## Project Description:
This security project provides Southwestern College with an ideal security solution by installing campus Emergency Phone Towers in 40 locations throughout the Chula Vista campus, and installations at the National City, San Ysidro, and Otay Mesa campuses. The highly visible Emergency Phone Towers stand over 9 feet tall and are vandal-resistant. Each tower is an LED Blue Light mounted atop the tower providing a highly visible security resource.

Emergency calls can be placed with a simple push of a button initiating a Flashing Blue LED Light. Each unit is also ADA compliant and is commonly used at various universities/campuses, parking facilities, shopping malls, medical centers, transit facilities and other remote areas.

## Project Budget: $2.8M

- **Construction** $2.4M
- **Design** $240K
- **T & I** $48K
- **Other Soft Costs** $72K

## Project Features:
- Installations throughout the SWC District
- 9’ Campus Emergency Phone Towers
- ADA compliant
- Vandal Resistant/Crime Deterrent
- Security Solution for remote areas
- Always lit, bright, highly visible Blue LED Light
- Contemporary architecture
