notified that they may file employment discrimination complaints with the U.S. Equal Employment Opportunity Commission (EEOC) or the Department of Fair Employment and Housing (DFEH). The District shall also notify the Chancellor of California Community Colleges of the complaint.

4. Investigation: The District shall take reasonable steps to ensure the confidentiality of the investigation and to protect the privacy of all parties to the extent possible without impeding the District’s ability to investigate and respond effectively to the complaint.

(a) Commence an impartial fact-finding investigation of the complaint and inform the complainant and the Chancellor’s Office of the name of the investigator. The investigation will include interviews with the complainant, the accused, and any other persons who may have relevant knowledge concerning the complaint. This may include alleged victims of similar conduct.

(b) Set forth the results in a written investigation report, including a description of the circumstances giving rise to the complaint, a summary of the testimony of each witness, an analysis of any relevant data or other evidence collected during the investigation, a specific finding as to whether there is probable cause to believe that discrimination did or did not occur with respect to each allegation in the complaint, and any other appropriate information.

5. Administrative Determination:
Within ninety (90) days from the date the District received the complaint, the District shall complete its investigation and issue the administrative determination of the Vice President for Human Resources as to whether there is probable cause to believe that harassment or other discriminatory conduct did or did not occur with respect to each allegation in the complaint. The complainant also be provided with a copy or summary of the investigation report (at the District’s discretion), a description of action taken, if any, to prevent similar problems from occurring in the future, the proposed resolution of the complaint, and notice of his or her right to appeal to the District’s Governing Board. The results of the investigation and the determination as to whether harassment or other discriminatory conduct occurred shall also be reported to the accused, and the appropriate academic or administrative official(s). Reports to the complainant shall be prepared so as not to violate any applicable privacy rights of the accused.

• Extensions of Time: The District may request an extension of time in which to complete its investigation if it is unable to comply with the 90-day requirement for reasons beyond its control. The request shall be submitted to the Chancellor’s Office no later than ten (10) days prior to the expiration of the 90-day requirement.
GENERAL INFORMATION

A copy of the request for an extension shall be sent to the complainant, who shall be notified that he or she may file written objections with the Chancellor within five (5) days of receipt. The Chancellor may grant the request unless delay would be prejudicial to the investigation.

6. Appeals to Governing Board: If the complainant is not satisfied with the results of the administrative determination, he or she may, within fifteen (15) days, file a written appeal to the Governing Board. The appeal must be in writing and must bear the complainant’s name, original signature, address, and telephone number. The appeal must include the reasons the administrative decision is not acceptable to the complainant. The Board shall review the original complaint, the investigative report, the administrative determination, and the appeal. The Board shall issue a final District decision within forty-five (45) days after receiving the appeal. If the Governing Board does not act within forty-five (45) days, the administrative determination shall be deemed approved and shall become the final District decision. The District shall notify the complainant and the Chancellor’s Office of the final District decision.

D. Results of Complaint

If the final District decision concludes that harassment, discrimination, and/or retaliation occurred, the District shall take disciplinary action against the accused and any other remedial action it determines to be appropriate. The action will be prompt, effective, and commensurate with the severity of the offense. If discipline is imposed, the nature of the discipline will not be communicated to the complainant.

Disciplinary actions against faculty, staff, and students will conform to all relevant statutes, regulations, and personnel policies and procedures, including the provisions of any applicable collective bargaining agreement.

The District shall also take reasonable steps to protect the complainant from further harassment and/or discrimination, and to protect the complainant and witnesses from retaliation as a result of communicating the complaint and/or assisting in the investigation.

IV. MANDATORY TRAINING

The Southwestern Community College District shall provide sexual harassment training and education to each supervisory employee once every two years. All new supervisory employees must be provided with the training and education within six months of their assumption of a supervisory position.

The training and education required by this procedure shall include information and practical guidance regarding the federal and state statutory provisions concerning the prohibition against and the prevention and correction of harassment and discrimination in employment. The training and education shall also include practical examples aimed at instructing supervisors in the prevention of harassment, discrimination, and retaliation, and shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation.

Participants in training programs will be required to sign a statement that they have either understood the policies and procedures, their responsibilities, and their own and the district’s potential liability, or that they did not understand the policy and desire further training.

A grievance may be initiated by a student when he/she believes he/she has been subject to an unjust action or denial of rights as stipulated in college regulations and in the state education and administrative codes. Such action may be instituted by the student against another student, faculty, administrator or other staff member. A grievance must be initiated no later than the end of the term during which the incident occurred. Where a student believes an injustice has taken place, the student may seek resolution through the following procedures.

I. STUDENT GRIEVANCE PROCEDURES

Grievances may include, but are not limited to:
- Harassment/Intimidation
- Discriminatory actions
- Arbitrary action or imposition of sanctions by a college representative

Grade and grading disputes are addressed within this administrative procedure. Students should refer to the “Student Grade Dispute Procedure – Section II” found in this procedure.

The procedure does not apply to:
- Student Disciplinary records covered by Procedure No. 5500 - Standards of Student Conduct
- Police citations; complaints about citations must be directed to the Campus Police or San Diego County Superior Court in the same way as any traffic violation.
- Appeals for residency determination. Residency appeals are filed with Admissions and Records.

A grievance exists when such an error of offense has resulted in an injury or harm that may be corrected through this grievance procedure. The Superintendent/President shall appoint the Dean of Student Services or his/her designee to assist students in seeking resolution.

Informal meetings and discussion between persons directly involved in the grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought to avoid persons involved in the case becoming polarized, which could render a solution more difficult to achieve.

At no time shall any persons directly or indirectly involved in the case use the facts, the information which has been discussed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute for any other purpose other than the settlement of the grievance.

The determination of whether the Report of Student Grievance presents sufficient grounds for review shall be based on the following:
- The grievant must be a student, which include applicants and former students.
- The grievant is personally and directly affected by the alleged grievance.
- The grievance was filed in a timely manner.
- The grievance is not frivolous, clearly without foundation, or filed for the purpose of harassment.

The Report of Student Grievance must include the following:
- A clear and concise statement of the grievance
- Name(s) of the individuals against whom the grievance is being filed
- Identify the resolution, corrective action or remedy being sought
- Summary of actions already taken to attempt to resolve the issue

The Report of Student Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official.

Preliminary Action Procedure
1. The student who believes an injustice has occurred shall attempt to resolve the grievance by informal consultation with the student, staff, faculty or administrator concerned.
2. If this proves to be less than satisfactory, the student will inform the School/Center Dean or Supervisor of the area.

Formal Grievance
3. If the student still believes that the issue has not been resolved satisfactorily through the informal resolution process, the student shall submit a completed “Report of Grievance” to the Dean of Student Services. In cases in which the College District Police Department has been involved or in which the situation has become an issue of safety, the preliminary actions need not be adhered to.
4. The Dean of Student Services shall confer with the student for the purpose of reviewing the grievance and attempting to resolve the matter.
5. The Dean of Student Services or designee may also obtain information relating to the grievance from other parties involved.

The Dean of Student Services will notify each party of the following actions being considered:

GENERAL INFORMATION

II. STUDENT GRADE DISPUTE PROCEDURES

If a student feels that an instructor has given him/her a grade based on prejudiced or capricious action in the evaluation of the student’s academic performance, the student must be able to substantiate the claim by showing evidence of a mistake, fraud, bad faith, and/or incompetence.

California Education Code Section 76224 states:

When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course, and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith or incompetence, shall be final.

Students should note the following definitions which are taken from Black’s Law Dictionary:

- Mistake - some unintentional act, omission, or error by the instructor,
- Fraud - an intentional perversion of the truth for the purpose of inducing another to part with something valuable or to surrender a legal right,
- Bad Faith - synonymous with fraud neglect, or refusal to fulfill some duty or contractual obligation, not prompted by an honest mistake as to one’s rights or duties;
- Incompetence - lack of ability, legal qualification, or fitness to discharge a required duty.

If the student feels that an instructor has given a grade based on a mistake, fraud, bad faith, or incompetence, and the student has evidence to substantiate the claim, these steps must be followed:

1. The student must contact his/her instructor to discuss, clarify, and attempt to resolve the grade dispute in person, via electronic mail, or in writing within 30 working days of the time the official grade report was posted on WebAdvisor or on the official transcript. Grades are posted within one week after the end of a semester or term. If the concern is not resolved satisfactorily, then:
2. The student must discuss the matter with the School/Center Dean or Designee in person, via electronic mail or in writing within 10 working days. The School/Center Dean or Designee will try to resolve the dispute and will respond to the student in writing.
3. If the concern is still unresolved the student must within 10 working days after receiving written response from the School/Center Dean or designee, discuss the matter with the Vice President for Academic Affairs or designee, via electronic mail or in writing. The Vice President for Academic Affairs, in consultation with the Academic Senate President, will render a final decision in writing within 15 working days.

STUDENT RIGHTS AND RESPONSIBILITIES

Becoming a student at Southwestern College means becoming a member of an academic community of faculty, staff, administrators, and other students. The heart of the community is the student, who has both the right and responsibility to take a primary role in his/her education. At Southwestern College, the student learns that a good education goes beyond what is taught in lectures and textbooks. Students are encouraged to actively participate in the cultural and social opportunities afforded by the academic community.

STUDENT RIGHT-TO-KNOW

In compliance with the Student Right-to-Know (SRTK) and Campus Security Act of 1990 (Public Law 101–542) and as a service to its community, the Southwestern Community College District makes available its completion and transfer rates to all current and prospective students.

Beginning in fall 2006 a cohort of all college students who were certificate-, degree-, and transfer-seeking first time, full-time students were tracked over a three-year period. The completion and transfer rates are based on information submitted by each college to the U.S. Department of Education. Based on the cohort defined above, 19.63 percent of the SWC cohort attained a certificate or degree or became transfer-prepared from fall 2006 to spring 2009. In addition, 12.48 percent transferred to another postsecondary institution (University of California, California State University, or other California community college) during the same three-year period.

Note: The above rates do not represent the success rates of the entire student population at Southwestern College (SWC), nor do they account for student outcomes occurring after this three-year tracking period. Additionally, the rates do not describe other important features about the College and its students. SWC contributes significantly to the lives of thousands of students in assisting them to meet their educational goals.

More information concerning SRTK is available from the Office of Institutional Effectiveness and Academic Affairs Offices. Additional information can also be found at the following websites: http://www.cccco.edu/divisions/tris/mis/srtk.htm and http://srtk.cccco.edu/091/99index.htm

ACADEMIC ACCOMMODATIONS POLICY

The Southwestern Community College District is committed to providing support programs and services for students with verified disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 (1) and the Americans with Disabilities Act of 1990. The fundamental principles of non-discrimination and accommodation in academic programs provide that (Policy No. 5140):

1. The student bears the responsibility of presenting Disability Support Services (DSS) with professional disability verification that describes specific educational limitations before an academic accommodation will be authorized.

2. If the student does not have appropriate disability verification, DSS will direct the student to the appropriate professional who can determine disability, or will initiate an assessment to determine and document a disability within the scope of assessment services provided by DSS and deemed necessary by a DSS professional.

3. The DSS professional, who meets the standards established by state regulations, will assess and document the extent and the effects of the current disability. Depending on the severity and educationally related functional limitations of the assessed disability, the DSS professional shall authorize accommodations immediately upon request of the student.

4. The student will submit to his/her instructors the authorized accommodations forms completed by the DSS professional.

To ensure that students with disabilities receive appropriate accommodation in their instructional activities, the Southwestern Community College District adopted procedures to review any dispute regarding academic accommodations. Primary responsibility for implementation of the Academic Accommodation Review Procedures is assigned to the 504 Compliance Officer/Dean of Student Services, appointed annually by the Superintendent/President.

In compliance with state and federal laws and in order to create an educational environment where students with disabilities have equal access to instruction without compromising the essential components of the course, educational program or degree.

ACADEMIC ADJUSTMENT PROCEDURES

1. The student bears the responsibility of presenting Disability Support Services (DSS) with professional disability verification that describes specific educational limitations before an academic accommodation will be authorized.

2. If the student does not have appropriate disability verification, DSS will direct the student to the appropriate professional who can determine disability, or will initiate an assessment to determine and document a disability within the scope of assessment services provided by DSS and deemed necessary by a DSS professional.

3. The DSS professional, who meets the standards established by state regulations, will assess and document the extent and the effects of the current disability. Depending on the severity and educationally related functional limitations of the assessed disability, the DSS professional shall authorize accommodations immediately upon request of the student.

4. The student will submit to his/her instructors the authorized accommodations forms completed by the DSS professional.

INFORMAL RESOLUTION

4a. The College is charged with determining and providing what it believes to be the appropriate academic accommodation for a student. A student who disagrees with the academic accommodation(s) prescribed by DSS should discuss his/her concern with the DSS professional recommending the accommodation. If the student’s concern continues to be unresolved, the student should discuss his/her concern with the DSS Director. If the concern continues to be unresolved, the next step is to contact the 504 Compliance Officer/Dean of Student Services as outlined in number 5 below. Student must then file an Academic Accommodation appeal with 504 Compliance Officer prior to the posting of the final grade.

4b. If an instructor has questions about an accommodation requested by a student with a verified disability, the instructor should promptly contact the DSS professional who authorized the accommodation(s). Informal meetings and discussion among the instructor, department chair or designee, the student, the appropriate members...
of DSS, and/or other appropriate members of the college community are essential at the outset, and will be completed within five (5) instructional days following the student's request for the accommodation.

5. If no informal resolution can be found within five (5) instruction days and the accommodation is not allowed, the DSS professional, student, or the instructor will refer the matter to the 504 Compliance Officer/Dean of Student Services as soon as possible for review. The 504 Compliance Officer/Dean of Student Services will conduct interviews with all involved parties, and will make a decision regarding the accommodation within seven (7) instructional days of having received the matter.

6. Following notification by the 504 Compliance Officer/Dean of Student Services, if either the instructor or the student disagrees with the decision, they will notify the 504 Compliance Officer/Dean of Student Services in writing within three (3) instruction days. Written notice must be hand-delivered or postmarked by the three (3) day deadline. The 504 Compliance Officer/Dean of Student Services will then proceed with the Academic Accommodation Hearing process.

7. The accommodation originally authorized by DSS will be allowed for a maximum of four (4) instructional weeks during which time a resolution will be achieved. If the decision of the Committee is that the accommodation is not reasonable, the accommodation will either be modified or rescinded depending upon the Academic Accommodation Hearing Committee's recommendations.

2. The accommodation originally authorized by DSS will be allowed for a maximum of four (4) instructional weeks during which time a resolution will be achieved.

3. An Academic Accommodation Hearing Committee will be scheduled by the 504 Compliance Officer/Dean of Student Services within five (5) instructional days to review the complaint. The hearing will be convened within ten (10) instructional days. The committee will be composed of the following voting members:
   a. DSS Director or his/her designee
   b. ADA Compliance Officer or his/her designee
   c. Appropriate Department Chairperson
   d. Academic Senate President or his/her designee
   e. 504 Compliance Officer

4. The 504 Compliance Officer/Dean of Student Services shall serve as Chairperson and will vote only in case of a tie and will be responsible for appointing a secretary or providing a tape recording of the hearing.

5. All five (5) voting members, including the chair, shall constitute a quorum by which the hearing may proceed.

6. Both parties have the right to present witnesses, testimony, and evidence, but only as related to the case.

7. Both parties have the right to be accompanied by an advocate in the formal appeal hearing.

8. The hearing shall be closed to the public.

9. The Committee shall review both the written and oral testimony presented and shall render a written decision within three (3) instructional days following the conclusion of the hearing. Copies of the findings shall be sent to the student, instructor, committee membership, and other cognizant administrative officers. In addition, a copy of the Committee's findings shall be sent to the College Superintendent/President.

10. The 504 Compliance Officer/Dean of Student Services shall inform the complainant of the Committee's action by certified mail within three (3) instructional days of the receipt of the Committee's findings.

11. Upon notification of the Committee's findings, either party may appeal the Committee's decision to the College Superintendent/President. Any appeal to the Superintendent/President must be made in writing, and shall be either hand delivered or postmarked within three (3) instructional days following notification of the Committee's findings.

12. The Superintendent/President will review the decision of the Committee and will either accept or modify the decision.

13. The Superintendent/President shall inform the complainant and the Committee of his/her final decision by certified mail within fifteen (15) instructional days of the receipt of the appeal request.

14. The Superintendent/President's decision shall be the final decision rendered and shall be implemented within five (5) instructional days.

15. The confidential tape recording of the proceedings shall be kept in a confidential file by the 504 Compliance Officer/Dean of Student Services and a copy shall be available to the parties. All documents shall be filed separately from the personnel file of Southwestern College employees.

General Provisions

1. The time limits specified herein shall be considered under normal circumstances and every effort shall be made to expedite the process. Time limits may be extended only by mutual consent, in writing.

