

NeuroLinks

Sol omnibus lucet ~ The sun shines on us all

Are you, or do you know a student who has an Autism Spectrum Disorder or a student who struggles with social and/or communication skills?

These students encounter challenges in some of the following areas:

- Working effectively in groups
- Setting boundaries
- Seeing others points of view
- Asking for clarification or assistance
- Understanding social rules

Disability Support Services offers a group to provide interested students with opportunities to develop, practice, and learn new methods and strategies to successfully navigate and enjoy campus life.

We meet on Fridays from 11:30-1:30PM. Activities include games, socializing, and learning skills needed to be successful at Southwestern College. Lunch is provided for free!

If you are a student, or know of one, that might benefit from attending the group, please contact or refer the student to **Michelle Gealy, Psy.D.** in *Disability Support Services (DSS)*. Interested students can arrange an appointment by contacting DSS and asking for a 30 minute **NeuroLinks** screening appointment.

For further information, please contact me at mgealy@swccd.edu or 619-482-6512.
