

Graduated Apprentices messages

“

Lisa

The Apprenticeship Program provides the perfect opportunity to grow a job into a career. You will be guided by the best professionals that will build your ability and confidence moving forward within your career path.”

“

Jason

The Apprenticeship Program can offer you a new career change and life experiences, no matter your age or demographic. The Instructors are very supportive”

“

Heideh

Apprentices are taught how to make a difference. As they make their way through the apprenticeship, they learn why it took the time it did to learn these lessons and the importance of staying the course.”

Who We Are

Since 2010, the Southwest Regional Apprentice Program (SWRAP) has been based at Naval Air Station North Island on the island of Coronado. SWRAP is run by the San Diego Detachment of the Puget Sound Naval Shipyard. In addition, we are partnered with three local Naval Activities -- Portsmouth Naval Shipyard Detachment San Diego, Southwest Regional Maintenance Center and the Fleet Readiness Center Southwest. Along with our partners at Southwestern College, we train future shipyard leaders.

Some of the trades we specialize in are Electricians, Pipefitters, Welders, Marine Mechanics, Riggers and Machinists. All of our instructors and apprentices are employees of the US Federal Government.

APPRENTICE PROGRAM OVERVIEW

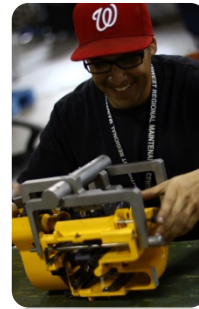

For those selected to the Southwest Regional Apprentice Program: The first three (3) years are equally divided between trade skill training and taking college classes, which leads to an Associate of Science degree: Business Management at the end of the 3rd year.

After successful completion of College and trade courses, emphasis shifts from academics to specific skill training on the job, leading toward the apprentice achieving journey level certifications through the Department of Labor and Department of Navy.