2. The complainant may withdraw the appeal at any time. However, the same appeal shall not be filed again by the same complainant.

3. Either party may consult with the 504 Compliance Officer/Dean of Student Services regarding any of these procedures.

OTHER COMPLAINTS

Students wishing to file complaints or grievances based upon discrimination on the basis of physical or mental disability should contact the 504 Compliance Officer/Dean of Student Services located on campus, in the Cesar E. Chavez Building, Room S109, 619-482-6369.

SERVICE ANIMALS AT SOUTHWESTERN COLLEGE FACILITIES

In accordance with the Americans with Disabilities Act (ADA) of 1990, people with disabilities may bring their service animals into all Southwestern Community College District facilities.
A service animal is defined as “any animal that is individually trained to do work or perform tasks for the benefit of a person with a disability.” Under the ADA, a service animal is not considered a pet. Service animals must be permitted to accompany a person with a disability everywhere on campus or off campus as the activity (e.g., internship, field work, etc.) pertains to the curriculum. If there are any questions as to whether an animal qualifies as a service animal, a determination will be made by the Section 504 Compliance Officer/Dean of Student Services and/or DSS Director (542. U.S. Code Sections 12101, Policy No. 5143).

STUDENT RIGHTS POLICY
If admitted to Southwestern Community College District in accordance with District admission policies (Education Code Section 76000), a student can exercise the following rights pursuant to Title 5, Sections 55521, 55530, 55534, 58106:

• Enrollment in any course for which the student can meet necessary and valid prerequisites and corequisites that have been established pursuant to Title 5, Section 58106.
• Access to clear and consistent information describing student rights and responsibilities available in college publications and documents such as catalog, schedule, and student educational plan.
• Participation in an efficient matriculation process that encourages student access to college programs.

• Maintaining enrollment status in a course after the beginning of the semester. The student may withdraw voluntarily or can be dropped from the course against his/her will if he/she fails to comply with District attendance policy or exhibits disruptive behavior as identified in District policy. A student who does not meet the mandatory prerequisite or corequisite may be dropped from a course. Therefore, it is incumbent upon the College to ensure that students are informed about mandatory prerequisites and corequisites and that prerequisites and corequisites are enforced in a timely and efficient manner. (Title 5, Section 55758)

A student may petition for waiver or appeal if he feels that assessment, orientation, counseling, prerequisites, corequisites, or any other matriculation procedures are being applied in a discriminatory manner. Where a student believes an injustice is being done, the student may seek redress through established grievance policy and procedure. See this catalog under Matriculation Appeals Petition, page 13.

STANDARDS OF STUDENT CONDUCT
The California State Education Code requires that each community college student be furnished with a copy of the policy regarding student conduct and discipline adopted by the governing board of the community college district.

Disciplinary action may be imposed upon a student by an instructor, administrator, or staff for violation of specified college policy and state regulations. Students are subject to charges of misconduct for any of the following acts on college-owned or controlled property or at a college-sponsored activity.

UNIVERSAL DESIGN
In order to provide an accessible education that develops the human potential of all its students, Southwestern College shall comply with the Title III of the Americans with Disabilities Act (ADA) of 1990 and conform to the principles of Universal Design in Education (UDE) as defined by the Center for Universal Design at North Carolina State University: “the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design.” Promoting the values of diversity and inclusion, UDE recognizes the full spectrum of user abilities and thus benefits all members of the Southwestern College community (Policy No. 3415).

GENERAL DESCRIPTION

Accountancy is the study of theories, principles, and practices in the recording, analyzing, and communication of financial information. This discipline explores the flow of transactions in quantitative form and the role of reporting in the overall system for financial control in business, industry, and government. DEPARTMENT CHAIR  Marisol Rendon, M.F.A.

GENERAL DESCRIPTION
Art is the study of visual thinking, idea generation, and the creation of aesthetic objects. This department explores concepts of creative intelligence and art making techniques for a full range of two- and three-dimensional forms and investigates the history of art in both Western and non-Western cultures. Students learn the language of art, design principles, and elements of composition, as the foundation for the communication of visual ideas into such forms as painting, drawing, photography, digital imagery, ceramics, new genres, sculpture, printmaking, and graphic design. Art analysis, theory, and criticism serve as the basis for problem solving.

DEAN  Mark Meadows, Ph.D., Office 470K, 619-482-6582
FACULTY  Felix Tuyay, M.A.
DEPARTMENT CHAIR  Stanley James, M.A.

GENERAL DESCRIPTION
Asian-American Studies examines the needs, conditions and contributions of Japanese, Chinese, Filipino, Korean, and Asian Indians to the United States. This department explores the hitherto neglected aspects of the social, political, economic, and cultural factors of Asians in America. In doing so, the program addresses common experiences of immigration, race relations, community development, traditional values, U.S. policies, and issues of adoption within a complex society.

CAREER OPTIONS
Below is a sample of the career options available for the Asian-American Studies major. A few require an associate degree, most require a bachelor’s degree, and some require a graduate-level degree: lawyer, high school or college instructor, researcher, international trade specialist, foreign service officer, business administrator, historian, politician, political scientist, philosopher, writer, publisher, librarian, library technician, economist, cultural arts director, social service worker, business manager, consultant, counselor, and urbanologist.

GENERAL DESCRIPTION
Astronomy, the oldest science, is a physical science that has played an important function in the development of modern science. This discipline explores the universe at large and the physical processes that govern it. Astronomers have historically investigated the laws, physical properties and behavior, chemistry, and composition of astronomical phenomena. Modern astronomers use advanced technology to explain and understand planets, comets, stars, nebulae, galaxies, quasars, pulsars, black holes, and the evolution of the universe.

CAREER OPTIONS
Below is a sample of the career options available for the astronomy major. A few require an associate degree, some require a bachelor’s degree, and most require a graduate-level degree: high school or college instructor, space science technician, astronaut, astrophysicist,

TRANSFER PREPARATION* (MAJOR CODE: 01510)

Lower-division requirements are not the same for all universities, and there are differences among the areas of specialization. However, the courses listed below meet the lower-division requirements for most universities offering a bachelor’s degree with a major in one of the biological sciences.

Students should start with mathematics and chemistry during the first year, as these are required for other science courses. Some of the courses may be applied toward the general education requirement.

Courses offered in biology, other than those listed below, are intended as general education courses for nonscience majors. They are not the acceptable courses for biology majors. Biology majors will take similar but more intensive courses as part of their upper-division requirements.

Program Student Learning Outcome Statement:

- Communicate clearly in a way that reflects knowledge and understanding of biological processes and structures.
- Approach and examine issues related to the biological sciences from an evidence-based perspective and communicate this information in a clear manner.
- Demonstrate information literacy skills to access, evaluate, and use resources.
- Use and apply the scientific method to critically evaluate hypotheses.

* Students planning to transfer to a four-year college or university should complete courses specific to the transfer institution of choice (e.g. UCSD molecular biology B.S., requires the MATH 250 sequence instead of MATH 121 and MATH 122). University requirements vary from institution to institution and are subject to change. Therefore, it is important to verify transfer major preparation and general education requirements through consultation with a counselor in either the Counseling Center or Transfer Center. See catalog TRANSFER COURSES INFORMATION section on page 43 for further information.

** If you do not meet the prerequisites for CHEM 200, take CHEM 170 in your first semester, then CHEM 200 in the second semester, and CHEM 210 in the third semester.

*** Students who plan to pursue a graduate degree in medicine or veterinary studies at a four-year college or university are advised to substitute MATH 250, 251, and 252 for MATH 121 and 122.

TO TRANSFER TO UCSD AND SDSU:
Beginning in Fall 2000 all students majoring in biology who wish to transfer to UCSD or SDSU must have satisfied all biology pre-major requirements prior to admission to the biology major. In the event that a transfer student has been unable to complete all required courses prior to enrolling at UCSD, he/she will be allowed a maximum of three quarters at UCSD to complete any remaining required pre-major coursework. For more information see [http://www.biology.ucsd.edu/sa/ugadmission.html](http://www.biology.ucsd.edu/sa/ugadmission.html)

Note: Two calculus-based physics course sequences are now available for biology majors. Sequence one—PHYS 170, 172, and 174. Sequence two—PHYS 270, 272, and 274. Check with your transfer institution for specific requirements.

CHEMISTRY

TRANSFER PREPARATION * (MAJOR CODE: 01530)
Chemistry is the study of the composition of matter, its structure, and the means by which it is converted from one form to another. Related to chemistry is molecular biology. Students interested in matter as it applies to life should also take courses in the life sciences. Most courses require mathematics prerequisites. Placement is determined by the Mathematics Assessment Process, which should be taken before registration. It is essential that students start with mathematics during the first semester.

