

How to Search for Media

The Southwestern College Library maintains a collection of multimedia in support of the college's academic endeavors. From the library homepage use the library catalog to search for the media materials you need.

With your search results you can use the Limit by box on the right side of your result list screen. Use the drop down arrow to limit your results to just "Videos, DVDs and other media" in the library's collections.

Our videos have call numbers and can be found in our open stack media shelves behind the reference collection in the library. At the main campus students may view DVD materials in the library.

The screenshot shows the SWC Library website with a search bar containing 'climate change'. The search results show 10 titles matched for 'global warming'. The first result is 'The big energy gamble [videorecording] / written and produced by Larry Klein ; produced by Cass Sapp'. A black arrow points from the text above to the title of this result. Below the title is a table with columns: Location, Collection, Call No., and Status.

Location	Collection	Call No.	Status
Southwestern College Library	Digital Video Disc (DVD)	TJ808.U6 B54 2009 dvd	Checked In

The second result is 'Becoming green [videorecording] : growing environmental awareness.' Below this title is another table with the same columns:
