SWC Students: TB skin testing and TB risk assessment are offered to currently enrolled students who have paid the HS fee. TB skin testing is offered only at Chula Vista location.

SWC Employees: Upon initial employment and as a condition of employment, and every four years thereafter, you are required to file documentation with the Human Resources (HR) Office indicating that you are free from active tuberculosis. You **MUST** submit this documentation prior to your **FIRST** date of employment, failure to do so will cause a delay in your start date. If you have verification indicating that you are free from active tuberculosis dated within the past four years, you may submit a copy to the Human Resources Office. Please have the TB Assessment Form completed AND the Certificate of Completion submitted to Human Resources prior to your first date of employment. **If you do not have a medical provider**, you may have the Risk Assessment reviewed by Health Services Office in the Student Center (Room 601F) free of charge. For Health Services hours of operations, contact (619) 482-6354. SWC does not pay and will not reimburse for any charges incurred for any test and/or chest x-ray.