Chemistry majors are advised to give priority to lower-division requirements for the major as they are prerequisites for most upper division courses. Only as many general education courses should be taken as can be included in the 70-unit transfer limitation, and these must be chosen with care to insure that they fit into the general education pattern at the transfer institution.

Program Student Learning Outcome Statement:
- Solve quantitative chemistry problems and demonstrate reasoning clearly and completely.

Students who plan to major in Biochemistry at a four-year college or university should also enroll in BIOL 210 and 212.

** If you do not have the prerequisites for CHEM 200 and MATH 250, take CHEM 170 and MATH 101 in your first semester. This will add one semester to your program of studies.

To earn an associate degree, additional general education and graduation requirements must be completed. See page 59.

* Students planning to transfer to a four-year college or university should complete courses specific to the transfer institution of choice. University requirements vary from institution to institution and are subject to change. Therefore, it is important to verify transfer major preparation and general education requirements through consultation with a counselor in either the Counseling Center or Transfer Center. SCHOOL OF HEALTH, EXERCISE SCIENCE, ATHLETICS, AND APPLIED TECHNOLOGY

DEAN  Terry Davis, M.H.A., Office H403, 619-482-6551
DEPARTMENT CHAIR  David Preciado, A.A.

GENERAL DESCRIPTION
Designed to provide students with the skills and technical knowledge requested by employers using Computer Aided Design and Drafting (CADD) in a variety of disciplines. This program focuses on the development of CADD skills and problem-solving strategies in the development of two- and three-dimensional models. Additional engineering options allow students to acquire advanced CADD skills in areas of special interest.

The CADD technology associate in science degree prepares the student for various job opportunities in a wide variety of disciplines. There is an increasing demand for competent engineering technicians knowledgeable in the use and application of CADD software. Students planning to enroll in a four-year college engineering program will benefit greatly by developing CADD skills used in most engineering departments.

CAREER OPTIONS
Below is a sample of the career options available for the computer aided design major. Some require a certificate of achievement and most require an associate in science degree: mechanical, aeronautical, structural, and civil engineering. New areas of use can be found in animation, simulation, and theatrical departments. While drafting
boards are still in use, a large number of companies have integrated drafting boards with monitors and computers, requiring that today’s engineers, designers, and draftsmen possess both essential drafting and CADD competencies.

FACULTY Martha Carey, M.S.; Karen Cliffe, M.A.; Valentina Goldberg, M.A.; Peter Herrera, M.A.; Alexander Juden, M.S.; Andrew Medin, M.A.; Myriam Moody, M.A.; Maria Olivas, M.A.; Nghiep Quan, M.A.; Miriam Rasky, M.A.; Carl Scarbnick, Ph.D.; Bruce Smith, M.S.; Romina Lingvall, M.A.; Val Villegas, M.A.; Coryna Holcombe, M.S.; Minerva Garcia, Ph.D.; Richard Fielding, M.S.; Silvia Nadalet, M.A.
DEPARTMENT CHAIR Richard Fielding, M.S.; Alexander Juden, M.S.

GENERAL DESCRIPTION

Computer science is the youngest of the sciences and focuses on the study of computer software, architecture, theory, and applications. This discipline explores computing theory and symbolic computation, the nature of computer architecture and operating systems, data communications, graphics, software engineering, mathematical applications, robotics, artificial intelligence, and system software.

There are many curriculum choices open to students interested in the science of computers. Students interested in the hardware aspect of computers should look at the vocational and transfer courses offered in engineering and electronics programs. Students interested in the operations aspect of computers should review the programs offered in computer information systems and computer literacy courses.

The Computer science program at SWC focuses on the programming or software aspect of computer science and offers three academic pathways from which to choose:

- Transfer preparation associate degree for students who plan to transfer and major in computer science
- Career/Technical associate degree for students seeking employment at the technician level in science or mathematics fields
- Career/Technical certificate
CAREER OPTIONS
Below is a sample of the career options available for the computer science major. A few of these require an associate in arts degree, most require a bachelor’s degree, and some require a graduate-level degree: computer scientist, systems analyst, computer service coordinator, software engineer, computer graphic specialist, high school or college teacher, data base administrator, researcher, program analyst, teleprocessing coordinator, knowledge engineer, technical control specialist, systems manager, data processing application programmer, information specialist and positions available in allied professions of business, industry, and scientific technology.

Consult with a counselor to develop a Student Education Plan (SEP), which lists the courses necessary to achieve your academic goal.

ASSOCIATE IN ARTS DEGREE

COMPUTER SCIENCE

TRANSFER PREPARATION * (MAJOR CODE: 01180)
Most careers in computer science require a bachelor’s degree, and some require a graduate-level degree. The coursework for this associate degree prepares students who plan to transfer and major in computer science with the lower-division computer programming and mathematics coursework required by most colleges and universities.

The program of study listed below is for students interested in the programming or software aspect of computer science. It is designed to provide a strong foundation in mathematics, programming methodology and skills, and computer organization.

Program Student Learning Outcome Statement
- Recognize and appropriately apply current and historical Software Engineering design patterns, algorithms, and data structures to produce efficient, well-engineered software products.

To earn an associate degree, additional general education and graduation requirements must be completed. See page 59.

* Students planning to transfer to a four-year college or university should complete courses specific to the transfer institution of choice. University requirements vary from institution to institution and are subject to change. Therefore, it is important to verify transfer major preparation and general education requirements through consultation with a counselor in either the Counseling Center or Transfer Center. See catalog TRANSFER COURSES INFORMATION section on page 43 for further information.

ASSOCIATE IN SCIENCE DEGREE

COMPUTER SCIENCE

CAREER/TECHNICAL (MAJOR CODE: 02190)
The program of study listed below is designed for students who seek employment at the technician level in the science or mathematics fields. Completion of this program of study does not satisfy the lower-division requirements for transfer to colleges or universities. Students who plan to transfer should complete the courses listed under the Computer Science Associate in Arts degree program.

Program Student Learning Outcome Statement
- Recognize and appropriately apply current and historical Software Engineering design patterns, algorithms, and data structures to produce efficient, well-engineered software products.

GENERAL DESCRIPTION: THREE PROGRAMS TO CHOOSE FROM
All ESL courses are designed for students whose native language is a language other than English or those who speak some English at home but feel they need to strengthen their English skills in order to prepare them for entry into college academic or vocational programs.
At SWC, there are three programs to choose from:
- Functional classes (for Everyday English)
- Learning English for Academic Purposes (LEAP) classes (for students with academic goals)
- Spanish-to-English Program (specific ESL classes designed to support the Child Development Certificate program)

CAREER OPTIONS
Today, there are many career choices for people who can communicate effectively in more than one language. The world is now a global community where employment opportunities for educated individuals can span more than one continent, several countries, and many different cultures. Career options are available at entry-level through more advanced positions in business, industry, education, and government.

Consult with a counselor to develop a Student Education Plan (SEP), which lists the courses necessary to achieve your academic goal. Schedule an ESL Placement Assessment at the Southwestern College Assessment Office to learn about your placement options.

ESL FUNCTIONAL CLASSES (EVERYDAY ENGLISH)
Functional classes are designed for students who wish to improve their speaking and writing for everyday purposes and for daily/informal communication. Please note: These classes are not required for entry into the LEAP (Learning English for Academic Purposes) Program. In addition, no assessment test is required for these classes.

Option 1: Beginning Level

THE LEAP PROGRAM (LEARNING ENGLISH FOR ACADEMIC PURPOSES)
LEAP courses are designed to get students ready for transfer into academic programs. LEAP classes focus on academic vocabulary, grammar and academic concepts. English is taught using a content-based approach, which means each level of LEAP is taught using a department-approved theme based on content from other disciplines on campus. English skills (speaking, listening, reading and writing) are integrated in each course with an emphasis on academic skills. Please note: No assessment test is required for level 29; entry into higher LEAP levels requires an assessment test, which will determine which level of LEAP is best for the student.

**ELECTIVE ESL COURSES**  
Elective courses are strongly recommended to increase students’ acquisition of English. Among the many electives students can choose from are the following: ESL 15 Pronunciation for the ESL Student, ESL 16 Basic Speech, ESL 17 Comparative Grammar and a variety of other options.  

**DESCRIPCIÓN GENERAL: TRES PROGRAMAS DE LOS CUALES ELEGIR**  
Todos los cursos de inglés como segundo idioma (ESL) han sido diseñados para alumnos cuyo primer idioma es un idioma diferente del inglés o aquellos que lo hablan un poco en casa pero sienten que necesitan reforzar sus destrezas en inglés para prepararse para una carrera académica o para un programa vocacional. En SWC, se encuentran tres programas de cuales escoger:  
• Los cursos funcionales (para el inglés cotidiano o informal)  
• El Programa de Aprendizaje del Inglés Académico (LEAP) (para los alumnos con fines académicos)  
• El Programa “Spanish-to-English” (cursos específicamente diseñadas para apoyar el programa de Desarrollo Infantil)  

**OPCIONES PARA SU CARRERA**  
Existen muchas opciones profesionales disponibles para aquellos que se puedan comunicar de forma efectiva en más de un idioma. Hoy en día, el mundo de hoy es una comunidad global donde las oportunidades de empleo para los individuos que hayan tenido una educación formal se extienden a través de más de un continente, varios países y muchas culturas diferentes. Existen opciones profesionales que van desde el nivel principiante hasta las posiciones más altas dentro de los campos empresariales, industriales, educativos, y gubernamentales.  

Consulte con un asesor para desarrollar un Plan Educativo Estudiantil (SEP, por sus siglas en inglés) que incluya las materias necesarias para alcanzar sus metas académicas.  

Tome el examen de asesoría en la oficina de Asesoría para aprender más sobre sus opciones dentro del programa de ESL.
LOS CURSOS FUNCIONALES DE ESL (EL INGLÉS COTIDIANO)
Los cursos del programa funcional han sido diseñado para aquellos alumnos que desean mejorar sus destrezas del habla y escritura para uso cotidiano y para uso/comunicación informal. Nótese: Estas clases no son requisitos para entrar al programa LEAP (el aprendizaje del inglés para fines académicos). Además, no se requiere asesoría para matricularse en ellas.

DEPARTMENT CHAIR Valerie Goodwin-Colbert, M.Ed.

GENERAL DESCRIPTION

Exercise Science is an academic area of study concerned with the art and science of physical movement. This department explores the processes through which individuals obtain optimal health, physical skills, and fitness. Learning concentrates on human movement as it affects and is affected by physiological, psychological, cultural, social, and mechanical parameters. The application of movement concepts evolves from a foundation in human anatomy, physiology, and principles of kinesiology that cover healthful living, nutrition, and emergency practices.

CAREER OPTIONS

Below is a sample of the career options available for the exercise science major. A few of these require an associate degree, most require a bachelor’s degree, and some require a graduate-level degree: athletic trainer, high school or college instructor, coach, corrective therapist, exercise test technologist, sports medicine doctor, recreation specialist, community center leader, personal trainer, rehabilitation technician, sportscaster, referee, resort sports coordinator, and sports club manager or personnel, exercise physiologist and physical therapist.

EXERCISE SCIENCE

TRANSFER PREPARATION * (MAJOR CODE: A1360)
Exercise science is the study of the processes through which individuals obtain optimal health, physical skills, and fitness. The academic foundation of exercise science is the study of human movement as it affects and is affected by physiological, psychological, developmental, sociocultural, and mechanical parameters.

While this program emphasizes preparation for the teaching career, the physical educator is prepared for a wide range of career opportunities in such fields as physical therapy, athletic training, recreation, research, and private fitness and health.

Program Student Learning Outcome Statement
- Learn how the body responds to exercise demands and the positive benefits, known as training effects, that can be achieved through healthy exercise habits.
- Differentiate between cardio-respiratory exercise and muscle strength and endurance exercise and how those components make up physical fitness.

Language and communication are at the heart of the human experience. Knowing another language gives one the powerful key to successfully communicate with speakers of other languages. Learning another culture prepares us to live in a multicultural world which helps us gain an especially rich preparation for the future. Each language program at Southwestern College is designed to facilitate interaction and communication with speakers of other languages, whether they are across town or across the world.

CAREER OPTIONS
Below is a sample of the career options available to students with fluency in a foreign language. Fluency and intercultural communication skills in a second language enhances opportunities in: government, business, medicine and health care, teaching, technology, the military, social service, law enforcement, communications, fashion, and marketing.

GENERAL DESCRIPTION
Geography is a science that seeks to analyze the physical environment as well as study human influences to and interactions with the environment. Thus, this discipline examines the various physical forces that help shape the landscape and the role that humans play in the alteration of the landscape. Geography is a spatial and temporal science. A geographer will study the spatial and temporal distribution of vegetation across the globe, the physical forces leading to earthquakes and volcanoes, the historical and future arrangements of human societies across the planet, and the reasons behind differing climates from one part of the world to the next—presently, historically, and predicatively. The field is strongly interdisciplinary with roots in the physical and cultural sciences.

CAREER OPTIONS
Below is a sample of the career options available for the geography major. A few of these require an associate in science degree, most require a bachelor’s degree, and some require a graduate-level degree: geographer, high school or college instructor, cartographer, weather observer, demographer, land use planner, geographic analyst, aerial photo interpreter, remote sensing specialist, land economist, climatologist, environmental scientist, geographic information system specialist, site researcher, urban planner, and soil conservationist.

GEOGRAPHY

TRANSFER PREPARATION * (MAJOR CODE: 01770)

Designed to introduce students to the department through the study of physical elements and cultural aspects of geography. Physical geography examines forces shaping the landscape including weather, soil, water bodies, and the Earth's interior. Cultural geography studies and compares location and distribution of human values such as cultures, religion, political ideologies, economies, languages, technology, population, and recreation combined to produce a cultural landscape. Regional geography concentrates on specific regions of the world, for example, California.

Program Student Learning Outcome Statement:

- Develop capabilities and technical skills to apply scientific research methods (in both natural and social sciences) to observe, collect, and process geographic data; to perform analysis based on the knowledge, theories and principles in geography; and to draw quantitative and qualitative conclusions.
- Develop capabilities and technical skills to apply scientific research methods (in both natural and social sciences) to observe, collect, and process geographic data; to perform analysis based on the knowledge, theories and principles in geography; and to draw quantitative and qualitative conclusions. Specifically, they should be able to demonstrate:
  a) The capability to identify and define research problems in physical and/or human geography fields; b) The capability to draw conclusions and/or suggest solutions based on their analysis results.

CERTIFICATES

GEOGRAPHIC INFORMATION SCIENCE—CONTINUING STUDENTS AND WORKING PROFESSIONALS

CERTIFICATE OF PROFICIENCY

CAREER/TECHNICAL (MAJOR CODE: 01771)

The following certificate track is designed for 1) continuing students seeking training in Geographic Information Science (GIS) for their specific discipline, and 2) working professionals seeking GIS training for their present job. The program introduces both GIS concepts and applications. Special emphasis is on hands-on experience with the hardware, software, and techniques employed in science, industry, and academia.

GIS integrates innovative tools and techniques that enables users to view and analyze temporal and spatial information in an exciting, dynamic, and productive fashion. Ultimately, a GIS helps you solve problems by looking at data in a way that is readily understood and easily shared. The ability of GIS to manage, correlate, predict, model, and share spatial information, visually and dynamically, makes GIS an essential component for any spatial discipline, including (but not limited to) geography, geology, environmental science, biology, political science, anthropology, humanities, criminal justice, health, history, education, economics, real estate, and military science.
Program Student Learning Outcome Statement:

- Communicate their understanding and analysis results by making maps, writing research papers and technical reports, and developing multimedia presentations. Specifically, they should be able to demonstrate the principles of cartography and the convention of map making.
- Develop capabilities and technical skills to apply scientific research methods (in both natural and social sciences) to observe, collect, and process geographic data; to perform analysis based on the knowledge, theories and principles in geography; and to draw quantitative and qualitative conclusions. Specifically, they should be able to demonstrate the following: The capability to observe, collect, and process geographic data with state of the art technology, including GIS, Remote Sensing, GPS, field data collection instruments, as well as obtaining data from document and literature sources.
- Demonstrate the capability to perform data analysis based on critical thinking skills and use of technical and quantitative methods, including GIS, Remote Sensing, modeling software, and statistical methods.

Special emphasis is on hands-on experience with the hardware, software, and techniques employed in science, industry, and academia. All of the core courses in this certificate track are short-track (8-weeks in length) and 100% online; the internship course (GEOG 153) will take place on campus or at a private or public entity.

Geospatial Technology integrates innovative tools and techniques that enables users to view and analyze temporal and spatial information in an exciting, dynamic, and productive fashion. Ultimately, geospatial technology (including GIS, remote sensing, and image analysis) helps one solve problems by looking at data in a way that is readily understood and easily shared. Today, a significant need exists within the workforce for personnel trained as Geospatial Technology Technicians.

GENERAL DESCRIPTION
Geology is the study of the composition, structure, and evolution of the Earth. It is an interdisciplinary science that combines geological observations and concepts with those of biology, chemistry, physics, and mathematics. This department explores rocks, minerals, fossils, and geologic principles and the processes such as plate tectonics, continental drift, and rock forming that continue to shape the Earth and its environments. Specialization within the field of geology ranges from engineering and geophysics to paleontology and marine geology.

CAREER OPTIONS
Below is a sample of the career options available for the geology major. A few of these require an associate in science degree, most require a bachelor’s degree, and some require a graduate-level degree: geologist, soils engineer, geological technician, earth science teacher, college instructor, geophysicist, park ranger, land use planner, geochemist, astrogeologist, marine geologist, glacial geologist, mining geologist, photogeologist, oil and gas geologist, mineralogist, paleontologist, volcanologist, and seismologist.

TRANSFER PREPARATION * (MAJOR CODE: 01780)
Designed for students who desire a general background in the field of geology in preparation for transfer to another college or university. Some of the courses listed below require the completion of prerequisites, and students should begin with the study of biology and mathematics.

Geology majors are advised to give first priority to lower-division requirements for the major as they are prerequisites for most upper-division courses. Only as many general education courses should be taken as can be included in the 70-unit transfer limitation, and these must be chosen with care to ensure that they fit into the general education pattern at the transfer school.

Program Student Learning Outcome Statement:
• Understand content of modern geology. Specifically, they will be able to explain the nature of tectonic forces in the Earth’s crust and their effects on most geological processes, understand and be able to explain geologic time and fossil record, and understand and be able to explain basic surficial processes and human interrelationships with Earth’s surface.
• Acquire knowledge and demonstrate skills to collect and analyze Earth’s minerals and rocks. Specifically, they will demonstrate the skills necessary to gather and interpret field and other types of geologic data, identify samples of basic mineral and rock material found on Earth’s surface, understand and be able to explain the basic physical and chemical attributes of Earth’s minerals and rocks, and explain how Earth’s basic minerals and rocks form chemically and physically.

Hospitality and tourism is a dynamic and growing industry in San Diego County with many opportunities and career paths for individuals who desire to advance and gain excellent positions in the field. While the field has many facets including recreation and entertainment, it is often divided into four key areas: event, and convention planning; travel and tourism; hotel operations; and culinary arts. The School of Business, Professional & Technical Education provides programs for employment training in all four areas at both the entry and management levels. Employment stability and wages vary within each area; however, the most lucrative positions can be found at the supervisory and managerial levels. These positions are often part of a career ladder which allows an entry-level employee to pursue additional education and training to gain positions of greater responsibility and higher wages. With this career ladder in mind, the School of Business, Professional & Technical Education has designed both a basic and an advanced certificate to allow students to enter or to advance in the industry. Our School has also designed an associate in science degree that will allow students to continue their studies with the goal of advancing even further within the industry.

In addition to these career training programs, a transfer program, Hospitality and Tourism Management, has been developed for students who desire to transfer to four-year institutions including San Diego State University at the local level, as well as other institutions at the state and national levels. Transfer students can work toward a bachelor’s degree in hospitality and tourism, which is often required for top-level or high executive positions.

Employment can also be found in marketing agencies and organizations, cruise ships, bakeries, restaurants, catering establishments, hotels, convention and meeting centers, recreation and sports centers, and casinos. Opportunities are great for entrepreneurs who develop businesses in the specialty areas of the hospitality and tourism industry.

GENERAL DESCRIPTION
The legal secretary assists attorneys with a wide variety of responsibilities including performing clerical duties; maintaining office files; working closely with attorneys to meet deadlines for court calendars; preparing summonses, complaints, motions, and subpoenas; and filing documents with the courts. In some law offices, legal secretaries review legal reference books, other legal publications or electronic media to identify court decisions pertinent to pending cases.

Southwestern College offers two excellent programs: Legal Office Professional and Legal Office Professional—Bilingual (English/Spanish). These programs provide students with strong legal secretarial skills and focus on developing excellent human relations skills with an awareness of the growing multicultural community in San Diego County. An added feature is that students have an option of working toward a certificate or degree emphasizing one or more legal specialties, including family law; civil litigation; criminal law; business law; international law; immigration law; and wills, trusts, and probate. Students with a specialty and/or knowledge of a frequently used foreign language will have the greatest opportunities for employment.

CAREER OPTIONS
Below is a sample of the career options available for the legal secretary or the legal secretary major. A few of these require a certificate of achievement and most require an associate in science degree: claims examiner, compensation and benefits manager, corporate legal secretary, court clerk, customs agent, forms and procedures specialist, freelance legal secretary, legal aide, legal technician, title examiner, court interpreter, legal documents translator, and entry-level paralegal.

A work experience component allows students to gain practical skills and to work toward employment. Students are introduced to the concepts of supply chain management, transporting goods, planning operations, inventory, and warehousing.

CAREER OPTIONS
The following list is a sample of the career options available for individuals who focus on logistics and transportation. Most of these career options require a certificate or an associate degree; some require a bachelor’s degree: cargo and freight agent/forwarder, global transportation agent, industrial engineer, international logistics manager, logistician, operations research analyst, production, planning and expediting clerk, supply chain executive/supply chain and logistics manager, transportation, storage, and distribution manager, and warehousing and materials handler.

SCHOOL OF MATHEMATICS, SCIENCE, AND ENGINEERING

DEPARTMENT CHAIR Richard Fielding, M.S.; Alexander Juden, M.S.

GENERAL DESCRIPTION
In today’s highly technological society, the study of mathematics has become increasingly important, particularly to computer science. Mathematics is a study that provides a foundation for problem solving and logical reasoning skills. It includes arithmetic, algebra, geometry, trigonometry, calculus, statistics, and computer programming, etc. Mathematics is the science of numbers and their operations, interrelations, combinations, generalizations, and abstractions. In addition to college-level mathematics courses (numbered 100 or above) that will meet the lower-division needs of college transfer students, Southwestern College offers developmental courses consisting of arithmetic through intermediate algebra.

Students may opt to take their developmental courses in one of several formats. All formats require students to study and complete assignments outside of class. Variable sections are self-paced and computer-aided, have no fixed class meetings, and may permit a student to complete more than one course per semester. Interactive sections have regular class meeting with an instructor who uses computer-aided instruction. Hybrid classes meet with an instructor, but with less-frequent campus meetings, and require additional computer-aided instruction outside of class. Traditional lecture sections may include computer-aided instruction or online assignments.

Many of the mathematics courses are designated “Requires graphing Calculator” in the class schedule. These classes incorporate new technology into the curriculum. Both traditional and calculator methods of problem solving are taught. Instructors may choose to require or prohibit calculator use on certain assignments. Students do not need to be proficient with their calculators before enrolling to do well.

However, students are encouraged to acquire and learn to use the graphing calculator prior to enrolling in college-level courses which require a graphing calculator. Graphing calculators which perform algebraic manipulation are not permitted in any Southwestern College math course.

CAREER OPTIONS
Below is a sample of the career options available for the mathematics major. A few of these require an associate degree, most require a bachelor’s degree, and some require a graduate-level degree: numerical analyst, teacher, engineering analyst, systems analyst, operations analyst, casualty rater, technical writer, research assistant, statistician, and computer specialist. In addition, there is presently a great need for high school and college mathematics instructors with this area of employment continuing to grow as society becomes more technological in business, industry, government, and education.

GENERAL DESCRIPTION
Designed to respond to the ever-increasing need for well-trained, skilled personnel to fill positions in the allied healthcare industry as medical assistants. Today’s healthcare industry demands a higher level of thinking and performance skills than ever before. The medical assistant programs prepare students for careers as administrative medical or clinical assistants or as medical office managers. The administrative medical assistant provides service to patients within the front office environment. The clinical medical assistant provides some administrative services to patients with primary duties in a clinical (back office) environment.

MUSIC
SCHOOL OF ARTS AND COMMUNICATION

DEAN  Donna Arnold, M.S., Office 702B, 619-482-6372
DEPARTMENT CHAIR  Cynthia McGregor, Ph.D.

GENERAL DESCRIPTION
Music is the art and science of incorporating intelligible combinations of tones into a composition having structure and continuity. The most abstract of the arts, is music which is sound moving in time. The four elements of music are rhythm, melody, harmony, and tone color. Composers and performers are concerned with each of the musical elements, which are experienced by the listener as a web of sound that makes it difficult to single out any one individually. Though little is known of ancient music, it would seem the earliest form was probably the beating out of rhythms long before the existence of either melody or human speech. Rhythm is part of the universe, from our heartbeat to the pulsation of stars.

CAREER OPTIONS
Below is a sample of the career options available for the music major. A few of the these require an associate in arts degree, most require a bachelor's degree, and some require a graduate-level degree: soloist, conductor, composer, private music teacher, high school or college instructor, music librarian, recording technician, band performer, backup artist, music critic, church music director, administrator, studio performer, record/CD producer, accompanist, arranger, copyist, publisher, and music therapist.

- economic, workforce, and community development

We promote student learning and success by committing to continuous improvement that includes planning, implementation, assessment, and evaluation.

**SOUTHWESTERN COLLEGE ADN MISSION STATEMENT**
Southwestern Community College Associate Degree Nursing Program serves a diverse community of students and provides educational preparation for the graduate in the role of a Registered Nurse and as professional member of the healthcare community.

The Nursing Program provides educational opportunities that enable our students to progress from a novice level of expertise to a graduate level of expertise in nursing skills, clinical reasoning, and theoretical preparation. The program promotes personal enrichment, community service and transfer for advanced nursing educational opportunities.

The Nursing Program promotes student learning and success by committing to a continuous improvement plan utilizing evidence-based practice which includes assessment, planning, implementation, and evaluation. The program celebrates successes as our students’ progress in the program, in their advanced degrees and as key members of the Nursing profession.

**THE ASSOCIATE DEGREE NURSING PROGRAM PHILOSOPHY**
The associate degree nursing faculty advocates the mission and goals of Southwestern College and the ADN program; furthermore, the faculty is committed to the following beliefs, which guide the nursing curriculum:

**BELIEFS ABOUT MAN, HEALTH, AND ILLNESS**
- Man is a unique individual with inseparable bio-psycho-social-spiritual needs.
- Man’s culture and ability to communicate needs are an integral component in health and wellness throughout the life span.

* Health is a state of complete physical, mental, and social well-being, not merely the absence of disease or infirmity.
* Health is on a continuum of maximum wellness to maximum illness throughout the life span.

**BELIEFS ABOUT NURSING**
- Nursing is both an art and a science. The science of nursing is the knowledge base for the care that is given; the art of nursing is the skilled application of that knowledge to help others reach maximum function and quality of life throughout the life span.
- Nursing is a profession that utilizes special skills and knowledge to provide safe care to the whole person in health and illness and in a variety of practice settings.
- Nursing requires critical reasoning skills that focus on health promotion, illness prevention, restoring health, and facilitating coping while utilizing therapeutic communication methods.
- Nursing care is determined by man’s human responses resulting from changes in the structure and/or function of all body systems.

**BELIEFS ABOUT STUDENTS, FACULTY, AND EDUCATION**
- Students are individuals with unique combinations of ethnic and cultural backgrounds, learning abilities, and support systems.
- Optimal student learning takes place in a safe environment that is supportive, provides frequent feedback, as well as strategies for success.
- Nursing faculty believe that learning is a lifelong process involving external changes in behavior and internal changes in thought process and attitudes. Nursing faculty are committed to their own lifelong learning and maintain currency in theory and skills through course work, CE opportunities, conferences and through their own experiential learning as a practitioner in the clinical setting.
- Nursing faculty believe that the role of the faculty is to facilitate student learning by providing instruction, clinical experiences, resources, counseling, and guidance.
- Nursing education incorporates knowledge from the humanities and the behavioral, physical, and natural sciences.
- Nursing education remains current and incorporates such resources as The National Patient Safety Goals and Institute of Medicine Reports (as it relates to nursing) as references for both the faculty and the students.
- Nursing faculty are committed to program core values that are reflected in each course: communication, clinical reasoning, cultural diversity, health promotion/illness prevention, life span development, nursing theory/skills, roles of the nurse, safety, evidence-based practice and quality improvement.

The Associate Degree Nursing program serves as the beginning preparation for the registered nurse with identified competencies, critical thinking, supervision, leadership, and delegation. Various nursing roles are also emphasized as the student nurse prepares for state licensure.

The Associate Degree Nursing program is accredited by the Accreditation Commission for Education in Nursing (ACEN).
### SPECIAL INSTRUCTIONS

Students enrolled in the nursing programs are required to provide their own transportation to off-campus clinical agencies and for home visits. A fee for malpractice insurance is charged for each year of the program, as well as a minimal fee for supplies. Students are also responsible for purchasing certain equipment such as a stethoscope.

CPR certification: students are required to be certified prior to admission and to maintain certification throughout the program. American Heart Association (AHA) certification, or a healthcare provider course is required.

Basic nursing skills: students must be certified nursing assistants or provide evidence of equivalent skills to be admitted to the nursing programs.

A grade of “C” or better is required in all nursing courses for progression and satisfactory completion. Progress in the nursing programs is dependent upon completion of nursing courses in the prescribed sequence as outlined for each program. Students will not be permitted to progress to the next semester until previous semester nursing courses are completed. Nursing courses may be repeated only once.

### REGISTERED NURSING—ASSOCIATE IN SCIENCE DEGREE

As of 2011, applicants will be accepted under the multi-criteria point system as mandated by the State Chancellor’s Office. In order to apply and be placed on the priority list for the ADN program, applicants must document the following:

- Basic science prerequisites Option 1 (Biol 260, 261, and 265) must be completed with a cumulative GPA of 2.5 (or Option 2, Biol 193) and microbiology with a 3.0 GPA. Foreign transcripts not submitted at time of application may not be used to meet program or graduation requirements. Required science courses taken at Southwestern College have prerequisites including college-level biology, chemistry, and algebra courses or credit for the appropriate college-level examination (CLEP).
- Recency: science prerequisite courses must be completed within 7 to 10 years of beginning the program (anatomy—ten years, physiology and microbiology—seven years).
- Basic nursing skills: students must be CNAs or provide evidence of equivalent skills.
- Graduation from a U.S. high school or satisfactory score on the GED or evidence of other high school equivalency certificate or a degree from a U.S. accredited institution.
- College-level reading ability as evidenced by a satisfactory result on the Southwestern College Reading Assessment process, earning a “C” or better in RDG 158, ENGL 116, or equivalent reading course; equivalency documented by approved petition; or college transcript showing an earned associate or bachelor’s degree from a U.S. accredited institution.
- Math proficiency as evidenced by eligibility for Math 70 or higher as demonstrated on the college math assessment process, earning a “C” or better in Math 60 or higher-numbered math course, or equivalent as documented by an approved petition.
- Passing the TEAS test with a result of 67 or higher; the test may be repeated only once.
- Other criteria i.e. working/volunteering in health care, receiving financial aid, being a veteran, holding a previous bachelor’s degree, etc.

**Note:** Math 60 or equivalent is required for graduation from Southwestern College.

Before a space in the nursing program can be offered, applicants must verify completion of the series of vaccinations for Hepatitis B or immunity to Hepatitis B or sign a form declining to be vaccinated.

Students who have been accepted into the program must meet the following conditions: attend a scheduled class orientation, submit a completed physical examination form with evidence of required immunizations, tuberculosis screening, CPR certification, and provide evidence of payment of malpractice insurance premium and ATI testing fees. Accepted students are required to complete an online background check and drug screening prior to enrollment into the program. The background check and drug screening are mandated.
by the policies of the hospitals/clinical sites for all health occupation programs faculty and students. Anyone with background check issues (includes misdemeanors and felony’s) may not be eligible for the program. Many of the hospital systems are now refusing to take students with any background check issues. Each student situation will be evaluated as they complete the background check. The student must provide a urine sample for drug testing per hospital request. If the urine sample is dilute, the student WILL NOT be eligible for acceptance into the program.

Effective fall 2007, all ADN, LVN-ADN and VN students must past the Test of Essential Academic Skills (TEAS). This is a diagnostic test that covers basic math, reading and science. Students may prepare for this test by going to the ATI testing site (http://www.atitesting.com/), then go to Assessments, go to Test of Essential Academic Skills (TEAS). The TEAS test is offered by the College once a month, and may be repeated only once. Under the new multi-criteria point system, a student will earn points for the first attempt only.

In addition to the above costs, students are required to pay for testing services provided by Kaplan Testing. These diagnostic tests are administered periodically throughout the nursing program beginning with an entrance test given during the first two weeks of classes. The test identifies weaknesses for the student to enable them to seek appropriate assistance during the program. Periodic additional tests must be passed before the student progresses in the program. Remediation is available for every student. A summer noncredit “Success in Nursing” course is encouraged for all students entering nursing.

Some financial assistance is available through Financial Aid. Application for assistance should be made early (preferably by April or May for new students) in the Financial Aid office. It is recommended that the student not work more than 20 hours per week.

Upon completion of degree requirements, the graduate is eligible to apply to take the National Council Licensure examination for Registered Nursing (NCLEX-RN). The Board of Registered Nursing (BRN) may refuse licensure to individuals who have been convicted of crimes and/or certain misdemeanors. Further information may be obtained from the BRN at 1747 North Market Blvd., Suite 150; Sacramento, CA 95834-1924 or the Program Director may be consulted. Program information may also be obtained from the Accreditation Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326.

PARALEGAL STUDIES

SCHOOL OF SOCIAL SCIENCES, BUSINESS, AND HUMANITIES

DEAN  Mark Meadows, Ph.D., Office 470K, 619-482-6570
FACULTY  Elizabeth Shapiro, J.D.
DEPARTMENT CHAIR  Gail Stockin, M.A.

GENERAL DESCRIPTION

The paralegal (legal assistant) works under the supervision of an attorney. Responsibilities are broad and varied including preparing and interpreting legal documents, interviewing clients, performing legal research, preparing for trial, and organizing and managing documentation. Paralegals often work with attorneys in specialized areas of law such as immigration, family law, personal injury, contracts, wills, trusts, and probate.

Southwestern College offers two programs, paralegal studies and paralegal studies—bilingual, which provide students with a litigation background and focus on developing an awareness and sensibility to the language, culture, and common legal issues of clients from various ethnic groups within the community. An understanding of international legal issues which impact San Diego due to its geographical location and other legal and business related activities are also developed.

Employment in the field tends to vary. Larger, well-established law firms commonly require a bachelor’s degree, and smaller law firms and legal agencies often require a two-year associate degree or its equivalent. Potential employees who have an advanced education level, knowledge of a frequently used foreign language, and/or an emphasis in a legal specialty will have the greatest opportunities in the job market.

CAREER OPTIONS

Below is a sample of the career options available for the paralegal studies major. A few require a certificate of achievement, some require an associate in science degree, and some require a bachelor’s degree: claims examiner, compensation and benefits manager, corporate legal assistant, court clerk, customs agent, forms and procedures specialist, freelance paralegal, legal assistant, investigator (for local, state, and federal departments and agencies), legal aide, legal research assistant, legal technician, patent agent, and title examiner. This training can also provide entrance to some careers in administration of justice such as youth authority, probation, and parole officer when a candidate passes appropriate tests and gains related experience.

DEPARTMENT CHAIR  Tinh-Alfredo V. Khuong, Ph.D.

GENERAL DESCRIPTION

The chemical industry is diverse, vast, and touches nearly every aspect of our lives on a daily basis. Pharmaceutical and laboratory science is a discipline in which chemical principles are applied to solve problems or produce materials in a wide range of fields in the areas of high-technology, consumer products, and healthcare. An education in pharmaceutical and laboratory science provides the skills and knowledge essential to carry out the tasks necessary to push forward the progress of the multi-billion dollar chemical industry, including hands-on experience with state-of-the-art analytical instrumentation, small molecule synthesis, computational methods, and protein electrophoresis and purification.

CAREER OPTIONS

The San Diego region is home to one of the highest concentrations of pharmaceutical, biotechnology, and other chemistry-based industries in the United States. An ever-increasing demand for skilled chemical technicians exists in the local job market. Graduates of the program will have gained the knowledge and skills necessary to perform many of the key laboratory tasks undertaken in a variety of industrial settings where research and development and/or manufacturing take place. Chemical technicians provide valuable support in companies involved in drug discovery, environmental and forensics analyses, development of new materials, petroleum refining, and the manufacturing of plastics, electronic materials, textiles, paints, foods and beverages, and cosmetics, among many others.

See a counselor for additional information.

To earn an associate degree, additional general education and graduation requirements must be completed. See page 59.

* Students planning to transfer to a four-year college or university should complete courses specific to the transfer institution of choice. University requirements vary from institution to institution and are subject to change. Therefore, it is important to verify transfer major preparation and general education requirements through consultation with a counselor in either the Counseling Center or Transfer Center. DEAN  Janet Mazzarella, M.A., Office 215A, 619-482-6344
FACULTY  Ken Yanow, M.S., M.A.
DEPARTMENT CHAIR  Tinh-Alfredo V. Khuong, Ph.D.

GENERAL DESCRIPTION
The physical science program is an interdisciplinary approach to the study of science that stresses the interrelationship of chemistry and physics, as well as geology, biology, astronomy, earth science, and mathematics. Learning in this department offers a broad academic background and facility in analytic thinking requisite for advanced study in any of the sciences while providing a greater diversity of knowledge than is possible with study in a single science.
CAREER OPTIONS
The usual career goal of the physical science major is to become a teacher in high school. Upon completion of the bachelor’s degree in physical science and other requirements for a single subject credential, graduates will be able to teach the following subjects in California high schools: chemistry, general science, physics, and physical science. Jobs for physical science teachers are becoming more plentiful with an increasing need for instructors in high school during the next ten years. Minority students or those proficient in Spanish are particularly in demand.

Lower-division requirements are not the same for all universities. The curriculum is designed for students who intend to transfer to a four-year college or university, such as SDSU, to earn a Bachelor of Science degree in order to become a high school science teacher. The State of California does not offer separate credentials in either chemistry or physics.

Program Student Learning Outcome Statement:
- Demonstrate broad science content knowledge in the physical sciences such as the nature and structure of matter, Earth’s place in the Universe, and the conservation of energy and matter.
- Demonstrate the application of quantitative skills (such as statistics, mathematics and the interpretation of numerical graphical data) to physical science problems.
- Demonstrate a general understanding of the nature of science, the methods applied in scientific investigations, and the value of those methods in developing a rigorous understanding of the physical world.
- Identify the difference between science and other fields of knowledge.

DEPARTMENT CHAIR Tinh-Alfredo V. Khuong, Ph.D.

GENERAL DESCRIPTION
Physics is the most fundamental science and underlies our understanding of nearly all areas of science and technology. In a broad sense, physics is concerned with the study of energy, space, matter, the interactions between matter and the laws which govern these interactions. More specifically, physicists study mechanics, heat, light, electric and magnetic fields, gravitation, relativity, atomic and nuclear physics, and condensed-matter physics.

CAREER OPTIONS
Below is a sample of the career options available for the physics major. A few of these require an associate degree, some require a bachelor’s degree, and most require a graduate-level degree: research assistant, laboratory technician, high school or college instructor, technical writer and research or applied physicist in acoustics, atmospheric physics, astrophysics, astronomy, atomic and molecular physics, electricity and magnetism, electronic instrumentation, energy conservation, geophysics, health physics, mechanics, heat or light physics, medical imaging, nuclear medicine, solar energy, nuclear physics, engineering, and scientific computing.

Continuing Education is an umbrella term that includes noncredit, contract, and fee-based courses. Continuing education provides the opportunity for community residents to improve, upgrade, and learn new skills and knowledge. This effort responds to the need for a well-trained workforce, as well as the individual need for intellectual or cultural enrichment. The Continuing Education Program supports the mission of California Community Colleges.

NONCREDIT COURSES

Noncredit courses are courses that meet community needs in ten instructional areas: parenting, basic skills, English as a Second Language (ESL), citizenship for immigrants, courses for the disabled, vocational courses, courses for older adults, home economics, health and safety, and workforce preparation (California Education Code, Section 84757(a) and 84760.5, and Title 5, Section 58160.) Noncredit courses are open to the public, are tuition-free, and are not offered for college credit. The College receives apportionment for noncredit courses at approximately half the rate for credit courses. Credit and noncredit courses are approved by the College's Curriculum Committee (See Section 4.D.1 for a more detailed explanation).

Noncredit courses are tuition free and are subsidized by state funds. These courses require all students to complete the Noncredit Application. Most noncredit classes do allow on-site registration on a space-available basis. Course numbers for noncredit classes start with “NC.” Students seeking to enroll in a noncredit class must complete a Noncredit Application if they have not taken a noncredit course within the last semester.

NONCREDIT REGISTRATION IS ALSO AVAILABLE THROUGH WEBADVISOR

If you are currently attending Southwestern College or have attended a credit or noncredit class within the last semester, you may register by WebAdvisor. To register, you must have your student identification number or your social security number, and the course and section number. This option is only available up to the Friday before the semester begins.

Class adds starting with the first day of classes require a completed Noncredit Application or class add form.
